

## **Fall 2017 Teaching Skills Study Award Report**

**1) TITLE:** Fall 2017 Teaching Skills Study Award

**2) NAME:** HyunKyoung Oh, Ph. D.

**DEPT:** Kinesiology

**EMAIL:** hkoh@csusb.edu

**3) NAME OF CONFERENCE that I attended:** 46<sup>th</sup> National Adapted Physical Education Conference (NAPEC) at Sacramento, CA, November 16-17, 2017

**4) Teaching Skill(s) Studied:**

The NAPEC conference has offered one of the best practical programs and training sessions for adapted physical education (APE) field. The purposes of attending this conference were to participate in the various sessions that offered and addressed instructional strategies and assessment methods for APE credential classes and to participate CSU APE coordinators meeting.

**5) Impact on Current Teaching (How was this info applied)?**

Attending this conference directly enhanced my teaching strategies and methods as following:

For KINE 311 and KINE 332 courses, I attended “Strategies, Tips, and Equipment to Instruct Students with Visual Impairment” I learned some tips to teach student with visual impairment in physical education setting.

Preparing for California Commissions on Teacher Credentialing (CCTC) Accreditation and getting new state standards information is one of the responsibilities for my work as the APE program coordinator. Through CSU APE Coordinators’ meeting, I got valuable CCTC site visit information as a result, CCTC site visit (April 22-25, 2018) was successful and received 7 years of accreditation.

The NAPEC conference is one of the most practical training programs for teachers and educators in California. Attending the 46<sup>th</sup> NAPEC conference provided a vital opportunity to gather up-to-date practical information in public school settings in California.

I would like to thank The TRC’s support. I have learned a lot from this conference.

**6) Date Submitted: October, 9 2018**
