**AN INSPIRING CULTURE WHOSE LEGACY
STILL LIVES IN OUR ARCHITECTURE, ART,
SCIENCE, CULTURE & DAILY LIFE.**

Studying abroad in Granada implies a double journey, since while being a modern European city it also transports you to its Andalusí past, where a multicultural society coexisted.

The Nasrid Kingdom of Granada has been a source of inspiration for many since its days of glory up to the present. The only Taifa Kingdom that survived and coexisted with the Christians for more than 250 years was praised in the East and the West. The Alhambra was its greatest pride and its majesty is still alive today . This palatial city has brought together a host of experts, artists, celebrities and citizens throughout its long history. They have shed light on its construction and historical context, but they have also revealed its symbolic importance. Don't miss the journey!
