

CALIFORNIA NEEDS STEM TEACHERS!

Have you considered becoming a K-12 STEM Teacher?

Join us via Zoom for a special Math/Science Single Subject information meeting! We have invited a panel of CSUSB graduates, who are now practicing STEM teachers and leaders, who will be sharing their experiences and thoughts that can help you make more informed decisions about becoming a K-12 Math or Science teacher.

Get insights, ideas, and suggestions. Have your questions answered.

If you have ever thought about becoming a STEM teacher, join us to clarify your questions. If you have not thought about becoming a STEM teacher, join us too, you will have new ideas about your future career!

Panel discussion includes:

- Why do you decide to become a teacher?
- What motivate you to stay in teaching?
- How your ideas about teaching might have changed from when you were in the credential program to now?
- What are some suggestions you have for people who are interested in STEM teaching?

STEM Information Meeting
