

Department of Geological Sciences - Course Offerings for Majors!

Offered every semester!

GEOL 1000/1000L
Introductory Geology

Introductory/
General Physics

Typically offered fall semester!

Typically offered spring semester!

Did you know we offer General Education courses such as:

- GEOL 1060 Environmental Geology,
- GEOL 2040 Water in the West,
- GEOL 3020 Natural Disasters,
- GEOL 3040 Energy and the Environment

....and more!

GEOL 2500
Geology of California

GEOL 2000 - Earth Systems History

GEOL 3100
Intro to Geologic Mapping

GEOL 390X - Advanced Field Geology

GEOL 3600 - Structural Geology

Introductory/
General Chemistry

GEOL 3200 - Mineralogy

GEOL 3220 - Introduction to Geochemistry

GEOL 4100 - Engineering Geology

GEOL 3240 - Igneous and Metamorphic Petrology

We offer graduate-level courses too, including :

- GEOL 5200 Tectonics,
- GEOL 5620 Site Investigation and Case Histories in Engineering Geology ...and more!

GEOL 3300 - Sedimentary Geology Principles

GEOL 3400 - Sedimentary Geology Systems

GEOL 3500 - Paleontology

GEOL 3700 - Groundwater Hydrology

GEOL 3750 - Field Methods in Hydrology

Research Sequence!

GEOL 3990 - Geological Research Design

GEOL 4000 - Undergraduate Research

GEOL 4900 - Senior Seminar

Spring Junior Year

Fall Senior Year

Spring Senior Year
