## **CSE 482 Senior Project Presentation**

### **Date**

June 14th, 2019

### **Time**

11:00AM

### **Place**

JB 359

### **Title**

VMWare Workstation and Active Directory

### **Student**

Andrew Pelina

### **Advisor**

Dr. Haiyan Qiao

### **Abstract**

In my Senior Project I had opted to learn more about server administration for Windows, as during the classwork here I had worked mainly with Linux. In this presentation, I will be showing fundamentals of tools used in Windows administration, with things such as VMWare Workstation and Active Directory. In this presentation I will talk about my research and show the basics of using VMWare Workstation and Active Directory.
