### *About the Chair:*

Fashioned of Claro walnut (California black walnut from the Chico area), this rocker is, in many subtle aspects, unique and special. All of Sam's chairs are special; however, the unique appeal of this rocker is its beautiful, highly figured and stunningly textured wood, enriched by the subtle tonal effect, including a gradation of color from the lightest brown on the top of the back and on the legs to the very dark, marble-like swirls adorning its slender, beautifully curved spindles. A special inscription reads: "For my 92<sup>nd</sup> Birthday Celebration at CSU San Bernardino."

Thank you so much for your generosity and vision!
