

## Meeting Minutes, April 27, 2016

- The committee is considering using CSU Fresno, CSU Los Angeles, and/or CSU Sacramento as potential benchmarks. These CSU universities were selected due to availability of data, the size of the schools, and similarity of the demographics.
- The committee debated whether two schools should be used, one as the peer comparison and one as the target comparison.
- The committee agreed that Graduate Studies will replace the current demographic information in the CSU Comparison Table with data from the US Census.
- The committee reviewed the first draft of the student focus group questions which explore the reasons why students chose CSUSB. A survey will be developed and administered by Graduate Coordinators of each program.
- The committee agreed to hold a series of open houses in May place of the Open Forums.
