Graduate  
Studies

# Message from the Dean

I hope your summer is off to a great start! Whether you're a recent alum or continuing your graduate studies in the fall, I hope you take time to relax and recharge this summer. You all have much to be proud of.

Our summer issue of the CSUSB Graduate Studies Newsletter highlights the accomplishments of some of our most recent alums and describes the perseverance and talent that saw them through to their goals. We're featuring the outstanding graduate student from each college, as well as the inspiring stories of two of our new alums; Ruth Musser-Lopez (applied archaeology) and Ralph Figueroa (rehabilitation counseling). I hope you enjoy reading about their amazing accomplishments.

In case you missed it, we also included a look back at some of the main research events that took place during spring semester. Sharing your research findings is a big part of the graduate education experience, so we're providing a recap of our excellent Grad Slam: Three-Minute Thesis Competition, as well as the Student Research Competition, coordinated by the Office of Student Research. All nine graduate students who competed in Grad Slam were phenomenal, and we are so very proud of them. And our Student Research Competition competitors walked away with a record-setting number of awards! These events are open to all our graduate students and are an invaluable opportunity to practice your presentation skills; please consider participating in 2025-26.

Finally, I want to remind you that the Office of Graduate Studies is here for you throughout the summer. Our Graduate Student Resource Specialist, April Lane, is ready to assist you with any questions you may have about university policies and procedures, Shelby Reeder is reviewing theses, projects, and dissertations for summer graduates, and Megan Kinnally is planning our upcoming events. Feel free to reach out with any questions, or just stop in to say hello – we'd love to hear from you.

All best,

Caroline Vickers

# Awards and Accolades

## MSW Program Accredited at PDC

The new Master of Social Work (MSW) program at the Palm Desert Campus (PDC) has been officially accredited by the Council on Social Work Education (CSWE), the accrediting body for all social work programs in the United States.

With this accreditation, PDC graduates of the MSW program will be eligible to work toward professional licensing post-graduation, paving the way for fulfilling careers as licensed clinical social workers and leaders in various social service sectors.

## CSUSB Professor Gisela Bichler Receives Wang Family Excellence Award

The California State University (CSU) Board of Trustees has awarded its prestigious [Wang Family Excellence Award](#), Outstanding Faculty Scholarship, to Gisela Bichler, professor of criminal justice and co-founder of the university's [Center for Criminal Justice Research](#). The annual award recognizes four faculty members and one CSU administrator who, through extraordinary commitment and dedication, have distinguished themselves in their career. Dr. Bichler's prolific academic work and support of CSUSB students has long made a positive impact in the field of criminal justice.

## Professor Kerry Cato awarded Prestigious Floyd T. Johnston Service Award

Kerry Cato, professor of geological sciences, was awarded the prestigious Floyd T. Johnston Service Award from the Association of Environmental and Engineering Geologists (AEG), which is recognized as an international leader in the field. Learn more about [Professor Cato's achievement](#).

## Entrepreneurial Resource Center Opens at PDC

Located across the street from the CSUSB Palm Desert Campus, the new Palm Desert Entrepreneurial Resource Center (ERC) supports aspiring entrepreneurs looking to start or grow a small business. The Palm Desert ERC is a strategic collaboration between the CSUSB School of Entrepreneurship, the Inland Empire Center for Entrepreneurship (IECE) at CSUSB, the City of Palm Desert, and the Riverside County Office of Economic Development. [Spread the word](#) about this opportunity!

# Graduate Writing Series Launched in Spring

Graduate Studies launched the Graduate Writing Series, a carefully curated collection of CSUSB workshops and events focused on strengthening and celebrating graduate writing and research.

Workshops were offered in partnership with the Pfau Library and the Graduate Writing Center, and included such topics as making time for writing through time management techniques, using artificial intelligence appropriately, and organizing and tracking sources.

## Graduate Writing Series workshops included:

- Goal Setting and Time Management for Writers
- Zotero for Graduate Students
- Building your Scholarly Identity
- Thesis Formatting
- Thesis Submission Process
- Using AI in Writing and Research

Students were also invited to participate in Writing Accountability Groups (WAGs). Writing Accountability Groups are weekly scheduled writing times devoted to focusing on completing major writing projects, such as graduate theses, conference papers, and dissertations.

Throughout the semester, WAGs students met regularly to work quietly with their fellow students, set goals, and receive feedback from a Writing Center consultant.

In case you missed it, recordings of most Graduate Writing Series workshops are available on the Graduate Studies website under our [Writing Research and Support tab](#). Be sure to explore all the resources listed and take your writing to the next level.

# CSUSB Student Researchers Garner Top Awards

The annual campus and statewide research competitions showcase student research from a wide variety of disciplines, and this year’s events were no exception. Students from Biology, Psychology, Kinesiology, Computer Science, History, and English Literature programs were represented. The competitions offer CSUSB students a platform to enhance their presentation and communication skills while demonstrating their scholarly and creative accomplishments.

At the campus competition, CSUSB graduate and undergraduate students presented their research findings to a panel of judges, where 10 projects were chosen to advance to the CSU-wide event. This year’s California State University (CSU) Research Competition was hosted at Cal Poly Humboldt, April 25-26. There, our Coyotes competed against nearly 200 other exceptional scholars within the CSU system. Our students did an extraordinary job this year, with six CSUSB scholars bringing home awards. Congratulations to all those who participated in the campus and state-wide events!

## 1st Place Winners (\$500):

**Sebastian Zazueta** – Health, Nutrition, and Clinical Sciences (undergraduate)  
Presentation: *Low-Volume Resistance Training Increases Muscle Strength and Reduces Stress in Older Women*  
Faculty Mentor: Dr. Wagner Do Prado

**Michael Rubalcava** – Humanities and Letters (undergraduate)  
Presentation: *The Binding Lines: Race and Unfree Labor in the Wills of Colonial Virginia*  
Faculty Mentor: Dr. Ryan Keating

## 2nd Place Winners (\$250):

**Luis Gonzalez** – Behavioral and Social Sciences (graduate)  
Presentation: *Changes in Circadian Rhythm and 24h Activity Pattern after Fluoxetine Exposure in Adolescent Rats*  
Faculty Mentor: Dr. Leslie Amodeo

**Rachel Kanter** – Behavioral and Social Sciences (undergraduate)  
Presentation: *Moral Injury and Religious and Spiritual Struggles: Pathways to Psychological Distress among Survivors of Intimate Partner Sexual Violence*  
Faculty Mentor: Dr. Christina Hassija

## Honorable Mentions:

**Amy Katherine Bartels** – Biological and Agricultural Sciences (undergraduate)  
Presentation: *Roundup Super Concentrate Exposure Decreases Activity of Drosophila melanogaster*  
Faculty Mentor: Dr. Becky Talyn

**Alewa Anaya** – “Making it Work” Award (graduate)  
Presentation: *Eyewear’s Effect on N170: Neural Mechanisms of Face Processing*  
Faculty Mentor: Dr. Nicolas Brunet

The CSUSB Student Research Competition is coordinated each year by the Office of Student Research. The campus competition is usually held in February. Please contact the Office of [Student Research](#) if you would like to participate. (909) 537-3728

# Level-up Your Career with a Graduate Certificate

Advance your skills and increase your marketability with a CSUSB graduate certificate! Created for those who already hold a bachelor's or master's degree, graduate certificates provide focused professional development in a particular skill or field, and most can be completed with only 12 units. They can also be used as a springboard to a master's degree, as some master's programs will allow students to transfer 12 units from the certificate to a related master's program.

## CSUSB Graduate Certificates

**Advanced Community/Public Health Nursing:** A post-graduate certificate program for Registered Nurses who hold a master's or doctoral degree in nursing and are interested in expanding their expertise in an added specialty. The certificate program builds on completed nursing graduate coursework and provides an option for professional development.

**Nurse Educator Certificate:** Prepares Registered Nurses who hold a master's or doctoral degree in nursing to deliver expert nursing care to community-based populations. The courses focus on population health assessment, program planning, evaluation, health policy, transcultural healthcare, and practicum experience.

**Certificate in Criminal Justice Spanish:** Designed for those who hold a bachelor's degree in Criminal Justice, Social Work, Sociology, or related disciplines and need to gain oral and written competency in Spanish. The online program is taught fully in Spanish and focuses on specialized terminology as well as cross-dialectal and cross-cultural variation within Latin American and US Spanish.

**Certificate in Healthcare Spanish:** Designed for college graduates who majored in Nursing, Health Sciences, Kinesiology, Psychology, Social Work, or related disciplines in Health and Human Services, and need to communicate effectively with their Spanish-speaking clients. The online program is taught fully in Spanish and focuses on specialized medical terminology as well as cross-dialectal and cross-cultural variation within Latin American and US Spanish.

**Graduate Certificate in E-Learning:** For individuals who hold a bachelor's degree or are currently enrolled at CSUSB and wish to expand their expertise in the growing field of E-Learning. This program provides a comprehensive understanding of both the theoretical and practical aspects of creating effective online learning experiences.

**Graduate Certificate in Educational Technology:** For individuals who hold a bachelor's degree or are currently enrolled at CSUSB and are eager to advance their expertise in the integration of technology within educational settings. This program provides the knowledge and skills necessary to incorporate technology into teaching and learning environments effectively.

**Hospitality and Tourism Management:** Designed for individuals who hold a bachelor's degree and wish to advance their careers in the hospitality and tourism management fields. The program is suitable for both aspiring professionals and those wishing to move into management roles. Students can apply twelve certificate credits to the CSUSB MBA program.

**National Cybersecurity Studies:** For those who hold a bachelor's degree and seek advanced knowledge in the field to meet industry demands in both government and private sectors. The curriculum emphasizes career-centered, practical workplace application courses. The certificate is an opportunity to fast-track to CSUSB's Master of Science in National Cybersecurity Studies; twelve credits can be applied to the master's program.

**Speech-Language Pathology Master's Preparatory Certificate:** Designed for college graduates who majored in other areas but are now interested in the fast-growing field of speech-language pathology. This certificate provides students with the prerequisite coursework needed to apply to most master's programs in Speech-Language Pathology and Communication Sciences & Disorders.

## How to Apply

Certificates may be earned by regularly matriculated or extended learning students. You can find the admission criteria and application process in Graduate Studies' list of certificate programs. [csusb.edu/graduate-studies/prospective-students](https://csusb.edu/graduate-studies/prospective-students)

# Student Spotlight: Ruth Musser-Lopez

**After receiving her bachelor's degree in anthropology in 1976, archaeologist Ruth Musser-Lopez was determined to one day hold a master's in her field. She'd made some important discoveries early in her career and wanted to explore her ideas further. But for a time, events took her life in a different direction. After many twists and turns on her path to a master's degree, a lot of determination, and a little help from CSUSB's Over 60 program, Musser-Lopez earned her Master of Arts in Applied Archaeology in May 2025.**

CSUSB's Over 60 fee waiver program allows adults who are 60 or older to pursue a college degree at a significantly reduced rate, and for many, it makes a lifelong dream a reality. The Over 60 program is open to California residents and is available at both the San Bernardino and Palm Desert campuses.

"I heard about the applied archaeology program at CSUSB during a Society for California Archeology meeting," she said. "Graduate students from CSUSB were presenting, and they were giving these stunning reports. I told myself 'I'm going to go there!' and lo and behold, I got in. I was expecting to pay, but someone from the Over 60 program called me and said, 'well, how does \$11 dollars a quarter sound?'"

## Discovering Her Passion

Musser-Lopez began her studies toward her bachelor's degree at Chaffey College, then transferred to UCLA. But the high cost of living led her to transfer to UC Riverside, where she completed her bachelor's in anthropology.

"Transferring to UCR was really a great thing that happened," she said. "It was perfect timing, because at that time the BLM (Bureau of Land Management) was doing the Desert Management Plan. A lot of the students in the anthropology department got involved in the archaeology end of that. And I ended up going on an archaeological survey for a couple of projects. I fell in love with field work and being out in the desert."

While working on one of the surveys in the Colorado Desert, her group discovered some petroglyphs along the Colorado River. Musser-Lopez was intrigued. Since her colleagues showed no desire to investigate further, she took on the project herself. "Nobody wanted to write it up," Musser-Lopez said. "And so I wrote it up and did a pioneering study linking Native American rock art and trails. It was published by Pacific Coast Archaeological Society, and at the time I didn't understand the gravity of getting something published at a young age." She was an undergraduate at the time.

After graduation, she landed a position at the BLM. It was 1978, in a heavily male dominated field, but she scored so high on the job placement test and interviews that she could not be ignored.

"It was a big deal, because there were hardly any women working in the BLM at the time. It was mostly men, out on the range, and their focus was on cattle grazing back then." When she and her husband decided to start a family, Musser-Lopez had little choice but to give up her permanent full-time position at the BLM. "At that time there was no time off – no maternity leave," she explained.

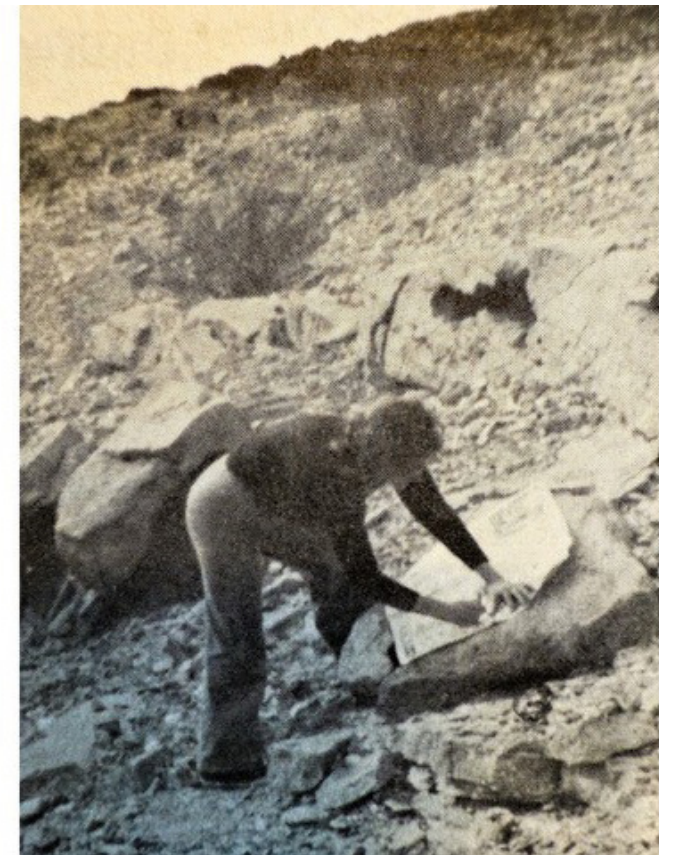

She switched to an intermittent position which allowed her more flexibility, but she was never able to return to permanent status. Eventually, she went into private consulting, lending her talents to both private companies and federal land agencies in California and Arizona. It was during a consulting project that she came across the Havasu Landing archaeological site that eventually became the subject of her master's thesis.

She had long pondered the work of Malcom Rogers and his theories on the Malpais people, whom he claimed were the earliest occupants of the Havasu area. While she didn't agree with Rogers on many points, his theory stuck in her mind.

"In 2003 I found the remarkable assemblage in Havasu Landing that later became the basis of my study. It surprised me that there was such an extensive site there of what looked like Malpais occupation which I had never noticed anywhere else in the desert. But at the time I didn't know what to do with it. I knew things were changing theoretically. I wanted to get my master's degree and learn more."

Musser-Lopez began her graduate program in 2017. She said she began putting the pieces of her thesis together during a class on the three major theories on early human migration. While the Clovis people had long been assumed to be the first in the area, new discoveries began to chip away at that theory. Her own research included pouring over her extensive collection of artifacts, carbon dating, and GIS mapping.

"When I did this study for my master's thesis, I found even more evidence that suggests that [Havasu Landing site] could be as old as those 23,000-year-old footprints in White Sands National Park, New Mexico. Now, that's our earliest evidence of humans being in North America." (Cont on Pg. 8)

Ruth Musser-Lopez tracing the Blythe petroglyphs in 1978

But in the middle of her studies, her life took an unexpected turn. Musser-Lopez was diagnosed with cancer. Her thesis was put on the back burner while she underwent several operations and chemotherapy. Despite these challenges, her energy and enthusiasm for archaeology never waned.

“A lot of people think that getting some sort of chronic disease or getting old is the end of the world. And I just want to emphasize that I’m an example of a person that has a goal that I want to achieve. It makes life exciting for me, and it takes my mind off the death on your shoulder.”

In Spring 2025, Musser-Lopez completed her master’s thesis, *Just Broken Rocks: The Lower Colorado River through the Lens of the Coastal Migration Theory*. While the mammoth-hunting Clovis people have long been assumed to be the first, Musser-Lopez argues that the Malpais may have been the earliest inhabitants, based on her findings at the Havasu Landing archaeological site. The ‘broken rocks’ that she found there were tested and found to meet the definition of ‘creative minimization tools’ described in Davis and Madsen’s Coastal Migration Theory. The tools may be as much as 23,000 years old.

### **Future Studies**

Musser-Lopez says her nearly 300-page thesis is not the end of her study, it’s the beginning. She’d like to see others in the field continue examining the Havasu Landing site and provide shell or pollen dating to better estimate the age of the site and is considering applying for a grant to make it happen. And in her hometown of Needles, she keeps busy with local projects. Musser-Lopez established the nonprofit Archeological Heritage Association to serve as an archive of the history of her desert community and hopes to add a visitor center.

Musser-Lopez said her battle with cancer gave her a new perspective on life that she hopes others will adopt:

*“It gives you a different perspective that you need to accomplish some of these things before you die, and one way to do it is, go back to school and get some tools to do it with.”*

Musser-Lopez’s thesis, *Just Broken Rocks: The Lower Colorado River through the Lens of the Coastal Migration Theory*, is available on [CSUSB Scholarworks](#).

Ruth Musser-Lopez today, near the the Lower Colorado River.

## **Outstanding Graduate Students 2024-2025**

At the close of the academic year, each college honors an exceptional graduate student. Graduate Studies is proud to recognize the Outstanding Graduate Students of 2024-2025:

### **Watson College of Education: Marvin Espinoza and Marilyn Monroy**

Espinoza earned his Doctor of Education in Educational Leadership with a specialization in community college/higher education.

Marilyn Monroy, who completed her Master of Science in Counseling, found her calling at Riverside City College, where the support of counselors helped her discover her purpose.

### **College of Natural Sciences: Walter Navarro**

After earning his bachelor’s in mathematics at CSUSB, alumnus Walter Navarro decided to continue his studies in the field, earning a Master of Arts in Mathematics this year.

After graduation, Navarro will pursue a Ph.D. in applied statistics at the University of California, Riverside, with plans to focus his research on biomedical applications.

### **Jack H. Brown College of Business and Public Administration: Monica Ybanez**

Monica Ybanez, a two-time CSUSB alumna, graduated this year with her Master of Business Administration.

She hopes to use her degree in a mission-driven organization where she can champion inclusion.

### **College of Social and Behavioral Sciences: Jessica Mary Fanene**

Jessica Mary Fanene overcame significant personal and medical challenges; her career goal is to serve as a school social worker or with a mental health agency that serves school systems.

### **College of Arts and Letters: Veronica Morales and Katherine Posada**

Veronica Morales, who has earned a Master of Arts in English and Writing Studies, was accepted to the University of Southern California, where she plans to continue expanding her scholarship in ethnic American literature, social justice activism, and abolition studies.

Katherine Posada, who is earning her Master of Fine Arts in Studio Art, found her voice and vision through clay.

After graduation, she plans to teach ceramics at the university level and become a contributing voice in the field through exhibitions, research, and community-based projects.

# CSUSB Student Ralph Figueroa named National Student Veteran of the Year

## Ralph Figueroa, Rehabilitation Counseling, M.A.

Graduate student Ralph Figueroa, chapter president of CSUSB’s Student Veterans Organization (SVO), was named 2024 Student Veteran of the Year by the Student Veterans of America (SVA) at the SVA national conference in Colorado Springs.

The award, given Jan. 3, honors a student who has made a positive impact on the lives of fellow student veterans or the veteran community and who has displayed exceptional leadership qualities and a commitment to serving others.

“It’s been a whirlwind to say the least,” Figueroa said. “I think mentally I’ve been preparing myself for this role, and I’m ready to face all the challenges that come my way. It’s an immense responsibility, but I’m definitely ready to take it on.”

While Figueroa said he was surprised to receive the honor, he is no stranger to earning accolades. In 2022, Figueroa re-chartered the Student Veterans Organization (SVO) and has served as its president since then. In 2024, he was recognized by CSUSB’s Office of Student Leadership and Engagement as the Outstanding Student Club Leader, and the SVO was named Club of the Year. In October, he was selected to attend the prestigious SVA Leadership Institute in Washington, D.C. and was named an SVA Leadership Fellow.

Figueroa will graduate in May with a master’s degree in rehabilitation counseling. “First, I wanted an education, and I knew my parents couldn’t afford it. I’d always had the dream of getting a degree, so I empowered myself to join the military for that specific reason,” he said.

Upon graduating from high school in 1995, Figueroa traveled immediately to Advanced Individual Training in Fort Sill, Okla. His 12 years of military service shaped his leadership skills and discipline, from his work in field artillery, as an instructor, and while on deployments during Operation Iraqi Freedom and Operation Enduring Freedom. He was honorably discharged in 2006. He and his wife, Marisela, have two children, now 22 and 18, and he enjoyed a successful career as a manager and instructor in the auto body business and entertainment business.

In 2020, at the height of the pandemic, he was laid off by his employer. “I had started my bachelor’s degree and never finished it, and I figured this was the time,” he said. He applied for Veterans Administration (VA) education benefits, returned to Cal Poly Pomona and finished his undergraduate degree in liberal studies.

After graduating in 2022, his VA counselor suggested he look into a master’s level program to become a veterans’ counselor. He chose Cal State San Bernardino’s Rehabilitation Counseling program.

“I loved how comprehensive it was in preparing counselors and training them to be ready to work with the population with disabilities,” he said. “The program included everything from understanding legislation and policies to medical aspects and understanding addiction. It’s the best decision I ever made.”

He also began working at the CSUSB Veterans Success Center as a veteran benefits and resource specialist paraprofessional. He has introduced numerous initiatives, including the establishment of a food pantry and a hygiene commissary, as well as a model telehealth program for mental health that universities throughout the country and Puerto Rico are beginning to adopt.

Figueroa’s immediate plan after graduation is to find full-time employment in a field focusing on student veterans. Ultimately, he plans to apply for a doctoral program in educational administration and become a professor.

In his official role as Student Veteran of the Year, Figueroa will serve a two-year term that will involve advocating with policy leaders on Capitol Hill on behalf of student veterans. He believes helping others is the ultimate purpose of leadership and hopes his work continues to inspire future student veterans.

# Graduate Studies Hosts 2025 Grad Slam Competition

Grad Slam 2025 held twice the excitement for the Office of Graduate Studies – after coordinating our campus-wide competition on April 9th, we had the honor of hosting the CSU system-wide competition in May!

Grad Slam: Three-Minute Thesis is a research communication competition and serves as a key professional development opportunity for our graduate students. Students are asked to present their research in a TED Talk-like presentation and evaluated by a panel of judges on both their delivery and the timing of the presentation, which is required to take no more than three minutes.

Our campus competition attracted 11 talented competitors:

- **Michelle Aguiar**, Communication Studies, M.A.
- **Brystal Nevins**, Communication Studies, M.A.
- **Stephanie Alfonso**, Communication Studies, M.A.
- **Natalie Aronson**, English and Writing Studies - Literature, M.A.
- **Sai Chandrahas**, Information Systems & Technology – Business Intelligence & Analytics, M.S.
- **Xochitl Baca**, Instructional Design and Technology, M.A.
- **Pablo Gutierrez Cervantes**, Educational Leadership, Ed.D.
- **Federico Sanchez**, Instructional Design and Technology, M.A.
- **Luis Gonzalez**, Psychological Science - Behavioral and Cognitive Neuroscience, M.A.
- **Juan Salcedo**, Applied Archaeology, M.A.
- **Gina Mosqueda-Lucas**, Applied Archaeology, M.A.

Our CSUSB first-place winner was **Gina Mosqueda-Lucas**, for her presentation on reawakening Chumash cultural knowledge of seagrass and seagrass cordage from Limuw, Santa Cruz Island. In second place, **Michelle Aguiar** took the prize for her research on the impact of disclosure and boundary dissolution on adult-children of Latino-immigrant parents. (Our audience also selected Aguiar as the People's Choice winner!) And in third place, **Stephanie Alfonso** was awarded for her work in identifying the best practices to support healthy local news systems.

At the 5th annual CSU Grad Slam we were joined by 19 sister campuses as well as 36 graduate student competitors. Students faced off in groups of six throughout the virtual competition, and the top competitor in each group moved on to the final round.

At the end of a fast-paced day of impressive presentations, three competitors stood out:

- First Place – **Lydia Durunguma**, San Jose State University;
- Second Place – **Sarah Holman De Bruyn**, CSU Fullerton;
- People's Choice – **Aiyana Diya Singh**, Sonoma State University.

A special thank you to our judges Joseph Kirschbaum from the U.S Government of Accountability Office, Dr. Jerry McMurtry of the University of Idaho, CSU Board of Trustee's member Jean Picker Firstenberg, and Vanessa Wiarco of KVCR Public Media, as well as our moderator, Lacy Kendall.

In case you missed it, both the CSUSB Grad Slam and CSU Grad Slam competition videos are available on our Graduate Studies Events page: [csusb.edu/graduate-studies/events](https://csusb.edu/graduate-studies/events)

From left, Michelle Aguiar, Stephanie Alfonso, and Gina Mosqueda-Lucas.
