

Dear Campus Community,

My condolences have become a part of my daily thoughts as the unrelenting gun violence and death and injury toll builds across our nation.

Picking up a weapon to act out one's anger, fear, pain and rage is decimating communities and leaving deep, deep scars.

For the victims of Michigan State, Monterey Park, Half Moon Bay and the other mass shootings which have become monstrously routine, let us extend our compassion and our care.

We know, firsthand, here in San Bernardino, what such shootings mean. And each fresh shooting re-traumatizes all those who have undergone their own horrific shooting experiences.

Please know that we have supportive services available to you here on campus. Don't hesitate to reach out to:

- CARE Team  
909-537-2273  
[CARE@csusb.edu](mailto:CARE@csusb.edu)
- Counseling & Psychological Services  
909-537-5040 (appointments and after-hours crisis support are available)

Let us firmly resolve to continue to value and care for one another until such carnage is brought to a close.

Sincerely,

**Tomás D. Morales**  
President
