

A Special Message to the CSUSB Community:

On behalf of the CSUSB community, I want to send our sincere thoughts and prayers to all those affected by today's terrible tragedy at North Park Elementary School. We are saddened by this senseless act of violence, which resulted in loss of life and inflicted pain and suffering few can ever understand. We especially reach out to the children, parents, teachers, staff and administrators at North Park and the San Bernardino City USD, offering our support wherever needed.

CSUSB stands alongside our friends and colleagues in the school district. After the incident broke early this morning, our police officers were among the first responders. The children were later brought to campus, where countless faculty and staff representing each of the divisions, as well as our partners at Sodexo, immediately volunteered to provide help in organizing, feeding and comforting several hundred K-6 students. Today we showed our Coyote pride and I want to personally thank each and every one of you.

As a community united, let us all come together to support and console those in need. We know the coming days and weeks will be incredibly difficult for those students, families and professionals touched by today's shooting, so please keep them in your thoughts.

Tomás D. Morales
