

A Survey of Recent Graduates

By: Yamira Murga
Administration Support Coordinator II
Institutional Research
California State University, San Bernardino
November 23, 2013

Introduction:

As a supplement to resources utilized by a self-study authors, this report presents data from the Survey of Recent Graduates. The survey has a total of 71 questions, three of which are open-ended.

Purpose of the Survey:

The purpose of the survey was to evaluate the overall outcomes of the student while attending CSUSB. Topics such as coursework, the campus environment, personal growth and attitudes, and educational goals were addressed.

Sampling:

Students who officially graduated in the academic year 2012-2013 were selected to participate. A total of 3,825 degrees were awarded in the academic year. Of the graduating students, 2,968 were emailed a URL link of this online survey. Eight hundred and fifty-seven students from the original graduating students were not

surveyed due to having an unknown email or contact restrictions.

Results:

Reminder emails were sent three times within a one-month timeframe. A total of 210 (5.5%) of the students completed the survey.

Caution is suggested when interpreting low sample sizes in small departments causing percentages to inflate. Percentages displayed may not add to 100% due to rounding.

Open-ended responses are typed as entered by students. No spelling or grammatical corrections were made.

For further analyses, researchers can request SPSS or Excel files from Institutional Research. This report can also be viewed as a PDF file at <http://ir.csusb.edu>.
