Report on the Financial Statements

We have audited the accompanying financial statements of CSUSB Philanthropic Foundation (the Foundation) (a non-profit organization), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities, expenses by natural classification, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Foundation's 2016 financial statements, and we expressed an unmodified audit opinion on those audited financial statements. In our opinion and our report dated September 19, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information on pages 24-32 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 18, 2017, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

**CSUSB PHILANTHROPIC FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

The CSUSB Philanthropic Foundation (the Foundation) was created on July 1, 2011 pursuant to the general Non-Profit Corporation Laws of the State of California. The Foundation was organized to promote and assist education, administration and related services of California State University, San Bernardino. The Foundation operates as an auxiliary organization of the California State University, San Bernardino (University) under an operating agreement with the Trustees of the California State University (Trustees) which expires December 31, 2021. All fundraising activities are conducted by the University.

Major Program Services

The Foundation's major program services include:

Designated Gift Administration, services provided in support of designated gift and endowment funds.

Scholarships, including grants-in-aid and other financial assistance to students.

Estimates

The preparation of these financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates. Management also determines the accounting principles to be used in the preparation of the financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows.

Basis of Accounting and Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles. The financial statements are presented in accordance with accounting standards issued by the Financial Accounting Standards Board (FASB). Accordingly, information regarding the financial position and activities are reported according to three classes of net assets: unrestricted net assets that are not subject to donor-imposed restrictions and may be designated for specific purposes by action of the Board of Trustees, temporarily restricted net assets whose use by the Foundation is subject to donor-imposed restrictions that can be fulfilled by actions of the Foundation or that expire by the passage of time, and permanently restricted net assets which are stipulated by donors as investments in perpetuity, the income from which may be expendable by the Foundation.

CSUSB PHILANTHROPIC FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

**NOTE 1: SUMMARY OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES,
(continued)**

Cash and Cash Equivalents and Concentrations

For purposes of the statement of cash flows, cash and cash equivalents include all highly liquid debt instruments with a maturity of three months or less from the date of purchase.

The Foundation maintains its cash in three financial institution accounts. The standard insurance amount under the Federal Deposit Insurance Corporation (FDIC) is \$250,000 per depositor, per insured bank, for each account ownership category. These balances may at times exceed the insured limits. As of June 30, 2017, the Foundation's cash balances exceeded the federally insured limits by \$4,327,722.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. The fair value of investments in securities is based on the quoted market price of the underlying securities. Investments in real estate are stated at acquisition cost. Unrealized gains and losses are included in the change in net assets. Short-term investments consist of debt securities with original maturities of twelve months or less. Long-term investments consist of debt securities with original maturities greater than twelve months.

Prepaid Expenses

Prepaid expenses are advance payments for products or services that will be used in the Foundation's programs or activities in subsequent periods.

Receivables and Allowances

Other receivables are presented net of an allowance for doubtful accounts. Any allowance is based on prior years' experience and management's estimate of collectability. Management estimates that all receivables at June 30, 2017 are fully collectible, and therefore no allowance has been presented.

Promises to Give

The Foundation recognizes a contribution when the donor makes a promise to give that is, in substance, unconditional. Contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets. The Foundation uses the allowance method to determine uncollectible promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made. Promises to give are presented at the net present value of the gifts.

CSUSB PHILANTHROPIC FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

NOTE 1: SUMMARY OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES,
(continued)

Property, Plant and Equipment

Property, plant and equipment are carried at cost or, if contributed, at fair market value at the date of contribution. Intangible assets include patents and software. The Foundation's policy is to capitalize additions and improvements that significantly add to productive capacity or extend the useful life of an asset and are above \$5,000. Repairs and maintenance are charged to operations as incurred. Costs and related allowances for depreciation of property, plant and equipment sold or otherwise retired are eliminated from the accounts and gains or losses on disposition are included in the changes in net assets. Depreciation and amortization are calculated using the straight-line method over the estimated useful lives of the assets.

Donated Materials, Services and Other Assets

Donated materials and other assets such as stocks, bonds and other long-lived assets are recorded at their estimated fair value at the date of donation. Such donations are reported as increases in unrestricted net assets unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. The Foundation reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Foundation reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Donations to the art collection are recorded at estimated fair value at the date of the donation and are not subject to depreciation. Items are considered to be part of the art collection if they are held for exhibition to the public, for educational purposes, or for research (and not for financial gain) and proceeds from the sale of collection items are to be reinvested in other collection items.

No amounts have been reflected in the financial statement for donated services. The Foundation generally pays for services requiring specific expertise. However, many individuals volunteer their time and perform a variety of tasks that assist The Foundation with specific assistance programs. The Foundation does not track the extent or quantity of donated services by its volunteers, and accordingly, no monetary or nonmonetary information has been disclosed.

Income Taxes

The Foundation is a Not-for-Profit tax-exempt Corporation organized under Internal Revenue Code Section 501(c)(3) and is classified as other than a private foundation. A comparable exemption has been granted by the State of California under the Revenue and Taxation Code 23701(d). However, any unrelated business income may be subject to taxation. The Foundation had no obligation for any unrelated business income tax during the year.

The Foundation's Forms 990, Return of Organization Exempt from Income Tax, for the years ending June 30, 2014, 2015 and 2016 are subject to examination by the IRS, generally for 3 years from the date of filing.

Subsequent Events

Management has evaluated subsequent events through September 18, 2017, the date the financial statements were available to be issued.

NOTE 2: INVESTMENTS AND FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds - Balances in money market accounts valued are valued at the broker statement values, which represent the amounts for which the Foundation could convert the money market funds to cash.

**CSUSB PHILANTHROPIC FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 2: INVESTMENTS AND FAIR VALUE MEASUREMENTS, (continued)

Mutual Funds – Shares of mutual funds are valued at quoted market prices, which represent the net assets value of shares held by the Foundation at year-end.

Equity Securities – Equity securities are valued at last quoted sales price as of the close of trading at year-end; such securities, not traded on the year-end date, are valued at the last quoted bid price.

Hedge Funds – The Multi-Strategy Fund is valued by the independent investment managers of the fund. The market value of the fund is obtained from the investment statements provided by the investment trustee.

Private Real Estate Investment Fund – The private real estate investment fund is valued at acquisition cost adjusted for current year earnings. The market value of the fund is obtained from the investment statements provided by the investment trustee.

Exchange Traded Notes – These investments are valued at last quoted sales price as of the close of trading at year-end; such securities, not traded on the year-end date, are valued at the last quoted bid price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements and levels within the fair value hierarchy of those measurements for the assets reported at fair value on a recurring basis at June 30, 2017 are as follows:

	Total	Fair Value Measurements at June 30, 2017		
		Level 1	Level 2	Level 3

NOTE 3: INVESTMENT POLICY

The Foundation's portfolio shall be invested with the objective of long-term growth assets. With this long-term objective in mind, the portfolio shall be invested to provide safety through diversification in a portfolio of common stocks, bonds, cash equivalents, and other investments, all of which may reflect varying rates of return.

The investments shall also be diversified within asset classes (*e.g., equities shall be diversified by economic sector, industry, quality, and size*). Portfolio diversification provides protection against a single security or class of securities having a disproportionate impact on aggregate performance.

The Foundation endeavors to invest in strategies and investments that avoid a permanent loss of capital, with the exception of alternative investments, such as venture capital. The Foundation is willing to accept a temporary loss of capital if the return to risk profile is reasonable.

As a general rule, the Foundation will follow the Prudent Investor guidelines widely used in the investment management industry, the guidelines of the CFA Institute, and the general fiduciary standards described in the Uniform Prudent Investment Act (UPIA), as well as the Uniform Prudent Management of Institutional Funds Act (UPMIFA).

NOTE 4: ENDOWMENT

The Foundation's endowment consists of approximately 200 individual funds established for a variety of purposes, all of which are donor-restricted. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence of donor-imposed restrictions.

The Board of Directors of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets, (a) the original value of gifts donated to the permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA.

NOTE 5: ENDOWMENT SPENDING POLICY

The spending policy should meet current operating needs and protect the future purchasing power of the Foundation. However, spending policies which provide complete assurance against the loss of purchasing power also create a high degree of spending instability. Thus, the basic challenge is to create a policy which offers a reasonable defense against loss of purchasing power, but which also stabilizes the amount available from the Foundation for spending.

Taking these factors into consideration, the Foundation's Investment Committee has determined that the pay-out from the Foundation's endowment accounts, which approximates 4.0% of the market value averaged over a three-year period, is adequate to supplement the current operating needs. The maximum annual spending rate for the endowment shall not exceed 4.0% of the prior three years average market value of the portfolio. For funds that have been invested for less than three full years, the following rates of spending shall be allowed:

0-1 Year	No funds shall be allocated for spending
1-2 Years	4.0% of the market value at the end of Year One
2-3 Years	4.0% of the average of the market values at the end of Years One and Two
Over 3 Years	4.0% of the average of the market values of the prior three years

If an endowment drops below its historic gift value, normally all spending will be suspended until such time as the endowment regains positive status, unless the Foundation believes it is prudent to distribute from a fund that is below its historic value.

As of June 30, 2017, a small portion of the endowments are under their historic gift value. The resulting amount needed to bring the endowments to a positive status was \$801 and is reflected in the Statement of Activities at June 30, 2017.

NOTE 6: ENDOWMENT INVESTMENT ASSET ALLOCATION

The long-term target asset allocation for the investment portfolio is recommended by the Foundation's investment consultant and approved by the Foundation to facilitate the achievement of the long-term investment objectives within the established risk parameters.

**CSUSB PHILANTHROPIC FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 6: ENDOWMENT INVESTMENT ASSET ALLOCATION, (continued)

As the allocation of funds among asset classes may be the single most important determinant of the investment performance, the assets shall be divided into the following asset classes:

	<u>Maximum %</u>	<u>Minimum %</u>	<u>Target %</u>
Large Cap Equity	33%	17%	25%
Small (Mid) Cap Equity	13%	7%	10%
Developed Int'l. Equity	26%	14%	20%
Emerging Markets	7%	0%	5%
Real Estate (Public)	5%	0%	2.5%
Real Estate (Private)	5%	0%	2.5%
Commodities	5%	0%	2.5%
Fixed Income	33%	17%	25%
Alternatives	13%	0%	10%

The actual asset allocation, which will fluctuate with market conditions, will receive the regular scrutiny of the Foundation's investment consultant who will recommend, when appropriate, that the Foundation make changes to the policy.

NOTE 7: SPLIT-INTEREST AGREEMENTS

The Foundation is the beneficiary of various charitable remainder trusts (CRTs) which provide for the payment of distributions to the grantor or other designated beneficiary over the trust's term (generally the designated beneficiary's lifetime). At the end of the trust's term, the remaining assets are available to the Foundation. The Foundation recognizes the fair value of its interest in the trust at the time the trust is established as a contribution. Fair value is based on the present value of the estimated future benefits to be received using discount rates ranging from 8.2 percent to 9.4 percent. Assets held in the charitable remainder trusts totaled \$5,409,427 at June 30, 2017 and are reported at fair value, as part of the Long-term investments on Statement of Financial Position depending on the nature of the assets. The Foundation did not receive additional contributions to split-interest agreements during the year ended June 30, 2017. The Foundation revalues its liability to make distributions to the other designated beneficiaries annually based on mortality tables and other applicable factors. The change in the value of the split-interest agreements recorded for the year ended June 30, 2017 was a decrease of \$109,222. A reevaluation of charitable remainder trust assets and corresponding liabilities at June 30, 2017 resulted in a change in temporarily restricted net assets.

To the Board of Directors of
CSUSB Philanthropic Foundation

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of CSUSB Philanthropic Foundation, (a non-profit organization), as of and for the year ended June 30, 2017, and the related notes to the financial statement, which collectively comprise the Foundation's basic financial statements, and have issued our report thereon dated September 18, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered CSUSB Philanthropic Foundation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of CSUSB Philanthropic Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether CSUSB Philanthropic Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
