

Dear Colleagues:

I continue to be proud of the substantial accomplishments you have made on our university Strategic Plan. Some notable examples include completing our branding initiative, being on-track to meeting our Graduation Initiative 2025 goals, creating additional programming for the Staff Development Center and Faculty Center for Excellence, and reaching an all-time high of over \$32M in grants being awarded.

The [third year draft progress](#) report has been posted. I encourage each of you to review it and provide any comments or edits at the [following link](#) by January 28, 2019. A final version incorporating your edits will be sent out to campus and posted to the Strategic Plan website.

Thank you for your continued support. Evy and I wish you a happy holiday season.

Sincerely,

Tomás D. Morales
President
