

# SUMMER INSTITUTE 2022: **BUILDING THINKING CLASSROOMS**

This institute will explore Teaching Practices that support the development of student thinking in the math classroom, based on the book *Building Thinking Classrooms* by Peter Liljedahl. “Thinking is the precursor to learning, and if students are *not* thinking, they are *not* learning.” You might be wondering - How do I know if I have a thinking classroom? Or, how do I build a thinking classroom? Join us to find out! Together we will navigate these teaching practices while engaging in math content from grades 4-12.

## Registration

<https://forms.gle/fvqBz3RXa2kC9u566>

## Payment

District PO (see page 2)

OR

CashNet (link and details to be provided in registration confirmation email)

## WHEN

Monday – Thursday  
July 11-14, 2022
