

MSW Field Manual CSUSB

School of Social Work

2022-2023

PURPOSE

This manual has been prepared to assist students, agencies, Field Instructors, and faculty to understand the objectives, policies, and procedures governing the field education program for the Master of Social Work (MSW) program at California State University, San Bernardino. It is designed to answer the most frequently asked questions about the MSW field education program, its policies, and procedures, and to clarify expectations, rights, and duties of all involved in a social work field education program.

The contents of this manual are based on best practices in the field of social work that are guided by the National Association of Social Workers (NASW) Code of Ethics, Council on Social Work Education (CSWE) standards, and University and the School of Social Work policies. Valuable suggestions and information from past and current Department Chairs, faculty members, Field Instructors, Liaisons, and MSW students have been integrated into this manual.

CSUSB School of Social Work
Student Professional Field Commitment Form

To all social work students: Please complete and electronically sign this form in the Intern Placement Tracking System (IPT).

I have read and understand:

| | | |
|---|-----|----|
| Objectives of Field Practicum | Yes | No |
| Sequence of Field Class | Yes | No |
| Roles and Responsibilities of Field Staff | Yes | No |
| Roles and Responsibilities of Field Instructor | Yes | No |
| Roles and Responsibilities of Faculty Faculty Field Liaison | Yes | No |
| Roles and Responsibilities of Field Director and/or Field Coordinator | Yes | No |
| Expectations for Field Performance | Yes | No |
| Learning Plan Agreement form | Yes | No |
| Outcome Evaluation | Yes | No |
| Grading Policies for Field Practicum | Yes | No |
| Problem Solving Process | Yes | No |

If you have marked "No" to any of these areas, please make an appointment with the Director of Field Education to clarify any confusion.

This form should be completed and signed in IPT prior to entering Field.

1.0 INTRODUCTION

Welcome to the California State University, San Bernardino (CSUSB), Master of Social Work, Field Education Program. This Field Manual has been developed to provide information and guidance to students, Field Instructors, program administrators and faculty. The manual begins with a brief overview of the mission and goals of the School of Social Work, the objectives of the MSW program and the curriculum. Next, the purpose and structure of the Field Practicum program is covered, including required hours, criteria for admission to field education, placement procedures, procedures, and qualifications for selecting field sites and instructors, expectations of students in the field, and the learning agreement that shapes the student experience in the Field Practicum. It is not intended to be exhaustive and will continue to be revised and updated as needed. The most current copy of the Manual will be maintained on the CSUSB School of Social Work website.

The field education program is a means to achieve the goals of the MSW Program at CSUSB. It is structured to meet the Accreditation Standards of the Council on Social Work Education (2015, CSWE), specifically Standards 2.2 Field Education and Accreditation Standards (EPAS, 2015) nine Core Competencies.

1.1 School of Social Work Mission

CSUSB's School of Social Work Master of Social Work program provides accessible, dynamic, and rigorous academic programs that prepare students with generalist (BASW) and specialized advanced generalist (MSW) professional values, knowledge, and practice skills to effectively enhance the well-being of the diverse populations and communities of our region, state, and world.

Accessibility means that we attract and retain a student population reflective of the region's population and provide social work education opportunities to students in historically unserved and underserved areas.

Dynamic means that we change and innovate to reflect changes in the professional knowledge base, technology for practice and teaching, regional demographics and needs, and national and global trends that affect human well-being.

Rigor means that the education is rigorous and demonstrated by comprehensive assessment of the values, knowledge, and practice competencies that we expect our students to acquire during the program.

Serving the diverse populations and communities of our region, state and world means that our programs prepare students for practice in a regional, state, and global context of dynamic diversity.

1. We enhance social work educational opportunities for students within our region and in historically unserved and underserved areas through increasing accessibility and program completion, especially for first generation college students, students from the dynamically evolving ethnic communities in our region, and students in remote areas.
2. We continually update curriculum and teaching practices with current research and best practices reflective of the needs and trends of our region, nationally, and globally.
3. We offer and measure attainment of a competency-based, generalist and specialized advanced generalist level curriculum consistent with the needs of our area for practice skills with individuals, families, groups, organizations, communities, and the skills of policy advocacy.
4. We offer a curriculum that emphasizes practice consistent with the aims and values of the social work profession and that meets the needs of diverse, vulnerable, and unserved and underserved populations, especially in our region.
5. We support faculty in providing leadership to the profession and to the community with their research and expertise.

1.2 Accreditation Standard 2.2—Field Education

The field education program goals and learning objectives incorporate the overall goals of the School of Social Work Program at CSUSB. Field Practicum, Field Seminar, and Field Events are structured to meet the Accreditation Standards of the Council on Social Work Education (2015, CSWE), in particular; Standard 2.2, Field Education, and incorporates the nine Social Work Competencies. The program discusses how our field education program:

- 2.2.1** The program explains how its field education program integrates the theoretical and conceptual contributions of the classroom and field settings.
- 2.2.2** The program explains how its field education program provides generalist practice opportunities for students to demonstrate social work competencies with individuals, families, groups, organizations, and communities, illustrating how this is accomplished in field settings.
- 2.2.3** The program explains how its field education program provides specialized practice opportunities for students to demonstrate social work competencies within an area of specialized practice and illustrates how this is accomplished in field settings.
- 2.2.4** The program explains how students across all program options in its field education program demonstrate social work competencies through in-person contact with clients and constituencies.
- 2.2.5** The program describes how its field education program provides a minimum of 400 hours of field education for baccalaureate programs and a minimum of 900 hours for master's programs. (See Section 6.3 for CSUSB Field hour

requirement.)

- 2.2.6** The program provides its criteria for admission into field education and explains how its field education program admits only those students who have met the program's specified criteria.
- 2.2.7** The program describes how its field education program specifies policies, criteria, and procedures for selecting field settings; placing and monitoring students; supports student safety; and evaluates student learning and field setting effectiveness in keeping with the social work competencies.
- 2.2.8** The program describes how its field education program maintains contact with field settings across all program options. The program explains how on-site contact or other methods are used to monitor student learning and field setting effectiveness.
- 2.2.9** The program describes how its field education program specifies the credentials and practice experience of its Field Instructors necessary to design field learning opportunities for students to demonstrate social work competencies. Field Instructors for master's students hold a master's degree in social work from a CSWE-accredited program and have a minimum of 2 years of post-master's social work experience. For cases in which a Field Instructor does not possess the required experience, the program assumes responsibility for reinforcing a social work perspective and describes how this is accomplished.
- 2.2.10** The program describes how its field education program provides orientation, field instruction training, and continuing dialog with field education settings and Field Instructors.
- 2.2.11** The program describes how its field education program develops policies regarding field placements in an organization in which the student is also employed. To ensure the role of student as learner, student assignments and field education supervision are uniquely different from those of the student's employment.

Field education is the signature pedagogy for social work. The intent of field education is to integrate the theoretical and conceptual contribution of the classroom with the practical world of the practice setting. It is a basic precept of social work education that the two interrelated components of curriculum—classroom and field—are of equal importance within the curriculum, and each contributes to the development of the requisite competencies of professional practice. Field education is systematically designed, supervised, coordinated, and evaluated based on the standard of students demonstrating the Social Work Competencies. A competency-based approach refers to identifying and assessing the knowledge, skills, ethics, cultural, and practice competencies articulated in the educational policy, and may integrate different forms of technology as a component of the program (CSWE, 2015).

Assessment of student learning outcomes is an essential component of competency-based education and provides evidence that students have demonstrated the necessary level of competence to enter professional practice and that programs are successfully achieving their goals (CSWE, 2015).

Competency-based education is an outcomes-oriented approach to curriculum design and ensures that students can demonstrate the integration and application of the competencies in practice (CSWE, 2015).

Competencies

Competency 1: Demonstrate Ethical and Professional Behavior

Competency 2: Engage Diversity and Difference in Practice

Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Competency 4: Engage in Practice-informed Research and Research-informed Practice

Competency 5: Engage in Policy Practice

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and
Communities

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations,
and Communities

2.0 ORGANIZATION OF THE MSW CURRICULUM

2.1 Generalist Curriculum

The *Generalist* (Foundation) curriculum is grounded in a liberal arts base and provides students a common professional core that prepares them for the Advanced Generalist year of the program. Foundation courses cover the essential knowledge, values, processes, and skills of generalist social work practice and introduce students to current issues in a range of fields of practice and prepares them to make informed choices about specialized study in the Advanced Generalist year. Students complete 6 units of field practicum (SW 6081 and 6082) in the Foundation year of field practicum.

2.2 Specialized Advanced Generalist

After building on the generalist model in their Foundation Generalist year, students then focus on Specialized Advanced Generalist practice during their Advanced year. All students take both the micro practice and the macro practice series of courses, and in the fall, students choose a specialization to which they will apply their specialized advanced generalist micro and macro practice knowledge. Students take 6 units of field practicum (SW 6083 and 6084) in the advanced year of field practicum.

For further information on the curriculum, please refer to the Student Handbook.

2.3 Stipend Program

The School of Social Work at CSUSB has a specialized stipend program that is administered through the California Social Work Education Center (CalSWEC).

1. CalSWEC's Title IV-E program provides specialized, professional education and financial support to MSW students preparing for or continuing a career in public child welfare. Title IV-E refers to a regulation under the Social Security Act that pertains to the provisions of services for foster children. The Title IV-E Project Coordinator at CSUSB administers this program and is also responsible for placing students receiving Title IV-E funds for their field practicum. These placements must be completed in a public or private non-profit agency that serves children in foster care and/or children

at risk for removal from their families because of abuse or neglect. More detailed information can be found on the School of Social Work website.

3.0 FIELD PROGRAM OVERVIEW AND GOALS

3.1 The Role of Field Instruction in Social Work Education

Historically, social work educators have been among the early definers and defenders of experiential education. Field experience was seen not as the final phase of formal learning, but ongoing and concurrent with classroom instruction. Originally, universities provided supervision to students placed in agency settings. However, various field education models have been used, but the most widely used contemporary model is agency-based supervision. Today, field education programs through universities have become responsible for developing field curriculum, selecting, and preparing Field Instructors, and developing techniques for students to integrate classroom learning with hands-on field learning experiences.

3.2 Goals of Field Work

The field work experience focuses on the multifaceted nature of the social work profession and the learning tools for professional social work education and practice. Through guided, experiential learning, it provides opportunities for application of theory, critical thinking, and professional development in the field setting.

In the Generalist (Foundation) year of field, the focus is on learning generalist practice and includes a broad range of assignments directed at helping the student develop competencies in engagement, assessment, planning, implementation, evaluation, termination and follow-up at the micro, mezzo, and macro practice levels. The skills associated with the generalist model include preparing students for intervention, communication, analysis, contracting with the client system, utilizing various roles, and stabilizing change.

In the Advanced Generalist year, the students are expected to demonstrate and apply social work practice knowledge, skills, principles, values, and ethics involving more complex situations at the micro, mezzo, and macro levels. Specialized advanced generalist social work practice is operationalized in terms of three roles:

- Change Agent
- Interprofessional / Interagency Social Work
- Social Work Leadership

Generalist (Foundation Year) and Advanced Generalist students (Advanced Year) develop learning plans that are evaluated in field based on EPAS core competencies, have been translated into behavioral indicators of competence in the Learning Plan Agreement.

Students are assigned a different field practicum, separate Learning Plans and Outcome Evaluations for their Generalist (Foundation Year) and Specialized Advanced Generalist years. The core competencies and overall performance (behavioral indicators) of the student are evaluated by the Field Instructor each semester.

4.0 FIELD ROLES AND RESPONSIBILITIES

4.1 Social Work Student

Social work students are adult learners with life experiences that are acknowledged and respected. The student as an adult learner is expected:

1. To take the initiative in examining the educational objectives and the learning assignments at the field practicum site
2. Maintain professionalism which includes (in part):
 - ✓ Arriving and leaving their field placement according to schedule or notifying the Field Instructor of unforeseen circumstances (wishing to take time off from field to study for a test or write a paper are not unforeseen circumstances)
 - ✓ Following agency policies and procedures, completing required agency forms and assignments competently and in a timely manner
 - ✓ Dressing according to agency standards and expectations
 - ✓ Avoiding dual relationships with clients and/or staff
 - ✓ Demonstrating sufficient written and oral skills to effectively communicate information, ideas, and feelings
 - ✓ Demonstrating the requisite interpersonal skills to relate effectively to other students, faculty, staff, clients, and field practicum professionals and to fulfill the ethical obligations of the profession
 - ✓ Recognizing and coping with their own current and past life stressors using appropriate, adaptive coping strategies and formal services if necessary
3. To inform the Field Instructor, Faculty Field Liaison, and Director of Field Education, and/or Field Coordinator/Field Designee about ethical or practical concerns or matters that might jeopardize the quality of their learning experience, client well-being, and/or the viability or retention of the field placement or field personnel.
4. To refrain from behavior that interferes with the learning and/or performance of other students and professionals or behave in a manner inconsistent with the NASW Code of Ethics, or the expectations of the School of Social Work, or CSUSB.
5. To use supervision effectively (e.g., actively seeking feedback on performance and prepare agenda items for meetings with their Field Instructor, and humbly and willingly accepting constructive criticism from their Field Instructor).
6. To engage actively in the evaluation process, seeking ongoing feedback from their Field Instructor and participating in the formal evaluation process.
7. To prepare for weekly conferences with the Field Instructor and address any problems or dissatisfaction with the field experience and engage constructively in finding solutions, if possible. If the problems cannot be resolved, the student should contact their Faculty Field Liaison.
8. Attend, participate in, and complete all required field work, including field practicum hours, field seminar assignments, and field event activities.
9. Seek out resources to better understand cultural dynamics and methods of navigating human diversity.
10. Be sure to meet weekly with their agency Field Instructor for a minimum of one hour of supervision.
11. Attend orientations, trainings, and other meetings that are arranged by the MSW Program.
12. Attend monthly Integrative Field Seminars at CSUSB with their Faculty Field Liaison.
13. Practice within the NASW Code of Ethics, the student intern's scope of practice,

and adhere to all pertinent legal (e.g., reporting laws, etc.) and ethical (e.g. professional boundaries, professionalism, etc.) requirements.

4.2 Director of Field Education

The Director of Field Education has responsibility of developing field practicum curricula and administrating the field practicum, including the maintenance of effective working relationships among agencies, students, Faculty Field Liaisons, and Field Coordinators. The Director of Field ensures that there are sufficient, appropriate practicum settings to meet student needs and program standards. Further, the Director arranges for placement of students in practicum settings consistent with their interests and learning needs. The Director of Field Education works with the Program Coordinator of the stipend programs and the Field Coordinators for the Pathway Distance Education Program, Advanced Standing Program, Title IV-E Program, and BASW Program. The Director of Field Education is ultimately responsible for the overall functioning of field and resolving field-related problems.

4.3 Program Coordinator and Field Coordinator

The Title IV-E Program, the Pathway Distance Education Program, and the Advanced Standing Program have Field Coordinators, who work directly with the Director of Field Education. They are responsible for the administration of the field practicum including the maintenance of effective working relationships among agencies, students, and Faculty Field Liaisons, and for working with the Field Director in the development of field practicum curricula. It is also their job to ensure that there are sufficient appropriate practicum settings to meet student needs and program standards, and for coordinating or facilitating the placement of students in practicum settings consistent with their interests and learning needs.

On occasion, the Pathway Field Coordinator may also serve as an academic advisor and/or Faculty Field Liaison. When this dual role occurs, it is important to note that if the student has a concern with the Field Coordinator and does not believe they can resolve the issue directly with them, that the student can reach out to the Director of Field Education for assistance.

4.4 Field Sequence Committee

The Field Sequence Committee is a sub-committee of the School of Social Work Curriculum Committee. The School of Social Work Director appoints the Chair of the Field Sequence Committee and its faculty members. This committee advises the Director of Field Education on field-related matters such as selection of sites, placement problems, and issues related to integration of classroom learning with field education. The Field Sequence Committee recommends curriculum policy changes to the Director of Field Education for submission to the Curriculum Committee, and it meets each semester and at the call of the Director of the School of Social Work.

The Field team also reaches out to community partners and attends community meetings throughout the academic year to gain input and recommendations for curriculum changes. This information is provided to the Field Sequence Committee.

4.5 Faculty Field Liaison

The Faculty Field Liaison, also known as Field Liaison, must hold an MSW from a CSWE-accredited program of social work. They are the faculty member who serves as an educational consultant to the Field Instructor (described in Section 4.7).

The Faculty Field Liaison approves the Learning Plan Agreement/Comprehensive Skills Evaluation for the student, holds regularly scheduled conferences with both the student and Field Instructor, leads the Integrative Field Seminar, evaluates the student's learning, and assigns a grade of credit/no credit. The Faculty Field Liaison visits the agencies, maintains ongoing communication with the Field Instructor, and participates in student and Field Instructor orientations, seminars, and other field meetings. The Faculty Field Liaison reports on student progress to the Director of Field Education and coordinates individual student education issues between the School of Social Work and the field instruction agency.

4.6 Agency/Field Practicum Setting

Students will only be placed in agencies that have been screened and with whom a placement agreement has been assigned by the Field Coordinator. Field agencies are approved based upon their ability to provide students with the learning opportunity to acquire practical professional experience through instruction and supervision activities reflective of the School's overall curriculum goals. All agencies are also approved by the Director of Field Education and a Learning Site Agreement must be signed and fully executed by the CSUSB Procurement Department before placement of students may commence. The following criteria are used to assess the agency's capacity to provide appropriate field placements:

1. Acceptance of active and collaborative participation in the professional education for social work. This is a basic requirement involving the acceptance of the NASW Code of Ethics, the School's mission, objectives, and program curriculum, as well as a readiness to invest time and resources into the social work education process.
2. Capacity to designate an agency professional to serve as Field Instructor (see Roles and Responsibilities section). Agency Field Instructors should assess their workload to ensure adequate time to meet student needs is feasible. Thus, agencies considering becoming a field placement site should assess their ability to assume the obligations involved and advantages derived from this venture very carefully.

Other expectations of agencies include:

1. A commitment to high educational standards as reflected by the Council on Social Work Education (CSWE).
2. The overall responsibility for the development of the agency's participation in this social work educational joint venture should rest with the agency's Executive Director or senior staff member.
3. Learning experiences with individuals, families, groups, agency administration, organizations, and communities (as indicated by the Learning Plan Agreement/Comprehensive Skills Evaluation) must be made available by the agency.
4. The agency is expected to ensure the availability of records prepared by students for learning instruction and evaluation at the School, subject to professional safeguards.
5. Physical facilities necessary to accommodate students will be provided by the agency. When possible, these will include desk space, telephone, and computer (if these are required to perform intern responsibilities), facilities for private interviewing, resources necessary for home visits, and compliance with the Americans with Disabilities Act.

4.7 Field Instructor

The Field Instructor is the student's supervisor at the placement site and assumes responsibility for the student's learning and practice experience. The Field Instructor provides ongoing feedback, supervises, teaches, and assesses student acquisition of knowledge, skills, and values. In collaboration with the student, the instructor is responsible for developing a student Learning Plan Agreement based upon the criteria established by the MSW Program. Field Instructors are selected on the bases of the quality of their field instruction and commitment to educational standards of the MSW Program.

The Field Instructors *must have an MSW from a CSWE-accredited program*. In addition, CSUSB requires they have at least two years of post-MSW experience, six (6) months experience in the field placement setting and have completed (or plan to complete within one year of providing field instruction) the Field Instructor Certification training.

To ensure the highest quality field experience for our students, it is expected that the Field Instructors will:

1. Complete the required certification training that includes an orientation to the School's curriculum, policies, and procedures.
2. Develop a clear Learning Plan Agreement with the student concerning performance expectations. These expectations must be stated in terms of behavioral learning goals, methods of achievement, and standard of measurement through using the Learning Plan Agreement/Comprehensive Skills Evaluation.
3. Provide at least one hour a week for individual supervision with the student or a combination of individual and group supervision that together totals at least one hour per week. Group supervision alone **cannot** be substituted for individual supervision.
4. Provide feedback to the student concerning their performance in writing on an ongoing basis, including completing the end of semester student evaluation each semester. If the Field Instructor and/or Preceptor has any concerns about any aspect of the student's performance, professionalism, adherence to the NASW Code of Ethics, etc., the assigned Faculty Field Liaison should be notified immediately to discuss their concerns and assist in developing a plan of correction.
5. Make available or develop specific practice opportunities that will enable the student to fulfill the expectations of the Learning Plan Agreement(LPA).
6. Inform both student and Faculty Field Liaison about any unusual opportunities, conditions, or problems at the earliest possible convenience; evaluate student

progress on an ongoing basis; and involve the student in the preparation of these evaluations.

Some CSUSB requirements may be waived in special circumstances. In such situations, close supervision of the Field Instructor must be provided by the Faculty Field Liaison and the arrangement must have the advanced approval of the Director of Field Education and/or designated Field Coordinator.

Occasionally, a CSUSB faculty member is designated to provide Field Instruction for a student. This occurs when an agency does not have a Field Instructor who meets the university requirements or does not have an employee who meets the criteria available to provide the field instruction. In such a case, the CSUSB Field Faculty or a staff hired through the Title IV-E grant funded program, agrees to provide the social work perspective BUT the agency will RETAIN responsibility for supervision and oversight for all student activities and cases.

4.8 Preceptor

While the Field Instructor has overall responsibility for the student's instruction in the placement setting, a Preceptor may provide additional instruction or supervision. The Preceptor is an agency employee, who is a secondary source of information and guidance, e.g., for a specific service assignment, or to provide day-to-day administrative supervision.

The Preceptor may be an agency administrator or supervisor. In agencies where the Preceptor is in an administrative position (often a director or supervisor), they may oversee cases and activities assigned to the student and may monitor the student administratively in terms of agency policies and documentation. However, the Preceptor needs to have direct communication with the Field Instructor to determine case assignments, learning activities, and evaluate the student's progress to ensure assignments are appropriate to student learning and university requirements.

The Preceptor is considered enrichment to field education but **does not** substitute for a Field Instructor and the minimum one hour of individual weekly supervision/instruction. In agencies where a Preceptor is administratively overseeing cases and activities of a student, the Director of Field Education or designated Program Field Coordinator needs to be informed of the practicum structure and plan. It is recommended that the Preceptor attend the Field Instructor Certification training.

4.9 Non-MSW Supervisor

In those uncommon cases in which an agency meets all criteria for a placement agency except the presence of an 'on-site' MSW Field Instructor, the Director of Field Education may approve day-to-day supervision by a non-MSW supervisor. However, the agency must provide a qualified MSW Field Instructor, who meets weekly with the student for the regularly scheduled one-hour individual supervision to provide the social work perspective over their field work; however, the non-MSW Supervisor will retain responsibility for the student's overall practicum experience and evaluation. In clinical settings, a clear line of responsibilities for clients' welfare is essential (e.g., during the student's absence or if malpractice is alleged). The Field Instructor must meet all criteria for selection of Field Instructors.

In rare cases, a CSUSB Title IV-E Field Staff is designated to provide Field Instruction for a student. In such a case, staff hired through the Title IV-E grant funded program agrees to provide the social work perspective, BUT the agency REMAINS responsible for supervision and oversight for all student activities and cases.

5.0 THE FIELD PROGRAM PURPOSE AND STRUCTURE

5.1 Purpose

Field Work plays a pivotal role in the MSW curriculum. It offers the opportunity to apply, refine, and integrate conceptual based knowledge acquired in the classroom with real life experiences in social agencies.

Field Work at the CSUSB School of Social Work consists of three components: 1) field practicum, 2) field events, and 3) field seminar. Through these three components, students will be able to demonstrate knowledge and level of competence necessary to enter professional practice. The field experience and classroom should be mutually reinforcing in all curricular areas: research, human behavior, social policy, and practice with individuals, groups, organizations, and community.

5.2 STRUCTURE

5.2.1 Placement Concurrent with Classes

There are four sequential field practicum courses that run concurrently with classes (SW 6081 and 6082 – Generalist (Foundation) Year and SW 6083 and 6084 – Specialized Advanced Generalist Year. Each student has one placement for Foundation year and one placement for Advanced year. Field experiences are designed to build upon one another in developing a competent practitioner. They are also intended to give the student an opportunity to learn about more than one agency's organization and culture and therefore gain a more comprehensive perspective of social work practice.

5.2.2 Student Involvement in Placement Choice

Generalist (Foundation) Year field placements are assigned by the Director of Field Education, the Title IV-E Field Coordinator, the Pathway Field Coordinator, or the Advanced Standing Field Coordinator. The student's interests, learning needs and agency availability are taken into consideration, however the Generalist Model of Social Work Practice equips social work students with the requisite knowledge, skills, and values to work with any number of client groups, problems, and agencies. While we strive to place students within their area of interest, practice settings / populations cannot be guaranteed. A pre-placement interview between the students and the Director of Field Education, the Title IV-E Field Coordinator, the Pathway Field Coordinator, or Advanced Standing Field Coordinator begins the process of locating a field practicum. Students who are receiving grant-funded support are limited to placements available for the specialization they have chosen. (See FIELD PRACTICUM; PLACEMENT PROCESS AND REQUIREMENTS' for further detailed information).

**** Pathway Distance Education Students, who are not in the Title IV-E grant funded program, have a requirement to submit four placement ideas, in their local areas, but are clearly instructed NOT to contact any agency, as students cannot seek or arrange their own placements.**

5.2.3 Areas of Practice Experience

Students are expected to complete field practicum assignments in micro, mezzo, and macro areas of practice.

- Areas of practice include:
 1. Working with individuals
 2. Working with families
 3. Working with small groups
 4. Working with agency administration
 5. Working with communities

6.0 ADMINISTRATIVE POLICIES AND PROCEDURES

6.1 Orientation

A mandatory field orientation takes place annually prior to the beginning of field placement and the fall semester. The purpose of orientation is to review the field program mission, policies and structure, documentation, competencies, and expected outcomes. It provides an overview of the various roles, responsibilities, and expectations of the student, Field Instructor, Faculty Field Liaison, Field Coordinators, and Director of Field Education. It provides an opportunity to discuss students' questions and concerns associated with the field education process with various field faculty members. Additionally, the students are oriented to the Intern Placement Tracking (IPT) online software (Alceasoftware), which students, Field Instructors, and Faculty Field Liaisons use to perform vital field tasks, including developing the Learning Plan Agreement, documenting semester evaluations, etc. All students are required to attend this orientation. ***Students cannot enter the field practicum if they do not attend field orientation.***

Prior to attending the field orientation, students must complete pre-field online modules that may include, but are not limited to: 1) Child Abuse and Mandated Reporting, 2) Adult Protective Services and Mandated Reporting, 3) Ethics and Boundaries (i.e., Ethics vs. Law, Confidentiality, Mandated Reporting, HIPAA, Advertising Professional Services, Duty to Protect, Cultural Competence, Informed Consent, Multiple or Non-Sexual Dual Relationships and Sexual Relationships with Clients), and 4) Safety in the Field.

6.2 Confidentiality and Privacy

Students must follow the NASW Code of Ethics and all agency policies on confidentiality and privacy. All field work and related schoolwork, including class discussions and written material, should always protect clients' right to confidentiality and privacy.

Students must read, understand, and agree to abide by all HIPAA laws and regulations. Students are expected to know the specific practices related to HIPAA at their assigned agency. Students who violate HIPAA will be referred to the Student Review Committee and risk immediate dismissal from the Social Work program.

Students should be aware of the impact and consequences of electronic media on possible breaches of confidentiality. Students should **never** have the phone numbers of clients in their personal cell phones or computers. If a student has a concern about a specific request to use a personal cell phone, they should immediately speak with the Field Instructor to determine best practices and if the concern is not resolved, the student should contact their Faculty Field Liaison for consultation. Additionally, students must not disclose any information about clients on social media such as, but

not limited to, Facebook, Twitter, Instagram, or all other social media platforms. Personal cell phones, laptop computers, etc. should be cleared with the agency prior to use. Students are responsible for following all agency policies regarding the use of personal devices.

When confidentiality cannot be maintained, the student must obtain a written consent for release of confidential information appropriate to the agency's procedure on confidentiality.

At no time should a student transport client documents without the documents being secured and the approval of the Field Instructor to ensure policies of the agency are being followed and HIPAA/best practice guidelines are being followed.

6.3 Practicum Hours

Students are expected to be in their field practicum a **minimum** of 240 hours per semester (16 hours per week), or 480 hours for the Generalist (Foundation) placement year, and a **minimum** of 300 hours per semester (20 hours per week), or 600 hours for the Specialized Advanced Generalist placement year. At the completion of the MSW degree program, students will have accumulated a **minimum** of 1,080 hours of field experience.

Students are responsible for observing regular agency working hours and practicum schedule as arranged by the Field Instructor. Students **cannot be absent more than one field day per semester and are required to make up any hours lost through absence, tardiness, etc.** Students who miss, or anticipate missing, more than one day, whether consecutive or not, regardless of the situation, are required to notify their Field Instructor and Faculty Field Liaison to discuss the situation at the time of the event. The agency should also keep a record of attendance to certify the completion of a specific number of practice hours at the end of the semester. Students are required to complete and electronically sign the time sheet form located in IPT (Intern Placement Tracking data system) at the end of each semester to receive credit. It is essential that students complete an accurate time log weekly. Given the time log is signed by the Field Instructor, the student's account of hours needs to match that of the Field Instructor.

Placement hours are typically held between 8:00 a.m. and 5:00 p.m. Some placements may require some evening and/or weekend hours; however, these are considered the exception and should be discussed and approved, by the Field Coordinator and/or Director, during the interview process. Students in the 3-year program and Pathway Distance Education Program may believe they can "adjust" their full-time jobs or attempt to "fit-in" their practicum hours; however, this creates great difficulty for both the students and the agencies and may not be viable. Prior to being accepted to the MSW program, ALL students signed a Statement of Understanding regarding the hour requirement to successfully complete the program. The School stresses the importance of being available during typical work hours (8:00 a.m.- 5:00 p.m.); otherwise, the student will likely not secure a field placement given the agency's hours of operation and the Field Instructor's availability. Students must be available to participate in the daily operations of the agency, i.e., staff meetings, case conferences, and in-service trainings, etc. Due to limited availability of alternative field placements, based on agency schedules, the Field Team cannot place students with alternative scheduling needs. Inability to meet the traditional 8:00 a.m.- 5:00 p.m. field practicum schedule may result in an academic Leave of Absence.

Students may not begin their placements before the start of the fall semester and must follow the academic calendar posted on the CSUSB website. **The School of Social Work assumes no responsibility for any student who engages in field activities, outside the specified policies, and**

those time periods listed on the Learning Plan Agreement. If a student is asked to begin practicum prior to the start date specified in the Master Field Calendar, the student is **required** to contact and seek approval from the Director of Field Education and/or specific Field Coordinator. All modifications to internship schedules require a written approval by the Director of Field Education and/or specific Program Field Coordinator.

Students are **not** permitted to work extra hours during the semester with the intention to “bank” field hours to complete any semester before the official last day of field placement. Field placements start and end dates are listed on the Master Calendar that is provided to students at the beginning of the academic year. There are a few exceptions to this, primarily school-based placements where the time schedule is client-driven or for select agencies where the start date is later than the academic start date. Students in such agencies are notified of the adjusted schedule prior to interviewing with the agency. The purpose of the limitations is to ensure that field practicum stays in sequence with practice classes.

Field seminars are NOT counted as field placement hours unless your practicum day and time is during the scheduled seminar time. Students obtaining hours toward the PPSC CANNOT count seminar hours toward the PPSC.

Students are **not** permitted to complete academic homework or employment work during practicum hours. Practicum hours are for the sole purpose of gaining practicum-focused practice experience. Logging field work hours, while completing work other than agency specific assignments or documentation related to field work, is unethical and can be considered falsifying hours. Process recordings are considered “field related,” and can be completed during your field hours, with approval from the designated Field Instructor.

All students are expected to remain in the same field practicum site for the entire academic year for which the assignment is made. Any student who discontinues their practicum assignment prior to the end of the academic year (or before all requirements are met) for any reason may be referred to the Student Review Committee for a level 2 review and **may** be required to restart the entire field practicum experience. This requirement applies regardless of whether academic credit has been received for any part of the practicum assignment that is being terminated.

No block placements (40 hours per week) are available, and no social work field work is currently available in the summer. Practicum typically does not extend into the summer months beyond the School’s official last day of Field. However, if an agency wishes to retain their intern to continue work beyond this date, the student is no longer operating as a student intern of the CSUSB School of Social Work. Accordingly, the student is not covered by the University’s malpractice policy beyond the official last day of Field.

We cannot emphasize strongly enough that leaving a placement early can have very serious consequences including a student being accused of client abandonment and abandoning the work site. It would result in the student being referred to the Student Review Committee for a disciplinary hearing and could result in termination of the practicum by the agency.

6.3.1 Working within Scope of Practice

“Scope of practice” is defined as the activities that an individual student-intern is permitted to perform at their agency practicum site. Those activities should be based on appropriate education, training, and experience. Student should reach out to their Faculty Field Liaison with any questions regarding an intern’s scope of practice at their practicum site. **The School Social of Work assumes no responsibility for**

any student who engages in activities, duties and responsibilities not approved by their field agency and/or that are not listed on the Learning Plan Agreement.

6.3.2 Attendance and Punctuality

Students are responsible for observing regular agency working hours as arranged by the Field Instructor. Students are responsible for maintaining an accurate record of field hours in IPT. At the end of each semester both the student and Field Instructor sign the time log. Students may be required to complete an agency time sheet, but this does not replace the time log they are required to complete in IPT.

Students are expected to arrive to field placement on time (i.e., *before* the start of their shift) and not leave until their entire shift is completed. Field is to be approached like a “real job” and you are accountable as such. Attendance and punctuality reflect well (or poorly) on a professional and remember that you may one day need a letter of recommendation from your Field Instructor and/or Preceptor when you apply for a practicum/job at another agency. Any time missed from field placement, as well as any supervision and assignments, must be made up ASAP. *Please refer to Student Handbook regarding our Policy on Course Absences.*

6.4 Furloughs and Mandated Time Off

Some agencies mandate that their employees take furloughs from work or other time off, e.g., the day before or after a holiday. These are not regular holidays. Therefore, if the student’s placement time is affected, such time needs to be made up. The Field Team will work the student should this occur while placed at a practicum.

6.5 Holidays, Winter Intersession, and Spring Semester

Holidays: Students are allowed those holidays observed by BOTH the agency or the University, and can receive 8 hours of credit, **with agency consent. However**, if the agency requires a student to make up hours for any reason, including continuity of care for the clients being served, the student is required to follow the request of the agency.

If the agency is open on a University observed holiday, the student is expected to report to practicum. Failure to do so will result in an absence from fieldwork, and this time must be made up by the student. In some cases, a student may be asked or required to report to their field agency during a school break, e.g., winter or spring break, to ensure continuity of care for the clients. This is in keeping with the NASW Code of Ethics and being a responsible and ethical social work practitioner. Thanksgiving is **NOT** a holiday where students can accumulate hours due to the holiday. Students may observe other religious holidays not observed by their field agency, but *these are treated as absences to be made up by the student AND must be negotiated with the Field Instructor prior to the absence. If the practicum is on an adjusted schedule, the student is required to work with the agency to meet the needs and requirements of the clients.*

If the agency is closed on a day when the student is scheduled to report to internship, the student can count field hours, with the consent of the agency. Some agencies will require students to make up hours. Students are expected to discuss agency and University holidays and break periods with their Field Instructor during the first few weeks of the fall semester to avoid any confusion or misunderstandings about attendance.

Please Note: School districts may operate on an adjusted schedule in terms of holidays and mid-semester breaks. Students placed at a school district were informed of possible adjusted schedules when being matched and were asked to discuss the practicum schedule during the interview. The holiday policy may not apply to school district placements. It is expected that students completing their practicum at a school district have agreed to follow the policy. At the beginning of the practicum, students should request the practicum calendar from the agency. Students will need to account for school-based practicum days off, as they do not count for practicum hours.

Winter Intersession:

1. The CSUSB Academic Calendar lists Winter Intersession between December 16, 2022-January 19, 2023, however in the BASW and MSW programs, students are required to return to practicum on January 4, 2023, or January 5, 2023, depending on practicum days.
 - a. Please note: Some practicum placements will only allow students to take one to two weeks off during winter intersession to ensure their clients' continuity of care. It is important for students to discuss agency requirements during the initial interview to determine requirements.
2. The benefits of implementing a decreased winter intersession are two-fold: 1) continuity of care for agencies and clients is made a priority, and 2) it allows students at the end of the spring quarter to make up hours if needed due to unforeseen absences.
3. For county-based programs or the Title IV-E program, employment-based practicum usually requires students to resume full-time work status during any winter or spring break. Students in these situations are required to discuss their agency's policy about this matter prior to applying for and accepting the practicum opportunity.

Spring Semester

1. **Spring semester** practicums will begin January 4, 2023, or January 5, 2023, depending on practicum days. Students will continue practicum through May 5, 2023.

(April 24-28 depending on practicum days). Spring semester field work ends approximately two weeks prior to the end of spring semester. If a student has unforeseen absences, this two-week period allows time to complete minimum hour requirements.

2. Spring break is scheduled for March 27-April 4, 2023.
 - a. Please note that although the university encourages agencies to allow students spring break, this is at the discretion of the agency.
 - b. Please note: If you intern at a school district, you may be required to take time off during the school district spring break versus the CSUSB spring break. Students need to account for this time off and make up the hours or adjust spring break hours to the school district schedule. There is allocated time during the academic year to complete all required hours.
 - c. Employment-based practicums may not allow spring break off due to the agency policy.

6.6 Illness and Other Emergencies

Students are expected to call the Field Instructor (or text, if this is Field Instructor's preference) at the beginning of the field day to report an illness or any emergency requiring an absence during the student's scheduled field day/hours. Missed hours must be made up before the end of the semester, or at some other period by special arrangement with the Field Instructor.

Absences that exceed more than one field day per semester, whether consecutive or not, regardless of the situation, are required to be reported to the Field Instructor and Faculty Field Liaison by the student. The Field Instructor will report a student's absences that exceed two consecutive field days to the Faculty Field Liaison either via telephone or email. "No-shows" (absence without notifying Field Instructor/Preceptor) are unacceptable unless a medical emergency prevented the student from contacting their Field Instructor or Preceptor at least 4 hours prior to the expected start time for field placement. If no such emergency is responsible for a no-show, the student may be referred to the Student Review Committee (SRC) for unprofessional conduct.

Students may experience a variety of circumstances impeding their ability to continue with, or complete Field Practicum. These can range from personal difficulties to extraordinary unforeseen circumstances. In these situations, students are encouraged to self-disclose anything that could impeded their progress/completion of Field Practicum, so options can be discussed.

In the event a faculty (academic or field), Field Instructor, or agency staff become aware of a student in crisis, the necessary precautions will be taken, which may include but not limited to contacting the CSUSB CARE team, county Crisis Response Team, and/or the police. The University is committed to the health and safety of students, faculty, and the community. Therefore, it is the expectation that Field Instructors and/or agency representatives contact the CSUSB Field Team of any concerns regarding the health and safety of a student.

6.7 Insurance

CSUSB provides all social work student interns with malpractice insurance, which is charged to the student during fall semester registration. The exception to this may be when a student is interning at their place of employment, and malpractice insurance is covered by the agency. Students must be working in an official capacity as agreed between their Field Instructor, field agency, and the CSUSB School of Social Work, and an affiliation agreement must be in place to be covered under this policy and only during the academic year. Professional liability is effective when the student is registered as a student in the School of Social Work.

Students are responsible for acquiring and maintaining their own health, accident, or automobile insurance that the agency may require. CSUSB does not provide health and accident insurance for internship participants and is not financially responsible for any medical bills incurred as a result of emergency or other medical treatments. It is highly recommended that students seek out medical insurance prior to beginning internship such as Medi-Cal.

6.8 Accommodations and Title IX:

Accommodations:

Students are responsible for requesting any reasonable accommodations for field seminar class or their field practicum site by enrolling in CSUSB's Services for Students with Disabilities and consulting with their designated Field Coordinator and/or Director at the time of the field placement interview. If an accommodation need is determined once the student has been placed with the agency, the student is highly encouraged to discuss their specific needs with the Faculty Field Liaison and/or Field Instructor at the agency. The determination of accommodation requests can include a review of whether the requested accommodations are reasonable for the setting and/or agency and whether there are limits to the scope of an accommodation. This will be determined by the CSUSB's Services for Students with Disabilities in consultation with the School of Social Work Field Education Program. Accommodations in a field experience may be different from those approved in a classroom.

Title IX:

The California State University does not discriminate on basis of gender, which includes sex and gender identity, gender expression, and/or sexual orientation, in its education programs or activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis gender or sexual orientation in employment, as well as in all education programs and activities operated by the University (both on and off campus), including admissions. The CSUSB School of Social Work fully supports and abides by and within the Title IX policies. The protection against discrimination on basis of gender or sexual orientation includes sexual harassment, sexual misconduct, gender-based dating and domestic violence and stalking.

The determination of accommodation requests can include a review of whether the requested accommodations are reasonable for the setting and/or agency and whether there are limits to the scope of an accommodation. This will be determined by the CSUSB's Title IX Office, in consultation with the School of Social Work Field Education Program. Accommodations in a field experience may be different from those approved in a classroom.

6.9 Criminal Background Checks (Live Scan)

Criminal background checks are commonly required, as part of the onboarding process, for persons placed in many settings. Any criminal record (infraction, charge, misdemeanor, or felony) may make a student ineligible for placement in certain agencies. Students are advised that a lack of disclosure about a criminal background during the agency interview process may result in a denial of placement at some agencies. It is strongly recommended that students with any level of criminal background openly discuss the specific situation with their designated program Field Coordinator during their pre-placement field meeting so they can get a better understanding of the potential challenges of placement, on a case-by-case basis.

Students may be ineligible for placement, or terminated from an agency, if criminal background information comes to light without prior disclosure to them. The Field Director or the designated program Field Coordinator can provide insight to students regarding potential opportunities and barriers to securing a field practicum site but cannot guarantee placement or choice of placement. Information disclosed will be used only for the purpose of determining appropriate field options. Please note: If a student cannot be placed, they will be unable to continue in the MSW program.

In the event a student is arrested or charged with a new offense or is convicted during the program, the student is required to disclose this information to the Director of the School of Social Work, Director of Field Education, designated Field Coordinator, and Academic Advisor within 48 hours of arrest, charge, or conviction. Students may be terminated from the program if an arrest or charge comes to light without immediate disclosure.

Failure to provide the required disclosures or notices will be deemed as deception and will be handled as a form of academic dishonesty in addition to any other violations.

Arrests, violations and/or convictions which violate University and/or School policies or standards could result in sanctions. Please see the NASW Code of Ethics, "4.04 Dishonesty, Fraud and Deception."

Students who are arrested, charged, or convicted during the program are not permitted to return to field placement until further notice. The student will be referred to the Student Review Committee for an initial review of the situation. The student assumes the risk involved with disclosing information and thus may choose not to disclose information. However, if the student chooses not to disclose information, the Student

Review Committee will be unable to determine a course of action based on the program guidelines and Code of Ethics.

If a student is charged with a new offense, the student will most likely be required to take a leave of absence until the case has been resolved and a decision has been made by a court of law. A student may be permitted to complete classroom coursework for that semester but will most likely be unable to continue in subsequent semesters until a resolution has been reached in their case. Once the outcome of the specific case or circumstance has been determined, it is the student's responsibility to inform the Director of the School of Social Work, Director of Field Education, MSW Field Coordinator, and Academic Advisor. At that time, the student will be referred to the Student Review Committee again for consideration of specific factors and implications related to the social work profession and their ability to return to the program and field work.

6.10 Immigration Status

The University does not check on the immigration status of students. However, field sites may require documentation of a student's citizenship/resident status through a valid Social Security number and/or valid California driver's license, identification card, or visa. The School cannot guarantee a student's placement if an agency requires such documentation. International students are required to be cleared by international studies and show proof of a valid visa that allows them to study full time in the United States prior to being admitted to the Social Work Program as this will impact a student's ability to participate in Field Education.

6.11 Safety

Student safety is critical at the field practicum site as well as in the field. Students should make every effort to understand safety protocols at their practicum by discussing them with their supervisor, support staff, and reviewing agency handbooks. (For further information on specific safety protocols, refer to the Student Orientation PowerPoint handout and required Pre-Field Modules).

Students are informed during the admission process and prior to entering field placement that there are certain risks inherent in their participation in practicum. Risks include but are not limited to 1) driving to and from the practicum site, or while during practicum activities; 2) unpredictable or violent behavior of certain client populations served by the practicum site; and 3) exposure to infectious diseases, including tuberculosis or other airborne pathogens, hepatitis, HIV or other bloodborne pathogens.

All risks cannot be prevented and could result in bodily injury, up to and including death, and each student has agreed to assume these risks beyond the control of University faculty and staff. It is the student's responsibility to understand and follow the Internship's policies and procedures designed to identify and control risks, including safety and security procedures and blood borne pathogen policies, and to obtain any immunizations which the Practicum Site may recommend, or the University require. Students agree to follow CDC and CDPH guideline to reduce the risk of infections, and prior to beginning internship signed the acknowledgement of risk form regarding the risks associated with field practicum and that they are otherwise capable, with or without accommodation, to participate in this practicum.

6.12 Counseling

Working in the field of social work can bring up strong emotional responses in students, given the severity of issues that clients present. When dealing with a client issue that has become too difficult

or overwhelming, students are encouraged to utilize the resources of the CSUSB Student Counseling Center (<https://www.csusb.edu/caps>) or consult a mental health professional in your health insurance network.

6.13 Social Media

Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will be respected by various sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, critiqued, and shared. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and careers.

Social work students who use social media (e.g., Facebook, Twitter, Instagram, TikTok, Snapchat, YouTube, etc.) and other forms of electronic communication (e.g., blogs, etc.) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others. Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image or that of their classmates, colleagues, field agency, School, or University.

Students are asked to consider the amount of personal information posted on these sites and are strongly urged to block any client access to involvement in the students' social networks. Client material should not be referred to in any form of electronic media, including *any* information that might lead to the identification of a client or compromise client confidentiality in *any* way. Additionally, students must critically evaluate any material that is posted regarding community agencies and professional relationships, as certain material could violate the standards set by the School of Social Work and/or the NASW Code of Ethics.

Social work students should consider that they will be representing the social work profession as well as CSUSB and the School of Social Work program while in the classroom, the university community, and the broader communities.

6.14 Policy and Procedure for the Use of Employment Setting for Practicum

Using the student's regular workplace for a field practicum is strictly prohibited in many schools of social work. The goal of work is performance, while the goal of the practicum is student learning. However, it is possible for a student to obtain a placement at the agency where they currently work provided that the educational experience is unique to their job responsibilities and includes substantial "new learning" in the areas of knowledge, values, and skills. The student's regular work may not be considered a field practicum unless the student submits the Job Conversion or Job-Related Form and all requirements for this rare exception are met.

Approval of the use of an employment setting as a field placement is dependent upon the ability of the agency to safeguard the student's learning needs. This normally means that a different supervisor in a different department/unit would supervise field work with different clients that are not a part of the student's regular work assignment.

Students requesting a field practicum at a current job site must complete the Job Conversion Application or Job-Related Placement Application. The application describes the student's current work assignments and identifies how fieldwork activities will be significantly different from

employment responsibilities. At no time may the student's employment duties/work bleed into their internship duties/work on their internship days/hours. The job conversion proposal will be reviewed, and a decision made by the Director of Field Education and/or designated Field Coordinator. Criteria for consideration includes (but is not limited to):

1. There must be an MSW employed at the work site who is NOT the employment supervisor who is willing and able to be a Field Instructor.
2. The Field Instructor must be an MSW and cannot have any authority over the student's employment status. The MSW Field Instructor must meet the qualifications required of all Field Instructors.
3. The field instruction tasks/assignments must differ from the employment tasks AND must be in accordance with both the general educational criteria of the School of Social Work and those appropriate to the student's chosen educational level/goals.
4. Job conversions and job-related placements must be approved in writing by the agency and the Director of Field Education. *Job conversion and job-related placement forms are available on the CSUSB website.*
5. The request for job conversion or job-related placement must be discussed prior to the Placement Interview with the Director of Field Education and/or designated Field Coordinator to allow for time to investigate it as a viable option. Documentation to support request must be submitted at the Placement Interview.

PLEASE NOTE: If the student is a county employee participating in the 20/20 program or approved for the Title IV-E program, there are specific requirements that need to be met to be consider for an employment placement and a 2-year placement at a county agency. The student's employment duties need to be different from each year of practicum. This is approved ahead of time and prior to practicum beginning through a formal interview and acceptance process. Please see CSUSB website for further details regarding these programs.

Any deviations at all to the above must be reviewed and approved by the Director of Field Education and/or designated Field Coordinator.

6.15 Policy on the Use of the Same Agency for Both Years of Practicum

Field experiences are designed to build upon one another in developing a competent practitioner. A competent practitioner can demonstrate social work practice skills in both direct and indirect practice in a diversity of agency settings. To maximize learning students are placed in two different agencies. However, in unusual circumstances, an exception to the "two-agency" rule may be approved. For example, if there are limited placement options in a geographical area, the agency is large and diverse and can provide two unique experiences and a different Field Instructor each year, an exception may be considered. Additionally, if the student is a county employee participating in the 20/20 program or Title IV-E program, there are specific requirements that need to be met to be considered for a 2-year placement at a county agency. An exception must be approved in advance by the Director of Field Education and/or designated Field Coordinator.

6.16 Withdrawal from Field Practice Enrollment

If the student withdraws from field class or leaves an agency without notification, they will not receive credit for hours previously completed because field education is based on a year-long, two-semester sequence with (in most cases) a year-long learning plan, and there is a limited number of agencies that will accept a student for less than a full academic year. Withdrawal from field may require the student to repeat the entire year. Should an emergent situation develop requiring a student to withdraw from the field sequence at any time, the Faculty Field Liaison/Advisor, **and** the Director of Field and/or designated Field Coordinator should be notified at the earliest possible time and a written plan approved by the Director of Field and/or designated Field Coordinator developed to avoid the necessity of repeating a part of the Field Education Sequence.

If, at any time, a student exits a field agency placement, the clients' well-being should be the principal concern. This means that, except in the most extreme emergencies, the proper termination processes should be followed, and the agency's transfer of cases procedures adhered to. All property of the agency should be returned (keys, case records, etc.). Failure to abide by this guideline could constitute a serious violation of professional ethics and could lead to dismissal from the MSW program.

6.17 Student Request to Postpone or Quit a Field Placement

A student who finds that they must defer enrollment in the field practicum requirement of the MSW Program due to extenuating circumstances (e.g., illness, personal emergency, etc.) must discuss the issue(s) with the Field Director or designated Field Coordinator and their Academic Advisor and submit an electronic Request for a Leave of Absence (LOA), the information and instructions for which may be found here: https://www.csusb.edu/sites/default/files/LOA-Adobe%20Sign%20Process_0_0_0.pdf.

The Request for a Leave of Absence must be specific and include:

- a. The name of the School of Social Work Graduate Coordinator, Dr. Herb Shon, herb.shon@csusb.edu.
- b. A proposed curriculum plan for completing practicum and concurrent program requirements
- c. The duration of the Leave of Absence; and
- d. Delineation by the student of their understanding of the impact that the delay will have on completing the MSW

It is the student's responsibility to ensure that all LOA paperwork is completed, reviewed, approved, and submitted as instructed.

A student may not discontinue or withdraw from their field practicum to avoid receiving an unsatisfactory grade for any portion of their practicum experience. Any student who withdraws from a practicum course and is not in good standing, e.g., grades or conduct, will not be allowed to re-enroll in a field practicum.

The special circumstances necessitating the discontinuance of a field practicum must be discussed with the Faculty Field Liaison, Director of Field Education and/or designated Field Coordinator, and Academic Advisor. Prior to the student's re-entry into the field practicum sequence, a meeting will be held with the student, Director of Field Education and/or designated Field Coordinator, Faculty Field Liaison, and Academic Advisor to determine readiness to re-enter a practicum, review audit requirements and to finalize any outstanding arrangements. The Field Director or designated Field

Coordinator and Academic Advisor will propose the specifics and timing of re-entry into the field practicum sequence in consultation with the MSW Graduate Coordinator.

6.18 Interruption of Field Work

Students who are employed should clearly explain to their employers that they are not available for "on call" work, or to respond to emergencies, during field work hours. Personal cell phones, pagers, text messages, and personal telephone calls should not interrupt students' work and attention at their field placement sites. Please make alternate arrangements for others to contact you, e.g., during your coffee or lunch break, or after field placement hours, etc.

6.19 Agency Dismissal of Students from Field Practice Sites

Agencies, with or without the consent of the CSUSB School of Social Work, may dismiss students for illegal, unprofessional, or unethical conduct or for any violation of that agency's expected intern conduct, and its policies and/or procedures according to that agency's internal personnel regulations, or failing to comply with any part(s) of the NASW Code of Ethics. When a student is dismissed from an agency, a referral to the Student Review Committee (SRC) will be initiated by the Faculty Field Liaison and the Academic Advisor will be notified. The SRC process will be followed as described in Section 6.22.

Dismissal from a field placement for violation of an agency policy or procedure, for unprofessional conduct, and/or a violation of the NASW Code of Ethics can also constitute grounds for dismissal from the MSW program. All social work students are responsible for knowing the NASW Code of Ethics and the information contained in the MSW Student Handbook and MSW Field Manual. Ignorance of any part of the Code, Handbook, or Manual is not an excuse for breaches in professionalism or professional ethics.

6.20 Termination Initiated by Agency or Social Work Program due to Student Performance Concerns:

A supervisor or administrator of the agency retains the right to terminate a student's placement because of significant behavioral concerns. Also, the Director of Field Education may terminate a student's placement due to serious acts of omission or commission by the student in either the seminar class or field agency. Reasons for termination include (but are not limited to):

- On-going inability to meet learning objectives (competencies) as outlined on the Student Learning Plan
- Failing to follow mandated reporting requirements
- Illegal drug use while at the practicum site, presence at the practicum site under the influence of alcohol or legal or illegal substances, failing an agency drug screening
- Presenting a risk to and/or jeopardizing the safety or boundaries of clients, staff, or faculty either intentionally (e.g., verbal abuse toward others; sexual impropriety; dual relationships, poor boundaries, etc.) or unintentionally (e.g., via carelessness, laziness, forgetfulness, etc.)
- Not consistently maintaining days and hours at the practicum site
- Being unable to openly accept feedback, constructive criticism from their supervisor
- Personal issues significantly impacting student's ability to meet agency, client, University and School obligations
- Failure to report previous criminal convictions
- Violation of the NASW Code of Ethics
- Failing to attend seminar class

- Verbal or physical threats to faculty, staff, students, or others at CSUSB
 - Being charged with a legal offense
- Repeated unprofessional or inadequate communication with peers, faculty, and agency partners. The Director of Field Education or designee will thoroughly review the reason(s) for termination and refer the matter to the Chair of the Student Review Committee for review and final disposition. The Director of Field Education or designee will be present at all field related issues to the Student Review Committee. The Committee's recommendations are discussed above (see Level 2 Review as outlined in the MSW Student Handbook).

6.21 Repeat Policy (Re: A Grade of No Credit (NC) in Field)

If a student receives a 'no credit' (NC) for field for any reason they will be referred to the Student Review Committee (SRC) to determine the student's status in the program. An NC grade is equivalent to a failure in a course.

6.22 Performance that May Result in a Student Review

Student reviews can occur under any of the following circumstances:

- Failure to meet or maintain academic requirements as stated under Scholastic Performance. Students earning a grade of "F" or "NC" in any MSW course are automatically referred to the SRC and must repeat the course. Students may not move forward in the program until they have successfully repeated the failed course and are only allowed one opportunity to repeat a course. Students who fail two courses are automatically dismissed from the program. Students who earn a grade of C+ or C in a course may be referred to the SRC and may be required to repeat the course.
- Scholastic dishonesty, including cheating, lying, plagiarism, collusion, falsifying academic records, or any act designed to give unfair advantage to the student. (Faculty must adhere to university guidelines. For complete University policy and procedures, see California State University, San Bernardino Bulletin of Courses, Academic Regulations, Plagiarism and Cheating.)
- Behavior judged to be in violation of the current NASW Code of Ethics.
- Behavior judged to be in violation of the Student Discipline Code (See CSUSB Bulletin of Courses).
- Any threat or attempt to harm oneself or someone else.
- Commission of a criminal act that is contrary to professional practice.
- Consistent pattern of unprofessional behavior.
- Failure to meet any of the Standards for Social Work Education: School of Social Work Criteria for Evaluation of Academic Performance. For some of these circumstances, faculty are required to contact other entities, such as the Police Department or the CSUSB Student Conduct Office.

6.23 The Two Levels of Review

6.23.1 Level 1 Review

Whenever a faculty member, adjunct faculty, Faculty Field Liaison or Field Instructor has concerns regarding a student's academic performance, or professional/ethical conduct in the classroom or field practicum, they shall meet with the student to resolve the concerns. At that time, a verbal or written contract can be developed to assist the student in correcting the behavior, and the academic advisor will be informed of the concerns. If the issues are not resolved, the student's Academic Advisor should be contacted to help address the concern and do further fact finding (A note of these meetings and activities should be placed on the log at the front of the student's file). The goal of a Level 1 Review is to proactively assist the student in addressing and correcting behaviors. If the issues

are still not resolved, the faculty member or advisor will make a referral to the Chair of the Student Review committee for a Level 2 Review. If the concern is of a very serious nature, it may be necessary to go directly to a Level 2 Review.

6.23.2 Level 2 Review

A Level 2 Review involves the Student Review Committee (SRC, which is composed of the Chair of the Student Review committee, and at least two other faculty members not parties to the problem). The person making the referral and the student's advisor, as well as other faculty whose expertise is required (e.g., field and program staff) are also invited to attend.

Within two business days of receiving the referral, the SRC Chair will:

- Notify the student of the referral using the student's CSUSB email address
- Provide the student with the referral form and supporting documentation
- Inquire about the student's preferences for meeting dates and times

The SRC Chair will schedule the SRC hearing to take place no sooner than two business days after the student has received the referral documentation, and no later than 10 days after the referral was made. The SRC will take into consideration the student's meeting preferences; however, it is the student's responsibility to respond to the notice for an SRC meeting, and to attend the meeting (in person, via phone, or via videoconferencing), even if the meeting cannot be scheduled during the student's preferred dates/times. Should the student fail to respond and/or attend, the SRC will meet and will render a decision without the student's input. Should the student withdraw from the MSW program or from the University while under referral to the SRC, the SRC process will continue with or without the student's participation.

If an issue is not resolved at Level 1, the Chair of the Student Review committee will convene the SRC to meet with the student and involved faculty members. The meeting will include communication regarding the specific concerns related to academic performance and/or professional/ethical conduct in the classroom or field practicum and an opportunity for the student to present their perspective on the concerns. After the review meeting has occurred, the Chair of the Student Review committee will discuss the recommendations with the Dean's office for final review/approval, and then will inform the student of the decisions which can include one or more of the following actions:

- Permit the student to continue in the program with no conditions. In these situations, the concern has been addressed and no further action by the student or program is required.
- Establish formal conditions for the student's continuance in the program. A remediation plan will be developed in consultation with the student, the advisor, and the concerned faculty member as needed. This plan shall:
 - a) specify the concerns of the faculty member in as much detail as possible
 - b) indicate the actions to be undertaken by the student
 - c) indicate the date by which the student must demonstrate the required level of knowledge, skill, behavior, or ethical conduct
 - d) the plan may indicate the name of a mentor (may be the advisor if the student chooses) who will meet regularly with the student and report progress to the SRC (see below Role of the Mentor)
 - e) be signed by the Academic Advisor, and faculty member who initiated the concern
 - f) be reported on regularly by the mentor (see below)

The student will be given a copy of the plan and asked to sign it indicating they received a copy of the document. The student will also be informed, in writing, of the right to rebut the

Plan or grieve the decision. All students who have been placed on a remedial plan are also automatically placed on academic probation. Plan and reports will be filed in the student's file and reported to Graduate Studies.

The SRC chair shall, on or before the date specified in the plan for completion of the remediation, review the student's progress. One or two actions must be taken to resolve the concern:

1. The plan is met, and the concern is alleviated. This is communicated in writing to all those in the above paragraph, plus the Director of the School of Social Work and members of the SRC.
2. The concern is not alleviated. The SRC shall make a recommendation, which may be that the student be dismissed from the program. In some situations, the SRC will recommend that the student no longer continue in the social work program. This decision will be forwarded to a meeting of the full faculty and if confirmed by the full faculty, is final at the School level. That decision will be communicated to the student in writing including information on the right to appeal through the university's academic grievance process (see CSUSB Bulletin of Courses).
 - o At the time a student is dismissed from the program, they are dropped from classes and are no longer enrolled. This will be communicated to the Office of Graduate Studies and the University Office of the Registrar. This may require repayment of financial aid funds. If a student is dismissed from the MSW program, they are dismissed from the university as well.

6.24 Grievances and Appeals

Field Education students have the same "Due Process" rights in field as in classroom courses regarding grades and CSUSB Social Work Programs decisions. These are described in the MSW Student Handbook, the University Bulletin and other university documents.

7.0 PLACEMENT SELECTION PROCESS AND REQUIRED FIELD PRACTICUM COMPONENTS AND REQUIREMENTS

This section of the manual covers the process for selecting the student's field site and the required components of field: 1) Pre-Field Orientation, 2) Field Seminar, 3) the Learning Plan Agreement/Comprehensive Skills Evaluation, 4) Process Recording, 5) Supervision and Evaluation. Participation in each of these required components is essential to achieving the goals of the field education program. Students should be familiar with all the required components of field and plan to actively participate in each. The components of field are intended to 1) provide orientation through the experience, 2) to provide guidance in shaping the experience to the student and agency while meeting MSW program goals, and 4) to provide the supervision and evaluation necessary for achieving and assessing desired behaviors consistent with the nine CSWE competencies.

7.1 Generalist (Foundation) Year Field Practicum Application and Interview Process

Application Process

1. Once a student has applied to and been accepted into the MSW program, the Director of Field Education, Pathway Program Field Coordinator for the Distance Learning students or Title IV-E Field Coordinator for child welfare stipend students will send a letter/email to the student requesting an in-person or online interview.
2. Students complete a Field Application online through the program's Intern Placement Tracking

- System (IPT).
3. Based on students' interests, learning needs, agency resources, and in some cases personal circumstances, the Director of Field Education or designated Program Field Coordinator will meet with the students to discuss placement options and a two-year field plan.
 - a. The Generalist (first) year field placement process is intended to expose students to an area of practice/population they have not been exposed to and/or have no experience. The second-year practicum is intended to be in a practice setting that aligns with the student's specialization, area of interest and possible research interests.
 - b. Note: Students who receive a stipend (Title IV-E) will have additional requirements to consider when being placed. Goal is to provide opportunities to work with clients and agencies that provides services to children, adults and families receiving CWS services or at risk of entering the CWS system.
 4. After the Director of Education or designated Field Coordinator has met with the student, discussed placement options and a two-year field plan, and identified the placement site that best meets the student's needs, a formal referral is made to the student and that agency by the Field Director or Field Coordinator.

Student/Field Instructor Interview

The student is instructed on how to contact the agency and set up their interview. The purpose of the interview is to determine if the placement is acceptable to the student and the student is acceptable to the prospective Field Instructor and any other interested agency official. The student is instructed to take their current resume to the interview (or may be asked to email it to the Field Instructor before the in-person interview) and to attempt to secure a practicum with agency.

Given the limited number of field placements, and the recent additional new social work programs, agency availability has become much more limited and competitive.

Placement Confirmation

If the placement is acceptable to all parties involved, confirmation of this is communicated and shared by the Director of Field Education or with the designated Field Coordinator, either through email or completion of the Interview Confirmation Form. Once placement is secured, the student will follow up with the Field Instructor no later than late June to discuss pre-practicum requirements (i.e., Live Scan criminal background check, TB tests, physical exam, etc.).

Second Interview

1. On rare occasions, a placement may not be acceptable to either the student or the Field Instructor. In this situation, the student will report back to the Director of Field Education and/or the designated Field Coordinator. Feedback from the previous interview will be discussed with the student.
2. If necessary, the student will receive coaching on how to perform in an interview and/or be offered a mock interview prior to being referred for a second interview. However, being referred to a second interview will be based upon the Director of Field Education and/or designated Program/Field Coordinator determining that the student has the necessary skills, temperament, maturation, and readiness to be successful in their field work.
3. If the Director of Field Education and/or designated Field Coordinator reviews the attempts made to secure a placement and determines that the student is not ready or is inappropriate for field work, the student will not be referred for a third interview.
4. While the School of Social Work attempts to secure appropriate practicums for all students, in accordance with the placement procedures listed above, it does not guarantee

- that all students will be successful in the placement interview.
5. Students who are denied a placement by two different agencies, who refuse to accept two agency offers, or who refuse an interview with an agency will be required to meet with the Director of Field Education and/or designated Field Coordinator. The Director of Field Education and/or designated Field Coordinator has the option of referring the student to the Student Review Committee, or to indefinitely terminate the field practicum privilege, due to being unsuccessful in securing a placement after completing two interviews. The MSW Student Handbook, specifically the Student Review Process, will be followed in such cases. The criteria for assessing appropriateness for the social work profession include criteria including but limit to (MSW Student Handbook 2.1-2.3):
 - 2.1 Basic Abilities Necessary to Acquire Professional Skills
 - 3.2 Emotional and Mental Abilities Necessary for Performance in the Program and Professional Practice
 - 2.3 Professional Performance Skills Necessary for Work with Clients and Professional Practice
 6. If the student's employment and/or other competing factors in their personal life impair or prevent them from securing a field placement, the process of pursuing placement will be suspended, and the student will be referred to the Director of Field Education and/or the SRC for review. The decision to suspend the practicum referral process is at the discretion of the Director of Field Education and/or designated Program/Field Coordinator, and/or the Student Review Committee. Further, the student will not be permitted to sign up for the field work sequence (SW6081).

Students are prohibited from independently contacting an agency for a placement. There are many variables involved in the placement process, which a student may not be aware of. To ensure that the learning needs of students are met, a formal process for selecting Field Placement sites from the approved site list has been developed. The process contains multiple steps to ensure that the placement sites have the expertise and capacity to properly train students and that the roles and responsibilities of the partners in the Field Education process (University, agency, student) are clearly understood before students are placed in an agency.

If a student is interested in an agency that is not currently an approved placement site, the student may discuss their interest with the Director of Field Education and/or designated Field Coordinator and provide them agency information. However, the student is **prohibited** from contacting the agency directly.

7.2 Advanced Generalist Year Field Practicum Application and Interview Process

Application Process

1. At the end of the Fall semester, returning students apply for a practicum using the Field Application Form, located in IPT. Upon direction, in the Spring, Advanced Standing students apply for an internship using the Field Application Form, located in IPT.
2. Once the student completes the form and submits an updated resume, they sign up for an interview with the Director of Field Education, the Title IV-E Coordinator, the Pathways Distance Education Field Coordinator, or the Advanced Standing Field Coordinator.
3. The interview will provide the student with two agency referrals based upon the student's chosen specialization, with consideration given to the student's previous experience, geographical accessibility, long range career goals, areas of special interest, and the availability

of placements. An Interview Confirmation form will be sent to the agency via email advising the agency of the student referral.

Student/Field Instructor Interview

The student is instructed on how to contact the agency and set up the interview. The purpose of the interview is to determine if the placement is acceptable to the student and the student is acceptable to the prospective Field Instructor and any other interested agency official. The student is instructed to take their current resume to the interview (or may be asked to email it to the Field Instructor before the in-person interview) and to attempt to secure a practicum with agency.

Given the limited number of field placements, and the recent additional new social work programs, agency availability has become much more limited and competitive.

Placement Confirmation

If the placement is acceptable to all parties involved, confirmation of this is communicated and shared by the Director of Field Education or with the designated Field Coordinator, either through email or completion of the Interview Confirmation Form. Once placement is secured, the student will follow up with the Field Instructor no later than late June to discuss pre-practicum requirements (i.e., Live Scan background check, TB tests, physical exam, etc.).

Second Interview

1. On rare occasions, a placement may not be acceptable to either the student or the Field Instructor. In this situation, the student will report back to the Director of Field Education and/or the designated Field Coordinator. Feedback from the previous interview will be discussed with the student.
2. If necessary, the student will receive coaching on how to perform in an interview and/or be offered a mock interview prior to being referred for a second interview. However, being referred to a second interview will be based upon the Director of Field Education and/or designated Program/Field Coordinator determining that the student has the necessary skills, temperament, maturation, and readiness to be successful in their field work.
3. If the Director of Field Education and/or designated Field Coordinator reviews the attempts made to secure a placement and determines that the student is not ready or inappropriate for field work, the student will not be referred for a third interview.
4. While the School of Social Work attempts to secure appropriate practicums for all students, in accordance with the placement procedures listed above, it does not guarantee that all students will be successful in the placement interview.
5. Students who are denied a placement by two different agencies, who refuse to accept two agency offers, or who refuse an interview with an agency will be required to meet with the Director of Field Education and/or designated Field Coordinator. The Director of Field Education and/or designated Field Coordinator has the option of referring the student to the Student Review Committee, or to indefinitely terminate the field practicum privilege, due to being unsuccessful in securing a placement after completing two interviews. The MSW Student Handbook, specifically the Student Review Process, will be followed in such cases. The criteria for assessing appropriateness for the social work profession include criteria including but limit to (MSW Student Handbook 2.1-2.3):

- 2.1 Basic Abilities Necessary to Acquire Professional Skills
- 3.2 Emotional and Mental Abilities Necessary for Performance in the Program and Professional Practice

- 2.3 Professional Performance Skills Necessary for Work with Clients and Professional Practice
6. If the student's employment, and/or other competing factors in their personal life, impair or prevent them from securing field placement, the process of pursuing placement will be suspended, and the student will be referred to the Director of Field Education and/or the SRC for review. The decision to suspend the practicum referral process is at the discretion of the Director of Field Education and/or designated Program/Field Coordinator, and/or the Student Review Committee. Further, the student will not be permitted to sign up for the field work sequence (SW6803).

Note: Students who are participating in the Title IV-E Program engage in a structured interview process and are required to complete their Advanced year placement with a county public child welfare agency.

7.3 Learning Plan Agreement

At the beginning of the academic year, the student, and the Field Instructor, in consultation with the Faculty Field Liaison, develop a learning plan structured by the Learning Plan Agreement/Comprehensive Evaluation of Skill form (LPA), which is accessible at <http://www.alceasoftware.com>. The Director of Field Education, designated Field Coordinator and/or Faculty Field Liaison(s) will provide training on how to access and use the Intern Placement Tracking (IPT) Database program during the pre-field orientation held prior to the academic year and through an online IPT training module.

The purpose of the agreement is to formalize the expectations for student learning (knowledge) and performance (skills) by developing learning opportunities that allow student to demonstrate behaviors consistent with the nine competencies. Since students come to the MSW Program with different needs and various levels of experience, the learning agreement should be reflective of an individual student's needs in addressing learning opportunities in practice within the framework of the overall program goals. The Field Instructor supervises the process of the development of the learning agreement and determines what is feasible given the resources of the agency.

Toward the end of each semester, the Field Instructor rates the extent to which the observable behaviors were achieved. Activities in the fall semester are expected to help the student begin mastering the competencies by the end of the spring semester.

Learning Plan Agreement/Comprehensive Skills Evaluation Development Procedure

The following procedure is recommended beginning the first week of placement:

1. The student reviews the Learning Plan Agreement/Comprehensive Skills Assessment form.
2. The student discusses the agency mission statement, learning opportunities, expectations of the Field Instructor, Field Instructor field plan, practicum objectives, expectations, and activities with the Field Instructor and, with the assistance of the Field Instructor, assesses their learning needs.
3. Together the student and Field Instructor articulate specific learning activities using the Learning Plan Agreement form. Students and Field Instructors are

required to complete the following sections of the learning plan at the beginning of the year to formulate learning opportunities based on the agency mission, structure, client population and policies.

4. The Field Instructor reviews, modifies the plan as appropriate, and discusses the modified plan with the student and Faculty Field Liaison. The student, Field Instructor and Faculty Field Liaison sign the revised plan after all agree with it.
5. After student and Field Instructor complete the learning plan outline, they are then required to document the site-specific learning opportunities/activities intended to develop the student's skills which demonstrate behaviors reflective of each competency.

7.4 Process Recordings

Process recordings (written and/or auditory) in conjunction with regular supervisory guidance are important tools in the learning process. The process recording is an educational tool that helps the student review, reflect, internalize, assess, critically analyze, and understand the client encounter, including the latent issues and feelings that contribute to that interaction. It affords the student the opportunity to explore and apply the conceptual knowledge from the classroom to social work practice.

A minimum of six process recordings are **required** per year (Seminar 2-7). An agency may require additional process recordings. They are to be reviewed and signed by the Field Instructor and discussed during supervision. **One** process recording is to be submitted to the Faculty Field Liaison via Canvas in Seminars 2-7. It is used by the Faculty Field Liaison as one indicator of the student's progress in applying knowledge gained in the classroom in the field.

Please refer to your seminar syllabus for the due date of your process recordings.

The format for the process recordings will be reviewed at the Pre-Field Orientation and/or will be covered in the Field Seminars and are available at the MSW Field Practicum webpage.

7.5 Supervision

Regularly scheduled, individual, one-hour weekly conferences with the Field Instructor are a required feature of the field practicum. Students should log one hour of supervision per week on their time log. The conference is a mutually interactive process between the Field Instructor and the student and is used to assess the student's learning activities, including the integration and generalization of concepts from the classroom to applied field experiences, and to resolve problems. Weekly supervision provides an opportunity for the Field Instructor to give ongoing feedback on the student's performance of practicum goals. It helps students identify their performance strengths and weaknesses, review process recordings, discuss case issues/dynamics, and evaluate their progress toward achieving the goals identified in the Learning Plan Agreement. Field Instructors may utilize process recordings, case histories, and presentations to explore case dynamics, client-student interaction, and systematic thinking. Additionally, the Field Instructor may request the student to seek consent from their client(s) to audiotape one or more sessions for review and analysis with the Field Instructor during their supervision hour, for the student's professional and personal growth.

If there are any difficulties in maintaining regularly scheduled supervision, the student should immediately bring this matter to the attention of their Faculty Field Liaison.

While other learning opportunities are encouraged, such as attending trainings, workshops, lectures, conferences, etc., these are no substitutes for the one hour of weekly individual or combination of individual and group supervision sessions.

7.6 Field Seminar

As an integral part of the 6081-6084 sequence, all Generalist (Foundation year) and Specialized (Advanced Generalist year) students are required to attend field seminars online. The purpose of seminar is to provide a forum for discussion of students' practicum experiences, to synthesize and integrate theoretical and practical knowledge obtained from field practicum and CSUSB coursework, and to link this material to CSWE core competencies.

Attendance:

Field seminar is part of students' concurrent learning with their field placement and meets online via Zoom eight (8) times throughout the academic year. **Attendance is mandatory** and field seminars are scheduled for two and a half hours each, which may count towards field practicum hours if approved by the Field Instructor and if the field seminar is held on a regularly scheduled field day. Any unavoidable absence should be discussed as soon as possible with your Faculty Field Liaison before the seminar. Missing two field seminars for any reason is likely to result in a "no credit" grade for field seminar and field placement (SW6081- 6084). Should this occur, the student will not be permitted to continue in the MSW program that academic year, will be required to re-enroll in not only the field seminar and field placement the following year, but also the social work practice courses the following academic year because the MSW curriculum is sequential and concurrent in nature. The student may be required to repeat that entire academic year of field seminar and field placement, as well as their social work practice course(s), depending on how well the student performed up until the time of the "no credit" determination, and pending a decision rendered by the Student Review Committee on this matter. Additionally, it should be noted that excessive and/or regular tardiness or leaving the seminars prematurely may constitute an absence from a field seminar, and this determination is made by the student's field seminar instructor.

Participation in Zoom Seminar:

Participation credit for Seminar is determined by several criteria, as listed below. To receive full credit for Field Seminar attendance, you must meet and demonstrate the following:

- 1) Active involvement in Zoom synchronous class discussions (video and audio turned on for entire class period; audio should be muted when not speaking).
- 2) Arriving on time and ready to participate in class (video and audio on).
- 3) Remaining actively involved in class with video on for entire class period.
- 4) Demonstrating a commitment to a distraction-free class learning environment, which includes the following: video on for entire class period, no personal cell use, no personal laptop or tablet use, laptop/tablet/cell use as it pertains to course material and course participation only, appropriate questions and attention to content and respect for Field Faculty Field Liaison and peers, as demonstrated by verbal and non-verbal communication.

To obtain a credit for the Field Work Course, students need to obtain a minimum of 80% in the seminar course AND successfully complete the required hours in field. Please review the course syllabus for details.

7.7 Required Field Meetings

Integration of information learned in the classroom with experiences in the field is a critical part of professional learning and preparedness to competently enter the profession. The following meetings are required to facilitate integration of material:

1. Field Orientation
2. Scheduled supervision (see Supervision section above)
3. Group meetings, training, staff/team meetings, and case conferences arranged by the Field Instructor
4. Periodic, usually once or twice each semester, online zoom meetings with the Faculty Field Liaison, individually and/or in groups of students and Field Instructors
5. Field Seminar online through My Coyote Zoom meetings
6. Additional meetings arranged by the Faculty Field Liaison, for example, a group of students meeting in the Faculty Field Liaison's office to discuss activities, common problems, or issues.
7. School events as listed on the Master Field Calendar
 - Professional/Career Development Day (Virtual/optional for Title IV-E students)
 - Court Immersion Day (Online for 2022-2023 AY; Virtual)
 - Title IV-E Day (optional for non-Title IV-E students)

7.8 Evaluations of Field

Ongoing evaluation of the student's progress is a function of the supervisory process. Any concerns about the student's progress by the Field Instructor should be brought to the attention of the student and Faculty Field Liaison as soon as possible, so corrective action may be initiated. If the Field Instructor and student, with the assistance of the Faculty Field Liaison, are not able to resolve the problem, then the issue will be brought to the attention to the Director of Field Education and/or the designated Field Coordinator. The Field Director and/or the designated Field Coordinator will notify the student's academic advisor and their Faculty Field Liaison of field issues to determine if the student is struggling in other areas of the program, such as in the classroom. The Director and/or the designated Field Coordinator will have the option to work on a corrective action plan (Level 1 Review) or request a meeting before the Student Review Committee (Level 2 Review) as outlined as outlined in Section 6.21.

Written and verbal feedback will be sought from students and Field Instructors as to what was most helpful in the field education program and what changes they would recommend. Students and Field Instructors are encouraged to provide this feedback on an agency basis as well.

7.9 Written Evaluations

Written evaluations of the student's progress are to be inserted in the "Field Instructor Narrative" section of the IPT Database, Learning Plan Agreement. The Faculty Field Liaison will document progress mid-semester to reflect outcome of the semester field visit. The following procedures are recommended:

- | | |
|--------|--|
| Step 1 | Prior to the due date, the student completes a self-assessment of themselves using the electronic Learning Plan Agreement /Comprehensive Skills Evaluation (LPA) located at the IPT website (www.alceasoftware.com) |
|--------|--|

- | | |
|--------|---|
| Step 2 | The Field Instructor completes the same document, evaluating the student on all the competencies listed therein. |
| Step 3 | The Student and Field Instructor review their completed LPA during a weekly supervision meeting to discuss their ratings, and to process any differences that may exist. The School requires that Field Instructors include “narratives” of their student intern’s progress to identify the student’s strengths and areas needing improvement in more detail/specificity at the end of each semester. |
| Step 4 | The Field Instructor electronically saves and submits the LPA to the School via the IPT website. |
| Step 5 | The Faculty Field Liaison is then responsible for reviewing the evaluation, electronically signing the LPA in IPT database, and posting the student grade as per university protocol. |

The following scale is in the student’s IPT online Learning Plan Agreement.

7.9.1 Performance Evaluation: Please use the following Key in evaluating your students.

EVALUATION KEY

Evaluation Key

N/O (Not Observed) Student has not had the opportunity to demonstrate the knowledge, values, skills, and cognitive and affective processes related to the practice behavior.

- 1 (1-20% of time) Student shows little or no ability to perform behavior(s)
- 2 (21-49% of time) Student sometimes effectively achieves the behavior(s)
- 3 (50-79% of time) Student usually able to effectively achieve behavior(s)
- 4 (80-95% of time) Student has frequent/very good achievement
- 5 (96-100% of time) Student has consistent/superior achievement

An email to the Faculty Field Liaison is required when a student shows little ability or an inability to perform at least 20% of listed behaviors at any time after Week 5 of the academic semester. This indicates a serious problem with the student mastering a basic skill level. Additionally, most first-year students are not expected to receive a score of ‘5’ on their evaluation until spring semester. Such a level indicates mastery of a skill at the Generalist Foundation year level or at the Specialized Advanced Generalist year level.

7.9.2 Fall Semester

The expected levels of performance for a first semester student are levels **2** and **3**. There are likely to be *N/O (Not observed)* scores as well because much of the student’s time will have been spent in orientations to the agency setting and observations of other professionals.

The Faculty Field Liaison will meet with the field supervisor and the student early in the semester to review the Learning Plan Agreement and at least once every semester thereafter. In between meetings, the Faculty Field Liaison is available to answer questions and discuss any issues of concern about the student. The Faculty Field Liaison should be contacted under the following circumstances:

- The student continues to perform at level **1** on any specific behavioral measure.

- The student is performing at level **2** on more than 75% of the behavioral measures in any one of the core areas.

7.9.3 Spring Semester (Final Evaluation)

The expected levels of performance for a spring semester student are **4** and **5**. The Liaison should be contacted under the following circumstances:

- A student is performing at level **1, 2, or possibly a 3** on any specific behavioral measure

7.9.4 End of Year Evaluations

The field education program is a collaborative effort between the agencies, Field Instructors, Faculty Field Liaisons and Director of Field Education and/or designated Field Coordinator. To ensure that the overall program continues to function at the highest possible level, the following evaluations are required at the end of each field practicum year.

1. Student Evaluation of the Field Placement
2. Field Placement Process Evaluation by Students
3. Student Evaluation of their Faculty Field Liaison/Academic Advisor
4. Evaluation of Field Education Administration by Field Instructors
5. Evaluation of Field Placements by Faculty Field Liaison
6. Evaluation and Feedback Integrative Field Seminars

The forms for all student evaluations will be provided to each student through an electronic evaluation form provided by the School of Social Work at the end of the academic year.

All evaluations are considered confidential and are utilized for program and faculty evaluation and development.

8.0 GRADE FOR FIELD

The student receives a grade of “credit” or “no credit” for the Field Practicum course. The Field Instructor will recommend credit or no credit in the IPT database at the end of semester evaluation. The Faculty Field Liaison will consider the Field Instructor recommendation, determine the student’s participation/performance in Field Seminar, and will electronically submit the grade in My Coyote. The Faculty Field Liaison/seminar leader, based on these criteria, makes the determination of the grade for fieldwork:

1. Student’s performance and participation in field work course.
2. Completion of required assignments for the field work course.
3. Student receives a grade of 80% or better in the field work course.
4. Student’s performance in the agency placement as reflected in the written evaluation by the Field Instructor and any meetings with the Field Instructor, student, and Faculty Field Liaison/Seminar Leader.
5. Student’s attendance at all required field events.

Please note: Students will not be assigned a field grade until all field assignments and/or forms are reviewed, completed, signed, and manually and/or electronically submitted. To receive a credit in the field work course, students need to achieve an 80% in the field work course AND successfully complete field practicum hours.

Failure to perform satisfactorily in **any** of these areas may result in a grade of **NO CREDIT**.

An occasional grade of “Incomplete” may be approved for unexpected circumstances by the Seminar Instructor. The need for the “Incomplete” is discussed between the student, their Field Instructor, and Faculty Field Liaison. A student cannot receive an “Incomplete” if terminated from an agency. Students must be aware that an “incomplete” grade will most likely affect disbursement of financial aid for the following semester.

9.0 FIELD WORK AGENCY: PROCESS AND REQUIREMENTS

9.1 Process for Placement Site Selection

Selecting Field Settings

Field placements are selected from social service agencies throughout the region and are approved based on the quality of their professional practice and acceptance of collaborative participation in professional social work education and ability to provide the experiences that are specified in the LPA. This basic requirement involves the acceptance of the NASW Code of Ethics and the program's mission, objective, and curriculum, as well as a readiness to invest in the social work education process and meeting the minimum qualifications. The criteria for selecting agencies centers on the agency's ability to provide students the opportunity to acquire practical professional experience through instruction and supervised activities reflective of the School's overall curriculum goal. The following are used to assess the agency's capacity to provide appropriate field placements:

The following process is used to assess the agency's capacity to provide appropriate field placements:

1. First Level Assessment

If a potential field site contacts any CSUSB Field Faculty or staff and if field staff is interested in partnering with a specific field site, initial contact is made via email or telephone. Once interest is established the following forms will be provided to begin the vetting process:

- Agency Application Form (must be completed and submitted)
- Field Instructor (FI) Information Form (Form must be completed & submitted by each potential FI)
- Field Contract Initiation Form (for review)

Interested agency representative is informed that once the FI Form and Agency Application Form have been completed and submitted via email, agency information will be reviewed by Field Coordinator, Designee, and/or Field Director and an onsite/virtual visit will be set up.

Minimum requirements for field site include:

- The Field Instructor holds an MSW from an accredited school of social work and has at least two years of post-MSW practice experience and at least six months at the current field site or program.
- Agency Field Instructors should assess their workload to assure adequate time to

meet student needs. Thus, agencies considering becoming a field placement site should assess very carefully their ability to assume the obligations involved and advantages derived from the venture.

Once forms are received, the vetting process continues with the Field Director/Field Coordinator and/or Designee:

- Field Director/Field Coordinator and/or Designee will review the submitted forms and vet for appropriateness of agency
- Field Director/Field Coordinator and/or Designee will review the submitted forms and vet for appropriateness of Field Instructor(s), including FI Training criteria
- Once vetted and found to be suitable, Field Director/Field Coordinator and/or Designee will set an appointment with agency for a face-to-face or virtual site visit

2. On- Site/Virtual Visit

An on-site or virtual visit will be completed by the Director of Field Education or Designee. The Director of Field Education or Designee will visit the agency or discuss and assess in a virtual meeting the agency's potential for MSW student placements, which will be performed through a discussion with agency staff and examination of agency documents about the services it provides. Factors in the assessment include whether the agency has the capacity and potential for providing adequate setting experience, resources and learning opportunities appropriate to the MSW Program, supervision, and instruction to ensure a quality field practicum experience, Field Instructors that meet our criteria, and whether the school can respond to agency interests and needs in a reciprocal fashion.

Other agency expectations include:

- A commitment to high educational standards as reflected by the Council on Social Work Education.
- The overall responsibility for the development of the agency's participation in this social work educational joint venture should rest with the agency's Executive Director or senior staff member.
- Learning experiences with individuals, families, groups, agency administration and communities (as indicated by the Learning Plan Agreement/Comprehensive Skills Evaluation) must be made available by the agency.
- The agency will be expected to assure the availability of records prepared by students for learning instruction and evaluation at the School, subject to professional safeguards.
- Physical facilities necessary to accommodate students will be provided by the agency. When possible, these will include desk space, a meeting room for seminar instruction where indicated, facilities for private interviewing, tutorial instruction, resources necessary for home visits, provisions for essential clerical services, and compliance with the Americans with Disabilities Act.

3. Approval

Upon completion of the field site visit, the Director of Field Education and/or Designee will discuss the outcome of the visit with the field team. If the agency, Field Director, and Field Team agree that the agency is a strong fit for the MSW program, Field

Director will initiate the Affiliation Agreement/Contract with CSUSB Contracts Office who will in turn initiate an Agreement/Contract with the agency. Once the Affiliation Agreement/Contract has been signed by all required parties, Field Director or Designee will add the Agency information to IPT (Intern Placement Tracking data system) and to the appropriate spreadsheet to indicate an active and approved field site. The agency will be notified in writing of this approval by receipt of the university/agency agreement form signed by the university contract officer and by the agency director or designated agency representative.

4. Field Instructor Training Compliance Prior to Student Placement

Each Field Instructor must complete the required Field Instructor Certification Training as part of final approval of the agency in question (unless they have already been certified by an accredited Department or School of Social Work at another university within California). Field Instructors – and field Preceptors – are however encouraged to occasionally attend Field Instructor trainings after being certified to receive updates about any policy and procedure changes that might have occurred within the School of Social Work and its Field Education Program, to meet new field faculty members, etc.

10.0 FIELD INSTRUCTOR CERTIFICATION TRAINING PROGRAM AND COMMUNICATION

The certification training program is an eight-hour course designed to establish a uniform set of expectations for Field Instructors in the roles and responsibilities of the field practicum.

The requirements are:

1. All agency social workers who serve as Field Instructors must be certified within one year of supervising any CSUSB social work student (BASW or MSW)
2. Certification is awarded upon the completion of the core training program (either with this School or another accredited graduate department/school of social work within California). Ongoing certification is maintained by attending an annual Field Instructor training
3. CSUSB will award Field Instructors with an identification card. This card grants them library and other university privileges
4. Field Instructors who have not maintained their certification by attending the annual Field Instructor Training should contact the Director of Field Education regarding re-certification
5. Field Instructors who have not taken the Field Instructor training within the past 5 years or have not worked with a CSUSB student within the past 5 year will be required to complete the Field Instructor Training again to ensure they are trained in the school's current curriculum, changes in the field program and overall trends in field instruction
6. Training and certification by other social work programs at other universities meet this requirement (e.g., reciprocity is granted by most who area member of the Southern California Field Director's Consortium so long as the curriculum is not materially different from that of CSUSB's)
7. Preceptors that play a major role in the training of graduate social work students should also complete Field Instructors training. Other agency officials with interests in graduate social work education are also welcomed to attend the core training
8. Continuing education units (CEU's) will be awarded to those individuals who complete the entire Field Instructor Training. CEU's will not be awarded for partial completion, however the individual may complete the remainder of the training at another School or School of Social Work the same year, or the following year at CSUSB or another CSWE-

accredited social work programs provided that the make-up training does not overlap the already completed training session(s).

10.1 Orientation Checklist for Social Work Interns and Field Instructors

The Orientation Checklist is a very useful tool to help both the Field Instructor and student intern learn about the agency, its policies and procedures, expectations, as well as those of the Field Instructor. It also helps to add clarity and avoid misunderstandings between the student interns, agency, Field Instructor, and Faculty Field Liaison. A conversation about this checklist during supervision and during the first few weeks of field placement can also reduce anxiety in the student intern. We ask that this check list be reviewed by both student and Field Instructor and be electronically signed in the Intern Placement Tracking system (IPT) during their first agency meeting with the student and Field Instructor.

10.2 Special Note to Agency Executives and Field Instructors

The faculty and administration of the School of Social Work and of the University are most appreciative of the invaluable contribution provided by our affiliated community organizations, agencies, and Field Instructors. Without the cooperation and collaboration of all concerned, a quality program of graduate Social Work Education would be impossible. Faculty Field Liaison Faculty will visit each placement site on a regular basis to assist agencies and Field Instructors in any way needed via virtual meetings, written communication such as emails and the social work program manuals, and in-person when needed. The Director of Field Education is available to answer questions, participate in problem solving, and provide a range of administrative consultations to agency staff and Field Instructors.

Field Instructors are authorized to use the university library and can often obtain parking permits for attending campus-based activities by communicating with the School of Social Work's main office.

If the School of Social Work can be of any assistance to agencies or Field Instructors, not only in the education and training of Social Workers, but in reaching agency goals or better serving clients, your calls and emails are welcomed.
