Supplemental Questions

Question #1: Name or describe the qualities that make you a great candidate for the committee you are applying for. Include any relevant experience, previous roles, etc.

As a first generation student going into their second year of higher education at CSUSB I believe my journey into secondary education is something I would describe as far from easy, as I was mostly navigating this adjustment and journey alone through the start of it. But I believe the tribulations and the several different trial and errors I have endured have allowed me to exponentially learn a multitude of techniques and develop different qualities that I feel have shaped me into a great candidate for this position. I love getting involved in the communities around me and meeting new people as I feel it is the best way to learn about the world and yourself. I have a lot of school pride and enjoy taking risks and trying new things. I would also describe myself as quite an optimist as my outlook on life and the different experiences I choose to indulge myself in are projects that I personally see can always be worked on for the betterment of all. I also work extremely well in teams as well as accomplishing and navigating tasks solo. During my second semester at CSUSB PDC this past school year I took the risk of joining PDC's Orientation and First Year Experience team. I had little to no knowledge of what this program was when I initially applied other than the fact that I knew it strived for welcoming, guiding, and essentially being that mentor transfer and first year students need when transitioning into CSUSB/higher education institution. Taking this leap has definitely changed my life for the better not only in my school life but the relationships and qualities I have learned and developed have helped me grow into the person I am today. I learned

things like time management, communication, emotional intelligence, organization, self awareness and delegation. Aside from these traits I believe my confidence and has also significantly increased compared to younger self. I am now more comfortable taking on small and bigger projects, public speaking, and I am not afraid to reach out for help when in need. Aside from my involvement in the PDC's Orientation team and my help with the San Bernardino's main campus orientation team as well, I have also been a volunteer in my local church for over nine years. I started as an altar server assisting with masses and events and paved my way into becoming a Master of Ceremonies where I now train and mentor children who are beginning their journey into altar serving.

Question #2: Why are you interested in being involved with ASI and what do you hope to get out of this opportunity?

I am interested in being involved with ASI because I want to leave a positive impact and footprint within the Palm Desert community. I would like to be apart in helping fellow students and our campus preserve through different experiences primarily prioritizing hands on activities and events where people can form meaningful relationships and bonds with their fellow peers, faculty, and staff. I hope to gain and further strengthen my knowledge in budgeting and planning as well as build on my networking skills.
