

IN PERSON!

FALL

WORKSHOPS

ONE DAY - TWO OPTIONS

**Pedagogía con sabor: Cultivating
the Skills of Our Spanish-
Speaking Students**

In this workshop, we will share pedagogy and strategies in Spanish focused on developing the skills of our Spanish-speaking students. Through hands-on activities, reflection, and instructional resources, we will explore how to foster the creativity, critical thinking, and linguistic confidence our students need to succeed in our classrooms and on the 2026 AP Spanish Language Exam.

**Making Input Unforgettable:
Strategies for Daily CI Success**

Join us for a dynamic workshop that brings Comprehensible Input (CI) to life for all levels! Experience CI first-hand an Italian lesson as a non-native speaker, then explore strategies for sustaining target language use with authentic sources and culture-based projects. Learn how songs, games, graphic organizers, and daily routines can boost engagement and support every learner. Participants will leave with practical takeaways and resources to implement new ideas immediately.

Date: Saturday, September 27

Time: 9:00am-1:00pm

Cost: \$105

Location: Cal State San Bernardino
