

Election Day is Tuesday, November 3

In the upcoming election, every registered voter in California will have an opportunity to vote by mail.

County election officials on October 5 will begin mailing every **active** registered voter a ballot. Visit your county's registrar of voters website to make sure your voter registration is current.

Ballot drop-off locations, early voting sites, and polling places still remain an option for voting. If you choose to vote in person, please do so safely by following all public health and safety protocols.
