

# Directions for Preparing San Diego THEN & NOW Photos

All photographs referenced are from the book *San Diego THEN & NOW* by Nancy Hendrickson, Thunder Bay Press, San Diego, California. All “then” photographs were supplied by the San Diego Historical Society Photograph Collection ([www.sandiegohistory.org](http://www.sandiegohistory.org))

To prepare for the *San Diego – Then and Now* activity in Lesson 3, use an exacto knife (razor blade) or sharp scissors to carefully cut apart the photographs in the book. Use the chart below as a guide for the photos you will need. Sort the photographs by similar locations. Cut off the photograph caption and set it aside temporarily. Select a different color of construction paper for each location. **Mount each photograph on colored construction paper, using the same color of paper for the same location and a different color for each different location.** Paste each photograph’s caption on the back of its construction paper. Number each photograph according to the page numbers listed below. These numbers will be referenced in the lesson. Laminate the photographs.

Photographs are arranged by page number.

Photo Title	Pages #'s	Date	Bio-Sketch or Event
Horton Plaza	6-7	1885	Alonzo Horton
Stingaree District (south of Market Street)	12-13	Undated @1910	Ah Quin
