

 CALIFORNIA STATE UNIVERSITY, SAN BERNARDINO

Master of Science in

# LOGISTICS AND E-COMMERCE (MSLE)

## PROGRAM OVERVIEW

The Master of Science in Logistics and E-commerce (MSLE) program provides post-baccalaureate students pursuing a career in logistics and e-commerce with a high-quality graduate education, aimed to train students to be experts in the specialty fields of logistics and e-commerce within the major field of supply chain management.

## KEY DETAILS:

- Open to all qualified students regardless of undergraduate major.
- Program is delivered online in an accelerated format that consists of 10 courses (3 semester units each).
- Cohorts will begin in Fall semester.
