

BS NTFS 2- years plan for transfer students, who completed CHEM (GOB) and BIOL (A & P) courses

To complete a 2-years plan, students must be willing to devote the time necessary to do well in all of the classes. It is highly recommended that students have an overall GPA of 3.2 to do this plan.

NTFS classes are only offered once a year and you must have an overall GPA > 2.8 and >B- for 300 and 400 level courses to receive the Verification Statement required for application to dietetic internship programs

Students may graduate with BS in NTFS with a grade >C in courses higher than 300 and maintain an overall GPA of >2.0 without the Verification Statement from Didactic Program in Dietetics (DPD)
