

**California State University, San Bernardino
Santos Manuel Student Union Board of Directors
Facilities & Sustainability Committee**

ZOOM: <https://csusb.zoom.us/j/88135160112>

OR

IN-PERSON: SMSU NORTH STUDENT CHAMBERS
April 8, 2024 – 1:00 PM

AGENDA

1. Call to Order
2. Roll Call
3. Approval of Minutes
 - a. March 18, 2024
4. Open Forum
5. Adoption of Agenda

NEW BUSINESS:

- FSC 10/24 Men of Color Student Success Center (Discussion, Roberson)
- FSC 11/24 SMSU South Vacancy Survey Results (Discussion, Roberson)
- FSC 12/24 SMSU Facilities Use for Heritage Month Celebrations Proposals (Discussion, Roberson)

Announcements

Adjournment

**California State University, San Bernardino
Santos Manuel Student Union Board of Directors
Facilities & Sustainability Committee
March 18, 2024 – 1:00 PM**

MINUTES

Members Present: Alicia Dean, Jesse Felix, Autumn Hudson, Matthew Jenkins, Sean Kinnally, Anthony Roberson.

Members Absent: Angelica Agudo, Vilayat DelRossi, Elmer Gutierrez, Diana Ruiz

Guests Present: Dr. Lorena Marquez

Call to Order: The meeting was called to order by Ms. Hudson at 1:13pm.

Roll Call: A verbal roll call of members was conducted.

Approval of Minutes from February 19, 2024.

No amendments were requested. Voice vote conducted. Minutes approved by consensus.

Open Forum: There were no speakers for the open forum.

Adoption of Agenda:

No amendments were requested to the agenda. Voice vote conducted. Agenda adopted.

NEW BUSINESS:

FSC 08/24 SMSU Repairs and Replacements (Action, Roberson)

M/S Kinnally/Jenkins to open action item FSC 08/24 SMSU Repairs and Replacements.

Mr. Roberson provided an overview of the executive summary which outlines the repair and replacement schedule for facility-related items in SMSU South. Mr. Roberson also referenced the spreadsheet which contains the cost of each item and the anticipated lifespan.

VOTE: 4 In-Favor 0 Opposed 0 Abstentions

Motion passed.

FSC 09/24 Heritage Month Policy (Action, Roberson)

M/S Roberson/Jenkins to open action item FSC 09/24 Heritage Month Policy.

Mr. Roberson provided an overview of the newly drafted Santos Manuel Student Union (SMSU) Facilities Use Policy for Heritage Month Celebrations. Mr. Roberson and SMSU leadership wanted to have this policy in place, so heritage month chairs committees have the detailed guideline for requesting the in-kind facility use for their heritage month kick-off events. The committee reviewed the drafted policy to identify any amendments that may be needed.

M/S Roberson/ Felix motion to approve amendments on the Santos Manuel Student Union (SMSU) Facilities Use Policy for Heritage Month Celebrations.

VOTE: 4 In-Favor 0 Opposed 0 Abstentions

Motion passed.

M/S Roberson/Felix to approve Santos Manuel Student Union (SMSU) Facilities Use Policy with amendments.

VOTE 4 In-Favor 0 Opposed 0 Abstentions

Motion passed.

Announcements

- Mr. Felix shared that there are some lighting issues in the student union. This will be brought to the committee soon.

Adjournment

Chair Hudson asked the committee if there was any further business. No further business was brought forth. Chair Hudson adjourned the meeting at 1:42pm.

Reviewed and respectfully submitted by:

Autumn Hudson, Chair

Date

Center Creation Policy

A center is defined as a physical space which provides the campus community with services to enhance the academic and personal development of CSUSB students. For example, a center can provide direct services, serve as a point of referral, or as a space to provide students with a safe space to build community and mentoring relationships.

In an effort to ensure that SMSU Centers provide a high-quality student experience, the guidelines listed below must be met to establish center spaces within the SMSU.

Proposals must be submitted to the Santos Manuel Student Union Board of Directors (SMSU BOD) at least six months in advance of the goal to establish the center.

Proposals must include:

- Mission and Purpose of the Center
- Overview of how it supports the strategic plan of the University and the SMSU
- Number of students expected to serve
- Outline of the types of qualitative and quantitative measures which will be used to assess goal attainment
- Goals and objectives
- Operational budget and identified funding source
 - Both startup and annual budget
- Amount of physical space needed for success
- Letters of support

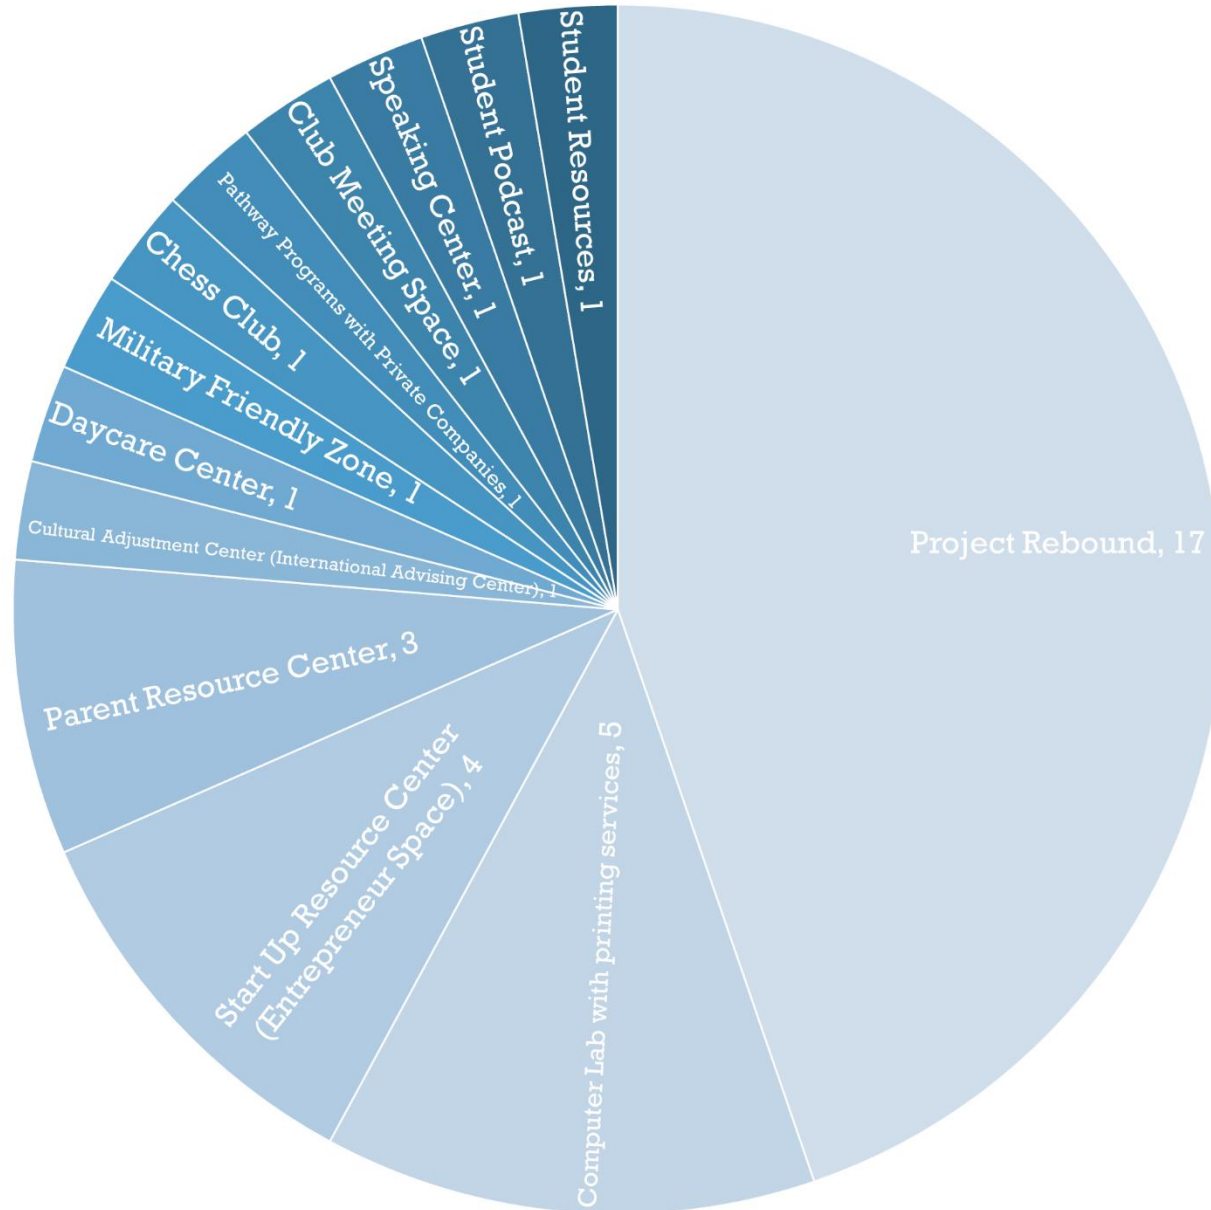

The SMSU BOD requests the right to refuse proposals for such spaces. Each SMSU Center will be required to undergo an evaluation process every three years to determine its effectiveness. Any Center seeking re-establishment must go through the proposal and approval process in order to be reconsidered by the SMSU BOD.

Proposals need approval from the SMSU Facilities Committee and the Vice President of Student Affairs before being submitted to the SMSU BOD for consideration.

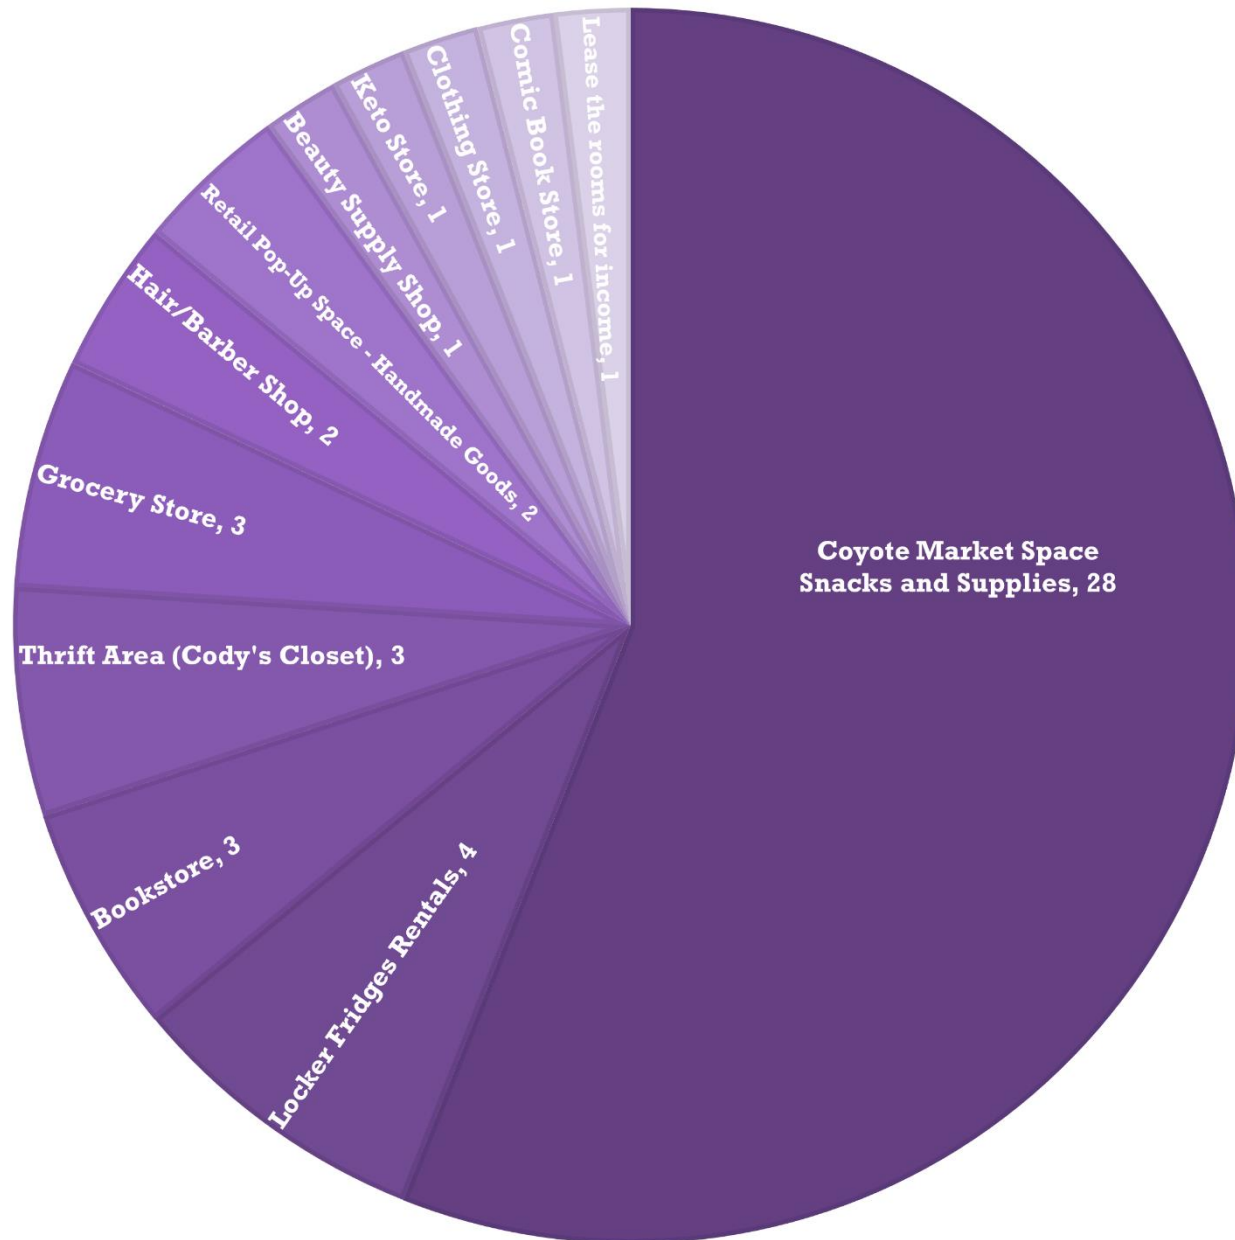

SMSU BOD approved 6.11.15

I don't know			1

How do you imagine these spaces being used?

Think of what would best serve students:

Second room should be another food or restaurant

Project Rebound

Keto Store

Esports arena

Esports arena expansion

Nap room

Beauty Supply Shop. The amount of stores that provide hair care, cosmetics, beauty tools, etc, are rare in San Bernardino. Many people love to express themselves through styling their hair, face, and many other ways that empower ourselves through our image.

Creating an additional space for the project rebound students. Club Rebound doesn't have much support.

Expansion for E-Sports Arena

Project Rebound Office Space

I think a really good idea would be I think a really good idea would be mini locker fridges. mini locker fridge. You know how they have a set up system in the gym to rent a little locker, just that but with freezers to store lunch or groceries since I do not dorm or live close by.

Expansion on the esports arena or a table top/board game room for students

Extra space for the Esports Arena, maybe a board game area?

Something having to do with health and wellness. Like a smoothie bar, or where we can talk to health professionals in a casual space about our health needs that isn't the health center.

I could definitely see some form of commuter lounge in this space. The windowed area could house some refrigerators for students to leave their lunch. The other room could be a hang out spot with small games to play and chairs to chill in.

Space for students to hang out and eat

Cultural adjustment center or International student advising center (career development services, job search assistance)

Study space

Any cultural related space for giving information and learn about new things

Snack bar or study area

More restaurants for more food variety

Another restaurant

Coffee, study space,

A coffee place would be cool

Coffee bean

coffee place

resting area

I believe we can use the free spaces as a way to showcase art created by students like an art gallery.

Expand esports

A study room where the vending machine is and some benches where the door is

Gaming area like Pacman or skii ball that you would see at an arcade. Or potentially another food option like Chipotle

study lounge with extra whiteboards to use

For a nice place to settle down

Food places

A plant-based fast food place for vegans/vegetarians

Parents lounge

Parents lounge.

Vegan options!! :(

Smsu student worker break room

Extra study rooms

More food places

Study/lounge area

Healthy options

To be honest idk

A neurodiversity space with rocking chairs and nice safe space to study and relax

Game arena expansion

Study rooms

Study rooms

It really a good space to put something in the smsu building and it will serve many people to come to visit this place

Store

Another fast food store

More food options and areas to relax and work quietly

Food options

Hair/barber shop

Maybe another good place for student or like a small market.

Mini art gallery, featuring student and faculty art work. Sound proof room for amateur music production for general use (not only CAL majors); ambient study room; parent welcome center;

Study spaces or where students gather with others such as a "chill" space

More restaurants, study spaces, coffee shop, playground,, market place

A relaxation room.

Quiet room to study. A bookstore. Another coffee shop that's not Starbucks.

Maybe a quiet room or a meditation area :)

Commuter lounge/ study space, acai bowls, adventure equipment.

Coffee shop that is not Starbucks ! Ambient study space , book store , play ground

A relaxation room

Commuter lounge

Student staff lounge

Student staff lounge

I think the rooms should be turned into another lounge/study room that's free of mosquitos.

A restaurant perhaps or another center like the den where food donations are given to students.

Study/Nap Pods would be amazing!

Another food option would be nice or more study chairs, I love to come study in here because it's not as crowded in this building.

Student resources

Hi

To study

Definitely another food spot with more chairs and microwaves

Another lounge area for studying or just hanging out with friends

I think space b should be a drink store of some sort and space a should be a store that has exotic snacks. Study space with desks and ports for charging. A bit of privacy for the stations so students can do a zoom class

Coffe local

Dutch bros or craft center

Comic book store

Good

A clothing store

Some video art pieces and gaming studios

Better food options

An acai bar would be really cool. Acai bowls are healthy, and taste amazing, especially when paired with different topping like honey, nuts, granola, and other fruits. The acai berry is also a superfood.

Expand the current E-Sports Room to a larger area

One like a locker room where we can drop all our stuff before we go to class at 7 and get back our stuff late at 8:30 since all centers are closed by that time it's hard to carry all the stuff to classroom and the second area since there is no room for Association for supply chain hope they can use it

Space for SMSU employees

Expansion for Esports Arena

boba time

Healthy smoothy bar

As a subway

napping areas

Mystery questions not solved not just math questions; Guinness records needs like how many people saved in the community; rotational share how what relatives did in culture month share day event; and XR VR immersive about the clubs, and school as well.

It would be great if the Adventure program was placed here! It would be more accessible to students!

Esports Expansion

Adventure Program!!

Adventure program

I would like for the Adventure program to be in this space!!

CSUSB Adventure Info Desk and Gear Rental

Healthier food options such as fruit and/or a vegan restaurant

I strongly advocate for the allocation of a space for Project Rebound, the organization I'm part of. To me, "space" signifies more than physical dimensions; it embodies a sanctuary for cultivating community bonds and fostering relationships. Individuals without a supportive community inevitably face hardships and confront challenges in solitude. Formerly incarcerated individuals, such as I, already navigate numerous obstacles on campus. The absence of a dedicated space not only denies me the chance to assemble as a community but also undermines vital support systems, risking potential setbacks. Project Rebound as an organization that not only recruits students but also encourages their participation in campus organizations, research endeavors, and community activism, we occasionally experience a sense of detachment—not just from our peers due to lack of space, but from the entire school community. Distance often mirrors our proximity. The feeling of detachment and isolation is undeniable. It is imperative that we confront this disparity and secure the space essential for our development and unity.

I would like this space to be used for Project Rebound students, we are a growing program who have been historically marginalized,, underserved and under represented. We have over 70 students, and no place to meet or build community. This space can be used host meetings, collaborations, career development, and planning for students by students. I ask that ASI consider acknowledging our program just as other campuses have acknowledge their project rebound students.

Adventure Program

Boba place

Thrift area- have students donate items that can be used by another student. Like uh Cody's Closet.

Expansion for Esports Arena

A better study cafe with lots of charging desk space! Starbucks is yuck, many students are bocotting, and Einstein bagels plays such loud music that I cant focus!

please for the love of god give us something good to eat like subway

another coffee place that isnt starbucks for ex: coffee bean

I would like to see the esports center expanded

A thrift area where people could donate clothes (and if someone wants something it should be FREE), arts and crafts area, cooking and baking area

Space for the Adevnture program. This space would offer a store front, outdoor rental equipment, and information about the adventure program, and would also help advocate for health and wellness.

Esports Arena

One space for esports, the other space for a pop shop for students to sell their products,

Another food place

Room 116 could be used as a quiet computer lab with a printing station since the one in UH was removed amd the only other option is the wedge or library. In room 114 it would be nice to have a coffee shop with multiple charging stations where students can check out different chargers to use for their products while hanging out in the shop, for the students who forgot their chargers and will be on campus all day.

computer lab/reclining chairs

Independent study rooms likewise the library has them just to have private room for study

Lounge / Study Area

Adventure Program!!!!

Subway

Student employee lounge area; place for students staff from around campus to relax, connect, and share experiences with one another to best serve the campus community.

a quiet study area, similar to the library but more enclosed. have students selling small drinks and snacks behind the counter (like a smaller, cafe-like version of the CGI Marketplace)

A monthly rotating pop up space where student that make products can sell those products. Not food, candy or beverages. Clothing, body care, jewelry, candles, hard goods or soft goods nothing perishable.

i think it would be best used as a rec center some place where you can go hang out talk play video games or charge up your devices

Project rebound

The SMSU South has been growing as a central location where students can get excellent resources to meet all 7 dimensions of wellness: social health (e-games,dining options), emotional,physical, and spiritual health (The Retreat, Basic Needs), and intellectual & occupational health (career center, Financial Literacy Center). I believe an excellent use of this available space is for the CSUSB Adventure program. The Adventure program gives our students the opportunity to experience nature and urban adventures that they may otherwise never be exposed to; adventures that can promote wellness across social, emotional, physical, spiritual, and intellectual dimensions all at once. I have been a staff and faculty member on campus for 7 years now, and I know first hand that many of our students: 1) Have never had the opportunity to be exposed to outdoor activities such as hiking, camping, visiting national parks, canoeing, etc; 2) Are not even aware that we have an Adventure program; and/or 3) Are interested in exploring, but have seen these activities as inaccessible or expensive. Adventure offers students the opportunity to have experiences they never imagined, become leaders in their campus community, develop a new found appreciation for nature and the outdoors, solace from any personal issues they are experiencing, and so much more. I am confident that using these spaces as a new front for our Adventure program will allow us to greatly serve our students on a whole new level.

juice bar/ smoothies - open mic nights, karaoke, student lounge area

Adventure

Adventure Rentals! For sure. No doubt. 100%. They need a new face!

McDonalds, sutudent store, place to chill and eat

More food option on campus like a jack n the box

Something to help students relax, and unstress. May some type of relaxation (therapeutic) room. For example, a nature room (with plants) so students can sit in. But basically, some type of relaxation room that doesn't look like a classroom but not as "educational" as any other building. A place to temporarily forget your a student but a person who needs to not think for a bit.

Extra microwaves. Eating areas

taco bell, pizza hut

Nap area/ meditation zone

A work space for nutrition and kines students to meet with people for consultations to practice what they will do in their careers.

napping pods

Military Friendly Zones

CSUSB's Adventure and rental program

Snack machines, or video game arcades. A Water fountain.

Study Hall and/or Public Dining Area

More food options!!! the ones we have now are gross!!!

An ice machine and More microwaves please

Add a snack shop in 114 (chips, candies, sodas)

Tabletop Club Room

Hammocks/bean bags/resting lounge

More chain food options that aren't as local, such as bringing back taco bell

A cool lounge area with a big tv where students can watch movies. Comfortable chairs. Bean bags.

Creative space for introvert people or maybe something existing Indian cultural centre like for learn knitting, bharatnatyam classical dance, or anything to learn about any other cultural thing so people can learn and enjoy that.

chick fil a

Esports Arena

Coffee Shop!

Keep them unused as they are. There plenty of already-occupied spaces on campus.

Relaxation room or a room to destress

Perhaps another coffee shop, more table and chairs, another vending machine maybe

Leasing the rooms out to external franchises would increase school funding.

Another store for snacks or supplies, and/or another restaurant with broader healthy options

Sleep pods

Expansion for Esports Arena

Expanding the Esports Arena

one of the rooms can be a marketplace while another one can be a place to relax/charging station since there's not many places to charge your electronics

Expansion for Esports Arena

Sleep pods

I think it would be really cool to see Project Rebound have a space and SMSU south. Been able to be where all the students are would be a bigger impact and make more significant impact on

Free Arcade to unwind after exams

A daycare center that helps cater to single parents who are students.

114 Room : buy and prepare your own instant ramen station. or an expansion of the basic needs room in the San Manuel South. A resource where you can go pick up snacks or fruit

A start up resource center for all the startups in Calstate San Bernardino

Esports Arena

more food options. boba place or acai place

Expand esports arena

Expand the Esports arena

Either a "chill relax spot" like a mini version of the retreat and bring the market back

Chick-fil-A

Chick-fil-a

More seating and tables complete with outlets so students can relax and use their laptops.

arcade

A Lounge that holds equipment to make your coffee like k cups and a microwave to reheat your food from home. A portable charger station or a place that has sells soups and salad.

Food court

Pathways programs with certain private companies, example FSU has a pathway with Lockheed Martin

Coffee Shop

Another snack place and air hockey

I believe they would best be used by an already established program that is in need of space to expand such as Project Rebound.

A lounge for commuter students, more comfortable seats, couches, lounge chairs with the table to do work and microwaves. Another coyote market, smoothie place where students can have a healthier option of what they want to eat. The lounge space can also have board games or other activities.

Official club meeting space

a coffee shop that is NOT starbucks. Maybe an ambient for studying and cute homey coffeeshop. Or a bakery with reading spaces like a lounge. this can help with student engagement in the building and a good hangout space.

I am so glad you asked this question! Please turn this into a commuter lounge

Unless the eSports arena already fulfills that purpose, I'd like to see the Gamer's Lounge make a comeback, since there are offices where it used to be now.

have some pizza

Napping area and a lunch zone with more microwaves.

More food businesses

Add more stations that specifically cater to PS5 and Series X systems

student parent resource center

Better more affordable food options. Some kind of healthy food should be served or a place that sells Mexican food. We need more food options!

Supplement shop for the people who go to the Recreational Center

Make one of them into the Speaking Center so that it's more central to students!

A food place, store or a grocery.

Boba cafe, retro arcade games, fancy instant ramen station, a store front for students in business program to test out ideas/projects

LGBTQ+ Center or Chess Club, Esports club,

Esports Arena

Juice/yogurt/protein/frozen treats/boba bar :]

popup station for food vendors or craft vendors :) new stuff all the time :) or maybe a thrift shop or place to swap goods which would be fun to browse for new stuff all the time

Extra space for wellness center...there are so many commuter students that would need more space for them to hang out in.

Used school supply reclamation center.

Esports Arena

Expansion for Esports Arena

An arcade

116 should be an expansion for the esports arena

To expand the Esports Arena.

Expansion of the Esports Arena

E-sports arena expansion

An expansion for the ESports Arena.

Esports arena

Expansion for ESports arena

Project Rebound office

expand the esports arena into the two rooms for a larger space

I would like Project Rebound to be in one of those offices. This is an organization that provides resources and assistance for formerly incarcerated students.

One of the spaces can serve as a place for students to take naps. The other space can serve as a spot where they offer free meals to students, or have snack from the Den shared there as well.

An e sports arena expansion would be very cool. Using one or even both of these rooms would be great for an e sports arena expansion.

Nap pods

Individual study room areas. For students to do homework, study, eat a snack/lunch comfortably. Individual sectioned seats to have individual spaces equipped with charging ports/electricity.

Study lounge & smoothie/boba shop

It should be a students podcast with fun games and stuff kind of like a late night game tv show.

I think a smoothie place would best serve us students. Something that provides smoothies and acai bowls as a quick drink or snack.

all day movie theater with free popcorn

yogurt, fruit, smoothie bar! Something with fresh foods

The old Coyote Market would work well as parent resource center that would serve the needs of student-parents by providing free parenting resources, social support, social services referrals, and educational support.

A new dining area, or a study / chill spot . CSUSB students love food options I miss the veggie chicken bowls back when the burger place was bobas pizza

Convenience/snack shop, multimedia area

sleeping pods

A hair shop. For everyone.

area with public fridges/microwaves so commuter students can bring lunch (affinity center fridges too small)

Study areas

For being a student employee of the Student Union, I'd like to see a space for the SMSU student employees to have a break room with access to private lockers, fridges, and other amenities to provide to the student employees with their needs while working or outside of work such as maybe a study space.

Projector rooms for learning and developing sharing the exp

Chipotle

Several Theme areas. for example a garden area with flowers etc, a space theme, a water theme with water falls, places to feel like your in a surreal atmosphere. the other maybe like an ice cream bar.

Project Rebound Office

A common kitchen area for students who bring their own food. Microwaves, or other appliances to allow for reheating of brought food. Hydration stations, and services of healthy food options.

Maybe a study spot that is good for sensory overload

More tables for students to study or socialize with their peers and you can turn them into a small store like before and provide more jobs for students. (:

As a student who regularly the arena at times it can feel a bit cramped and stuffed because of the students who visit which is great because of all the interactions. Having this additional space can create new opportunities for new systems and better atmosphere for all students to enjoy!

Expansion for the Esports Arena

Student business trial.

quiet studying spaces would be nice

Have more microwaves and food options

maybe a place to relax and catch up on sleep in between clases

One or both of the spaces should go to the esports arena. Because I believe it will be able to help the esports arena host more events and have other clubs host events in there so people and gather together and play games and relax or have a little fun competition to encourage people.

Could we get maybe like another Mexican food option? Or perhaps like a hot dog place?

Pls wingstop on campus ☑

Market/Cafe

I think this space could be used to better support Project Rebound and our formally incarcerated community!!

An extension of the E-sports Arena. It's a great place for students to relax during long breaks between their classes.

Nothing. The money could go towards something more important like fixing the overhead vent hoods in the chemistry building.

It can be used for student leisure and expanding the esports arena
chipotle or taco bell

CSUSB Adventure!!!!

eh it alright

Allowing Project Rebound to occupy these offices

An area celebrating the diversity of campus, with our dei values. Maybe even a space for students to learn about different resources on campus, or to study and relax

The esports arena needs expansion

Some açai bowl place would be really cool. Or make one a nice movie lounge where movies can be played through out the day to just a moment to relax

Another coffee shop that also serves as a study space. I think another food space would be good. Or maybe a smaller gym?

coffee shop

Something Fun

coffee places

In the first space it could be "The Lounge". Similar to the retreat but rather than being able to take naps it's a comfortable space to hang out and mingle,, could off different types of seating such as couches, beanbags, etc. Board games could be set around for people to use and have fun with.

Maybe for like tabletop games and vr to give the students a really cool variety if experiences.

breakfast sandwich shop, snack shop, cafe/lounge, ect

Student leisure

space to eat, microwave, wash utensils and get fresh water. place for people to color, puzzle or restart their brain before going to the next class.

student Lounge/ Convenience Store

A break room in between classes to eat, study and relax. Photo on the right can be used to warm up meals or purchase food.

Student lounge

Sensory room (a quiet place to relax or rest)

Mini book store... school supplies and snacks or a sandwich and salad shop

Board game cafe

Entertainment spaces(Tv/music)/ Private Study Spaces/Places to rest (dark lighting, comfortable chairs)

Napping area, but create separate individual sections. I know we have some hammocks and recliners on campus but they give no privacy. Maybe putting a curtain for each individual or maybe building small rooms like the study rooms in the library.

A yummy fresh fruit place that maybe has acai bowls and a yummy smoothies

Subway, and grocery store

More nap pods for commuters who stay there all day before heading home

Maybe a new food spot

Food, lounge, computer center, mini store, sleep area, and etc (all possible choices)

Charging stations on desks free????

I would say more food options because I feel like we should have more of a variety of food on campus. Or maybe a mini student store which has resources or maybe pencils and things like that . Or simply just study spots where students can also eat

Project Rebound

Smoothie place or sandwich place

Another restaurant like subway or a sandwich shop

Office or place where students can work on

A sandwich place or salad place. Something healthy

I would like to see these spaces converted into a cafe and lounge. Preferably a place that serves coffee and small personal recliners

quiet pods/rest area

This could be used as an DIY room where people wanna relax to draw, make bracelets/keychains, paint on canvases, sew, needle felt, etc.

Smoothie Bar

Sleeping pods for students

An Acai Bowl/Smoothie place!

Since you have "affinity centers" for blacks, Hispanics, native Americans, LGBTQ etc. How about make it an "affinity center" for whites/people of European heritage

Bring back taco bellll

If possible, more food options on campus would be good. Alternatively, a place to do school/computer work that is slightly more private than the library would also be lovely.

A new coffee shop/cafe. I understand most students, staff and faculty like to purchase Starbucks but have an additional option would better serve the students and create more employment opportunities.

A place to nap with pillows

I think 116 would best serve as an expansion of the esports arena while 114 could be used as a general area with tables, chair, and outlets for students. Effectively 114 could be the quiet work space or a writing/computer lab area similar to how the gamers lounge was being used before basic needs was built

I believe that it would be nice to make the first place a spot where there would be printers. Like a designated spot for students to go and print whatever they need. The second place should just be a food place since it has all the stuff for it and the school wouldn't have to spend that much money. Thank you.

Chick-fil-a

Coffee Bar and Study Lounge or a Study Lounge with tables and board games outfitting the shelves. We could design our own photographs with friends to outfit the space. I think it would be a fun dining area as well. I feel a lot of commuter students would like to have a little space to lounge, study, and recharge. I think it would be nice to think of the space as a resource to come and use for presentations and using it as a space for creativity so little craft stations and a little hub for students to enjoy together.

I could imagine one of the spaces being a juice it up. The other space could be a ramen or noodle place where students could eat or have take out. Another idea could be a smaller coffee shop or cava , a Mediterranean food place..

more food places

The second picture could be a study area

Definitely more cafes with tables where students can work or relax more! - We only have starbucks and not enough seats

Expanding esports

You could put a chill area with couches and tables just for hangouts. Or you could put some arcade equipment if that's within the budget.

A chicken place such as wing stop and liquor like store

A TV room

Panera

lockers for commuters

Food

I liked them as a Starbucks and store.

More food options or TV room

More lounging areas for students for break and study times

Nap room

A study hang out zone!! Add a new food place!! We would definitely use that!

More food options

Student Store and some other restaurant.

A local coffee shop in the tile room that is not Starbucks or coffee bean !

A safe space for graduate students to go to relax and study. –msw student

boba shop

More massage chairs

Affordable quick and easy food for students

A place for students to relax or gather together in between or before classes

Expansion of the E-sports club room

Esports Arena expansion!!!!

Coffee shop/ market to get snacks or school supplies

Expansion of the esports arena

A great way to extend the esports areana. When i go in its crowded. The old market can be used for study area

Community staff refrigerators

Student lounge

Santos Manuel Student Union (SMSU) Facilities Use Policy for Heritage Months Celebrations

1. Introduction:

- a. This Facilities Use Policy governs the use of the Santos Manuel Student Union by the campus committee for the celebration of heritage months.
- b. The purpose of this policy is to ensure the responsible and respectful use of the facility during the heritage month kick-off/opening event.

2. Reservation Process:

- a. The campus committee must submit a written proposal to the Santos Manuel Student Union for the reservation of the facility for their opening event for their specific heritage month celebration.
- b. Reservation requests should be submitted at least two months in advance to the SMSU Scheduling office to allow for proper planning and coordination.
- c. In order to be eligible for this program this event must be open to all students.

3. Eligibility:

- a. The Santos Manuel Student Union will provide an in-kind contribution of use of the facility ~~and personnel~~ for an opening event directly related to the celebration of heritage month being celebrated.
- b. The campus committee must demonstrate alignment with the goals and themes of the heritage month being celebrated.
- c. Must be willing to list the Santos Manuel Student Union and Associated Students, Inc., and their logos, as co-sponsors on all marketing materials.

4. Compliance:

- a. All activities conducted within the facility must adhere to Santos Manuel Student Union policies and procedures. Please reference the Notice of [Non Discrimination Policy](#).
- b. The campus committee agrees to comply with all applicable federal, state, and local laws and regulations during the event.

5. Use of Equipment and Resources:

- a. The campus committee may use equipment and resources within the facility, subject to availability and approval.

6. Security and Safety:

- a. The campus committee is responsible for the safety and security of all attendees during the event.
- b. Security measures, including the presence of security personnel, may be required and will be discussed during the reservation process.

7. Cancellation and Rescheduling:

- a. The campus committee must notify Santos Manuel Student Union as soon as possible in the event of a cancellation or the need to reschedule.

8. Review and Amendments:

- a. This policy will be periodically reviewed and may be amended by the Policies and Procedures committee as needed.
