# myCAP

### **Quick Reference Guide**

The myCoyote Academic Plan (myCAP) is an academic planning tool which allows students to plan courses to take throughout their academic career. These plans can provide valuable course demand data to academic departments.

myCAP should be used in conjunction with "roadmaps" provided by your major. These "roadmaps" contain information on when best to take courses to stay on track to graduate.

Click on the Roadmaps menu option or the hyperlink in the Help section to view active roadmaps. Be sure to note your major/ concentration and catalog year to choose the correct roadmap.

Your myCAP works with the PAWS report to ensure you are planning efficiently towards graduation. It is suggested you use the "Check Plan against PAWS" button frequently to verify planned courses are meeting PAWS requirements.

myCAP is a tool allowing you to plan future courses – all the way to graduation!

#### PAWS - myCAP Roadmaps

#### myCoyote Academic Plan (myCAP) Builder:

This is an academic planning tool only and does not check prerequisites or class availability. Your PAWS report is the official document which shows all requirements needed for your degree. Be sure to click the "Check plan against PAWS" button to ensure all requirements are being accounted for. You may also access department provided <u>Roadmaps</u> for assistance. Click "Show Help" below for additional information.

## At the Term Level

+

Add Course: Allows you to add a course manually to a plan that may not appear on your PAWS (ex. remedial, pre-requisite and/or free electives)

Add Course	×
Department Abbreviation:	
Course Number:	
	OK Cancel

May indicate a problem with the planned course; clicking the symbol will provide more information

## The Plan (myCAP)

As you build your plan, confirm the courses you plan are fulfilling your graduation requirements with the **Check Plan (myCAP) against PAWS** button

A "PL" grade notation will display for planned courses and terms on the Plan Builder page

When adding courses in Schedule Planner, you can click on the My Planner tab and view/add the courses you have outlined in your preferred plan
