Subject: Summer Session

Dear Colleagues,

After considering the ongoing restrictions and protective measures resulting from the COVID-19 pandemic, and due to the uncertain recovery timetable, the CSUSB 2020 Summer Session will be delivered virtually. The Center for Extended & Global Education will support this effort, which will permit students to progress in their academic studies and allow a number to complete their degree requirements and qualify for graduation. Students should contact their academic advisor to discuss the educational opportunities and options available this summer.

Thank you for your continued support of our students.

Best,

Shari McMahan, Ph.D.
