**Subject:** 2021-22 Honorary Degree Recommendations

Colleagues,

Each year, the Office of the Chancellor puts out a call requesting campus recommendations for the awarding of honorary doctoral degrees by the Board of Trustees of the California State University. Those nominated and selected have been among our country's most distinguished leaders and humanitarians, individuals whose efforts have transcended the ordinary and made a remarkable impact on the lives of generations of people.

CSUSB has been honored to sponsor some of those nominations, celebrating individuals who have similarly impacted our university and the communities we serve. The honorary doctorate remains the highest honor bestowed by the Board of Trustees.

Next month, the CSUSB Honorary Doctorate Committee will meet to review nominations and advise the President accordingly. If you would like to recommend someone, **please confidentially submit their name directly to Janette Garcia at [jygarciacsusb.edu](mailto:jygarciacsusb.edu)**, as well as a one-page detailed biography on their achievements. The committee will review those nominations.

**The deadline for submission is Friday October 29.**

Thank you for your consideration.

Shari

**WE DEFINE THE *Future***
