

WE DEFINE THE  
*Future*  
CSUSB

## CSUSB HAS BEEN DESIGNATED AS AN **R2 UNIVERSITY** IN RECOGNITION OF ITS DEVELOPMENT FROM A MASTER'S LEVEL COMPREHENSIVE UNIVERSITY TO ONE THAT AWARDS DOCTORATES.

Cal State San Bernardino recently advanced to the category of Doctoral University: High Research Activity (R2), raising the university's status to a "national university" from a "regional university" by the Carnegie Classification of Institutions of Higher Education.

CSUSB met the new classification criteria by awarding 21 doctoral degrees and having over \$10.8 million in research expenditures in fiscal year 2019-20.

The new designation also elevates CSUSB's status to a "national university" from a "regional university" in rankings such as U.S. News & World Report.

## CSUSB RANKED **TOP TEN** IN THE NATION FOR **SOCIAL MOBILITY**

Out of nearly 1,500 universities in the nation, Cal State San Bernardino was ranked No. 6 on the eighth annual 2021 Social Mobility Index (SMI) published by CollegeNET.

According to CollegeNET's SMI website, SMI measures the extent to which a four-year college or university educates more economically disadvantaged students (with family incomes below the national median) at lower tuition and graduates them into good paying jobs.

According to CollegeNET's website, "A high SMI ranking means that a college is contributing in a responsible way to solving the dangerous problem of declining economic mobility in our country."

## CSUSB RECEIVES NATIONAL CYBERSECURITY DESIGNATION FROM NSA

The prestigious designation as the **Community National Center for Cybersecurity Education** illustrates CSUSB's continued prominence as the premier institution of higher education for cybersecurity education.

The CSUSB Cybersecurity Center has attained a high standard of excellence, leveraging its great strengths and successfully receiving a host of impressive grants for the cybersecurity program.

From 2010-2020, the center brought in over \$17.5 million worth of grant-sponsored programs from entities like the National Security Agency (NSA), National Initiative for Cybersecurity Education (NICE), National Cybersecurity Training and Education (NCyTE) Center, and the National Science Foundation (NSF). Through the grant-sponsored activities of the center, students can compete for scholarships, participate in national conferences, and research emerging cybersecurity issues.

## CSUSB IS A MEANINGFUL PARTNER IN THE COMMUNITIES WE SERVE

- 500+ partnerships with IE nonprofits, K-12, businesses, organizations
- 100,000 community service hours annually = \$3 million to local organizations
- 20+ centers and institutes that offer expertise in regional issues – water, transportation, logistics, cybersecurity, entrepreneurship

## CSUSB IS AN ANCHOR INSTITUTION FOR THE INLAND EMPIRE

- 2,000+ employees – one of the largest employers in the region
- 5,000+ job-ready grads each year – 65% remain in the IE
- \$6.62 return for every \$1 invested by the state
- CSUSB alumni who remained in the IE...
  - » Earned incrementally higher earnings of nearly \$2 billion in 2019
  - » Supported an additional 10,500 jobs
  - » Generated \$1.5 billion in industry activity
  - » Generated \$118 million in state and local tax revenue

## CSUSB LAUNCHES SCHOOL OF ENTREPRENEURSHIP, FIRST IN CALIFORNIA

The unique program, one of less than 15 existing worldwide, will boost the university's already highly successful entrepreneurship program.

The creation of the School of Entrepreneurship will significantly raise the university's profile in recruiting potential students and reinforcing its efforts to become a "destination" program that draws students from beyond the Inland Empire region.

Students are looking for programs that are leaders and innovators in the educational field and have the ecosystem that will support their goal to create new ventures or become innovative change makers in their career field. CSUSB checks all the boxes in that regard – an innovative, well-established program that is going to the next level by creating a school of entrepreneurship.

Becoming the first School of Entrepreneurship in the state of California enables us to extend our existing brand as a top entrepreneurship program and continue to be an innovator both locally and within the CSU system with regard to entrepreneurship education.

We believe strongly that the entrepreneurship academic program can reach 500 students by 2025.
