

2017-2018
RISK & SAFETY COMMITTEE

The CSUSB Risk & Safety Committee will seek to create and sustain a high level of awareness about 1) risk management, 2) public safety, 3) environmental health and safety, and 4) disaster/emergency preparedness. The Committee will help assure a safe environment for faculty, staff, students and visitors by serving as a forum in which risk and safety issues may be discussed and recommendations for improvement submitted.

Charge

The Risk & Safety Committee's charge includes:

- Identify and analyze risk, public safety, health and environmental, and emergency issues that affect the campus
- Recommend prevention approaches, training and education strategies, and provide guidance on implementation of such methods
- Assess and review current response protocols
- Study, review, advise and recommend policies and procedures relating to the safety and security of persons and CSUSB facilities
- Provide information and advocacy for members of the campus community who have safety concerns

Sub-committees will be created as needed to address particular issues or functional areas. Committee members, key campus personnel and volunteers will be invited to serve according to expertise and interest.

The Executive Director of Risk Management will be responsible for bringing the concerns of the Risk & Safety Committee to the VP Administration & Finance who will apprise the university President, as appropriate.

Meetings

The Risk & Safety Committee will meet as necessary to conduct its business, but no less than once during each of the fall, winter and spring quarters.

A meeting agenda will be sent at least one week in advance of a scheduled committee meeting. Minutes will be taken at each meeting and kept on file in the Risk Management office.

Membership

The diverse membership includes CSUSB faculty, staff, students and administrators.

**2017-2018
