## Welcome to the CSUSB Statistical Factbook!

The version of the Factbook you are now reading reflects significant changes to statistical data reporting implemented in the 2006-07 academic year. Historically a full-time equivalent student (FTES) was defined by 15 units per quarter (45 per year). This year brought a differentiation for students in Master's programs for whom 12 units defined one full-time equivalent. The CSU System has also begun differentiating between California Residents and Non-Residents so a Residency distinction has been included on several tables. While some tables provide historical statistics based on the current coding rules, most tables will reflect the definitions in effect at those past times.

All of the reports have been generated using aggregated statistical databases contained in stand-alone Excel worksheets. Several versions of the Factbook are available to help meet the statistical information needs of a full range of users:

- A paper version designed to address the most common requests for data;
- An Adobe Acrobat (.pdf) version from the Institutional Research web site; and
- Excel Workbooks. The current conversion from the SIS+ information system to the PeopleSoft CSU Common Management System will eventually bring a Data Warehouse which will enable a wide range of *ad hoc* reporting capabilities to the campus community. Until that time, the Office of Institutional Research has been maintaining a series comprehensive databases in Microsoft Excel™ consisting of the tables published here as well as the capability to easily generate customized reports that are not feasible for inclusion in a Factbook for general audiences. These can be downloaded from the Institutional Research web-site. We are also willing to provide technical assistance to casual users who may be unfamiliar with Excel's built-in reporting capabilities.

All of the electronic versions (and more) are available at:

## CSUSB Office of Institutional Research

This website pertains to statistical summaries and research studies prepared by the Office of Institutional Research at California State University, San Bernardino (CSUSB). Website updated: 3-30-2010

**MISSION STATEMENT:** The Office of Institutional Research at California State University, San Bernardino is committed to:

- generating and disseminating enrollment data, studies, and reports for academic leaders, planners, departments, and colleges to assist in assessment, quality improvement, and decision-making
- ensuring timely, efficient, and accurate generation of data and reports for reporting purposes and adhoc requests
- initiating survey development and data analysis to evaluate our institution
- empowering faculty, staff, administrators, and academic leaders through one-on-one or group workshops (e.g., Basic SPSS, Excel Pivot Tables and Graphs, starting a simple database).
