

ANUBIS MASK

Age Range: Any

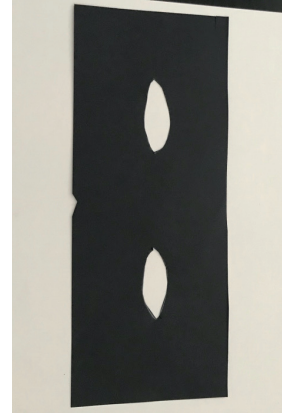

Description: Create and personalize your unique mask!

Historic Context: Anubis is the jackal head god, sometimes portrayed as a human body with a jackal head and sometimes portrayed simply as a jackal, which is a type of dog. For a short time early on in Ancient Egyptian philosophy Anubis was considered the god of the underworld. He was quickly replaced, however, by the introduction of the Osiris myth and mummification. Anubis remained an important figure yet, although he may be scary and dark in his appearance Anubis was a protective god. As you make your journey to the beyond after death, Anubis would be your guide and take you through the many tribulations required to successfully attain eternity in the after life.
