

NOW TO CAREER: SEE SUCCESS

Fall 2019

The event was led by Dr. Francisca Beer, Denise Perez-Flores of the Career Center and Jamie Ayala from the Center of Global Management. During the event, Beer, Perez and Ayala advised students to start their career plan by reflecting on their values, their skills and their passions. The presenters stressed the importance of developing SMART goals and on sharing these goals with professors, career professionals, peers and family members. When goals are shared, a sense of accountability is created. Beer, Perez and Ayala also emphasized the importance of developing soft skills (i.e. leadership skills, teamwork, flexibility).
