Subject: Age-Friendly Campus Survey

Dear CSUSB Community,

In 2019, Cal State San Bernardino was named a member of the [Age-Friendly University Global Network](#) (AFU), a group of colleges and universities around the world that are committed to meeting and serving the needs of older adults. CSUSB is currently one of just 42 universities across the United States that have this distinction, joining UC Los Angeles, University of Southern California, Purdue University, Florida State University and other institutions. As part of our inclusion in the AFU network, we are participating in a national study on age-friendliness across campuses nationwide.

I am writing to ask each of you to participate in the online survey portion of this study, using the following link: https://umassboston.co1.qualtrics.com/jfe/form/SV_0D4WJgccsAWaYhn

The survey can be filled out by anyone currently or previously affiliated with the university –faculty, students, staff and alumni. It asks for your perceptions of various age-friendly principles on the CSUSB campus. All survey responses are completely anonymous, as only the summary data will analyzed. It will take about 10-15 minutes to complete.

This survey will help CSUSB to identify its age-friendly assets and gaps. It will also help define what “age-friendliness” means in higher education across the United States.

If you have questions or concerns about this study, please contact the researchers at: UMass.AFUStudy@umb.edu or the AFU representative at CSUSB, Dr. Eric Vogelsang (eric.vogelsang@csusb.edu).

Thank you for your time and participation in this important project.

Best,
Shari

WE DEFINE THE *Future*
