CSE 482 Senior Project Presentation

Date

June 11, 2019

Time

3:00PM

Location

JB 358

Title

Microsoft Active Directory

Student

Reilly Flynn

Advisor

Ernesto Gomez

Abstract

For my presentation I will be explaining what Microsoft Active Directory is and how to set it up on Windows Server 2019 and add a client computer running Windows 10. I will show how to promote a server to a domain controller and add a DHCP server. I will explain how to add a client machine to a domain and create Organizational Units and apply Group Policy Objects to the OUs.
