Why Data Analytics? Why now?

The number of jobs in Data Analytics is expected to grow significantly in the next decade, as companies seek to hire more data analysts. The US Bureau of Labor Statistics estimates that data analyst jobs will grow 25 percent between 2019 and 2029, much faster than the average for all occupations. The state of California is reported to have a higher number of job opportunities than other states for business and data analysts due to the many businesses with a focus on technology.

As an essential skillset in any organization, Business and Data Analytics will help our graduates find jobs in both public and private sectors across different industries such as:

Cybersecurity

Logistics

Manufacturing

Retail

Healthcare

Hospitality

Education

Finance And Banking

Entertainment

New cohorts start in Fall and Spring semesters, and the program can be completed in 12 months. Students can request some flexibility in the schedule to help balance the demands of work-home-family. Our world-class faculty value the input of diverse students with exceptional and varied backgrounds. We await your program application!
