# List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year’s report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

THIS PAGE INCLUDES:

>> [Program Information](#)

## Program Information

List each teacher preparation program included in your alternative, ihe-based route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at <https://www2.ed.gov/programs/tqpartnership/awards.html>.

Number of full-time equivalent faculty supervising clinical experience during this academic year	6
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	47
Number of students in supervised clinical experience during this academic year	72

Please provide any additional information about or descriptions of the supervised clinical experiences:

# Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

>> [Enrollment](#)

## Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2017-18	89
Unduplicated number of males enrolled in 2017-18	19
Unduplicated number of females enrolled in 2017-18	46

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.  [\(§205\(a\)\(1\)\(C\)\(ii\)\(H\)\)](#)

2017-18	Number Enrolled

Hispanic/Latino of any race	20
Race	

2017-18	Number Enrolled

Native Hawaiian or Other Pacific Islander	<input type="text" value="0"/>
White	<input type="text" value="7"/>
Two or more races	<input type="text" value="0"/>

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

On this page, enter the total number of individuals who completed the program in AY 2017-18 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

# Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

## Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <https://www2.ed.gov/about/offices/list/oep/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

### Academic year 2017-18

1. Did your program prepare teachers in mathematics in 2017-18?

- ☒ Yes
- ☐ No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in mathematics in 2017-18?

15

3. Did your program meet the goal for prospective teachers set in mathematics in 2017-18?

- ☒ Yes
- ☐ No
- ☐ Not applicable

4. Description of strategies used to achieve goal, if applicable:

We did meet our target for mathematics teachers in Fall 2017. We continue to improve our recruitment and marketing strategies. We have incorporated AVID (Advancement Via Individual Determination) and Linked Learning models. Since 2013, we have been an AVID member institution. Currently, AVID is embedded in the Multiple Subjects (MS) and Single Subjects (SS) Teaching Credentials curriculum. In Fall 2014, the first-year seminar course for MS and SS candidates was revised to emphasize research-based AVID WICOR (writing, inquiry, collaboration, organization, and reading). Our program completers are AVID-Ready upon program completion. We continue revise and updated our partnerships with local school districts to aid in matching candidates to school sites for fieldwork/supervision experiences. Our service region includes 64 school districts, and within our local school districts we have partnerships with 24 districts to focus on AVID and Linked Learning. In Fall 2016 we updated MOUs with all of our 64 local school districts. As of Summer 2014 we moved our timing of fieldwork/supervision courses to align with local school district calendars. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable: We continue to need to improve recruitment strategies (e.g., time, location, target audience, etc.) and marketing strategies. Starting Winter 2015, the College of Education now has a intern in the campus marketing department devoted to College of Education programs. This has allowed us to improve our presence on various social media platforms (e.g., Twitter, Facebook, etc.) We continue to work closely with the undergraduate Liberal Arts program to encourage their candidates to pursue a teaching credential at CSUSB. We continue to improve our partnerships with the local school districts we serve. In Fall 2016, we updated our MOUs with each of 64 local school districts. Each Spring, since 2014, the College of Education has sponsors an on-campus Job Fair at which all participating school districts

## Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <https://www2.ed.gov/about/offices/list/oep/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

### Academic year 2017-18

1. Did your program prepare teachers in science in 2017-18?

- ☒ Yes  
☐ No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in science in 2017-18?

3. Did your program meet the goal for prospective teachers set in science in 2017-18?

- ☒ Yes  
☐ No  
☐ Not applicable

4. Description of strategies used to achieve goal, if applicable:

We did meet our target for science teachers in Fall 2017. We continue to improve our recruitment and marketing strategies. We have incorporated AVID (Advancement Via Individual Determination) and Linked Learning models. Since 2013, we have been an AVID member institution. Currently, AVID is embedded in the Multiple Subjects (MS) and Single Subjects (SS) Teaching Credentials curriculum. In Fall 2014, the first-year seminar course for MS and SS candidates was revised to emphasize research-based AVID WICOR (writing, inquiry, collaboration, organization, and reading). Our program completers are AVID-Ready upon program completion. We continue revise and updated our partnerships with local school districts to aid in matching candidates to school sites for fieldwork/supervision experiences. Our service region includes 64 school districts, and within our local school districts we have partnerships with 24 districts to focus on AVID and Linked Learning. In Fall 2016 we updated MOUs with all of our 64 local school districts. As of Summer 2014 we moved our timing of fieldwork/supervision courses to align with local school district calendars. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable: We continue to need to improve recruitment strategies (e.g., time, location, target audience, etc.) and marketing strategies. Starting Winter 2015, the College of Education now has a intern in the campus marketing department devoted to College of Education programs. This has allowed us to improve our presence on various social media platforms (e.g., Twitter, Facebook, etc.) We continue to work closely with the undergraduate Liberal Arts program to encourage their candidates to pursue a teaching credential at CSUSB. We continue to improve our partnerships with the local school districts we serve. In Fall 2016, we updated our MOUs with each of 64 local school districts. Each Spring, since 2014, the College of Education has sponsors an on-campus Job Fair at which all participating school districts interview candidates in mathematics and science.

## Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <https://www2.ed.gov/about/offices/list/oep/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

4. Description of strategies used to achieve goal, if applicable:

We did meet our target for Special Education teachers (combined traditional and alternative routes). We are continuing to improve our recruitment and marketing strategies. We piloted Co-teaching models; however, this was not sustainable with our partnership school districts. We have revised and updated our partnerships with the local school districts to aid in matching candidates to school sites for fieldwork/supervision experiences. In Fall 2016, we updated our MOUs with each of our 64 local school districts. Additionally, as of Summer 2014 we moved our timing of fieldwork/supervision courses to align with local school district calendars.

Assurances

Please certify that your institution is in compliance with the following assurances.  [\(§205\(a\)\(1\)\(A\)\(iii\), §206\(b\)\)](#) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

1. Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☒ Yes
- ☐ No
- ☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

NOTE: training to provide instruction to children from low-income families and how to effectively teach in urban and rural schools is not specifically covered in program curriculum; however, fieldwork/supervision experiences in our diverse and vast service area addresses these issues. Additionally, these issues may also be addressed through coursework. CSUSB's successful strategies in meeting these assurances include: fieldwork/supervision experiences (including guidance and feedback); and, the Teaching Performance Assessment (TPA) which requires adaptation of instruction for special education students and English Language Learner students. Additionally, we have also adopted AVID strategies and incorporate these techniques in program curriculum. To date, feedback from district partners has been positive regarding the addition of AVID.

2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

CSUSB's general education teachers' experience varies based on their fieldwork/supervision experiences and placements. Typically, our candidates receive experiences working with children diagnosed with Attention Deficit Hyperactivity Disorder (ADHD) and Autism as these are the most frequent diagnosis seen in the classrooms in our service area. CSUSB programs prepare elementary and secondary teachers to teach English Learners within the regular classroom and utilize a performance assessment that emphasizes differentiated instruction. Candidates complete coursework and field experiences that simultaneously engage them in hands on experiences within public schools while immersed in the study of teaching and learning. Programs are designed to increase field site responsibilities as candidates gain more knowledge and skill while supported by site teachers and university supervisors. Through a consortium, the College works to provide a seamless transition for employed candidates through intern and induction programs. Collaboration with 64 local school districts has resulted in enhanced support for these part-time candidates, thereby addressing a major component of CSUSB's mission. The Liberal Studies Integrated Track allows candidates to merge their credential and degree requirements, thus completing both the bachelor’s degree and credential in four years and a summer.

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.**

Please see above text box. In addition to the above, special education candidates also meet state standards in mild/moderate, moderate/severe, or early childhood areas and all these programs also include emphasis on teaching of English Learners. In Fall 2012, the special education program started the Autism Spectrum added authorization, although enrollment in this added authorization has not met expectations, and currently this option has been withdrawn.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

California State University San Bernardino, part of the California State University System, is a comprehensive public institution located 70 miles east of Los Angeles. CSUSB is an Hispanic Serving Institution and strives to have its university community represent the demographics of its region which encompasses 27,000 square miles. Nearly 20,000 CSUSB students are enrolled in bachelor's and master's degree programs in the Colleges of Arts and Letters, Business and Public administration, Social and Behavioral Sciences, Education, and Natural Sciences. The College of Education offers post-baccalaureate credentials and master's degrees, as well as a education doctoral program in educational leadership which began September 2007. State-accredited by California's Commission on Teacher Credentialing (CTC), the College of Education is dedicated to the development and support of wise, reflective professional educators who will work toward a just and diverse society which embraces democratic principles. The wise teacher possesses rich subject matter knowledge, applies sound judgment to professional practice and conduct, applies a practical knowledge of context and culture, respects multiple viewpoints, and reflects and acts on professional practices and their consequences (adapted from Baltes & Smith, 1990). Teacher education credential candidates include fifth year student teachers, employed interns, and a small number of undergraduates. Many candidates are first generation college students.
