

A Special Message to the Campus Community:

I am extremely pleased to announce that Dr. Ginny Stewart-Hattar has accepted an offer to serve as Cal State San Bernardino's Director of Special Events.

A three-time alumna of this university – having earned her bachelor's, master's and doctoral degrees here, Ginny has more than 16 years of experience working in CSUSB Special Events & Guest Services. That includes serving as senior specialist from 2015-17, then taking over as interim director following the retirement of Executive Director Carol Dixon last December.

During her CSUSB career, Ginny has overseen operations and programs such as Coussoulis Arena management, university commencement, and campus and community events. Her work on high-profile projects such as spring and winter commencements, university showcase, numerous groundbreaking and grand opening ceremonies, and a wide variety of informational and entertainment programs highlight her supportive efforts with campus and local constituencies. She also has developed and strengthened working partnerships throughout the region to enhance the image and perception of this institution.

In addition, Ginny has twice served as a grant budget analyst, been a co-project manager and trainer for event scheduling on both the San Bernardino and Palm Desert campuses, and been a member of several committees. She has also received university honors on five different occasions in recognition of individual and collaborative efforts on successful campus-wide endeavors.

We are fortunate to have an individual fill this essential role who has such a depth of experience and keen familiarity with our university, its history and the high standard of excellence. I am confident the entire CSUSB community will remain proud of the many memorable and rewarding events taking place on our campus.

I'd also like to thank the search committee for their outstanding work. Chaired by Ron Fremont, the committee included Michael Arteaga, Elizabeth Slaton, Diana Quijano, Joeleen Monclova, and Rina Nolasco.

Please join me in congratulating Ginny on her new position within our vibrant community.

Sincerely,

Tomás D. Morales
President
