

## How to Volunteer for Service

People in the local community, in all walks-of-life, volunteer their service to a variety of organizations for an even greater variety of worthwhile reasons. Here at Cal State, San Bernardino, we are very fortunate to have a cadre of people who volunteer their skills, knowledge, experience and time to the University. We are very happy to utilize these service oriented people and in turn provide them with appropriate training and experience for potential employment opportunities for their efforts.

It's easy to become a University Volunteer. Contact any College Dean or Department Chair and ask if they could accommodate volunteers, or, get in touch with our [Human Resources Department](#) or with [University Advancement](#) to check out what is currently available.

The CSUSB faculty, staff and especially the students thank you for your interest in volunteering.

**Note:** all volunteers must first [register](#) with Human Resources, in accordance with the [California State Government Volunteers Act, Cal Government Code §3110et.seq.](#)
