Thank you for your interest in the LTC's 2023 Regional Transportation Dialogue Series. We are preparing a great set of topics for this coming year to continue the community conversation and get ready for the future transportation system.

Mobility of people and the movement of goods is a central part of life in the Inland Empire of Southern California. The William and Barbara Leonard Transportation Center (LTC) works to provide a voice for an integrated and sustainable system for better movement through the region.

In 2023, the LTC will offer its Sixth Regional Mobility Dialogue Series. The past five years brought together leaders from government, business, and community-based organizations to dialogue on how the region can improve the quality of life through better use of technologies, innovation, and human ingenuity. This has made the Dialogue series a great success.

Since 2020, with the COVID-19 pandemic, the Dialogue series has been offered in a fully virtual format. This has opened-up the series to speakers and participants from across the country and internationally. I hope you will be able to join the 2023 Dialogue Series as a sponsor. Your sponsorship will help to provide outreach and engagement on the Dialogue topics. It also provides funding for the LTC's educational programming.

**We need your support to fund these vital conversations.**

With your help, the Leonard Transportation Center can continue to offer this engaging series. The benefits of sponsorship are many as you will see from the sponsorship levels outlined in the following pages.

Thank you for your consideration. Please do not hesitate to contact me at (909) 537-5094 or (760) 497-8152 if you have any questions.

Sincerely,

Kimberly Collins, Ph.D.  
Executive Director  
Leonard Transportation Center

No sector of the Inland Empire economy is more influential than transportation. Freeway congestion, air quality, increasing transportation automation, and technological change are just a few of the factors affecting the quality of life and economic viability of the I.E. The 2023 Regional Mobility Dialogue Series hosted by the Leonard Transportation Center at CSUSB is designed to bring together thought leaders, policymakers, community members, and the academic community for a dynamic series of conversations.

During six morning meetings, participants will discuss the most pressing opportunities and challenges facing transportation in our rapidly changing world. Your sponsorship helps the Leonard Transportation Center offer this inspiring series. [Join us by sponsoring today.](#)

#### **Increasing Visibility on Social Media**

The Regional Mobility Dialogue Series has continued to increase visibility for the LTC and the Dialogue Sponsors. We use all social media platforms to effectively promote our events and highlight our sponsors. Our twitter account has had an average of 32,000 impressions over the past three months. Our Instagram is currently receiving an average of 800 impressions a week.

#### **Building Community through Dynamic Conversations**

All Dialogues are open to the public, providing community members with the opportunity to interact with leaders in transportation sector.

#### **Bridging Today's Challenges to Tomorrow's Opportunities**

The rate of technological change is accelerating and big changes to transportation are already underway. The 2022 Regional Mobility Dialogue Series featured topics on workforce development; transportation equity; last mile delivery; hydrogen and clean fuel technologies; aviation advancements; and cybersecurity in transportation. We plan to look at additional topics of importance for transportation in the region in 2023.
