

California State University San Bernardino
School of Computer Science and Engineering

CSE 482 Senior Project Presentation

Date

March 11, 2020

Time

3:00pm-3:30pm

Location

JB 360

Title

Ansible Automation

Student

Jesus Medina

Advisor

Dr. Ernesto Gomez

Abstract

Jesus Medina will do a presentation on Red Hat's command line tool Ansible, which he has used to configure, manage and maintain Kids That Code's Linux machines. Jesus has built configuration files for all necessary roles to perform on the machines such as file transfer, OS updates, installing necessary packages and applications, etc.
