FS 18/26 Menstrual Product Distribution (Discussion, Rendon)

M/S Pokharel/Darsh; motion to open FS 18/26 Menstrual Product Distribution.

The Committee received an update regarding concerns raised by the ASI President about the availability and functionality of menstrual product dispensers in SMSU restrooms. Operations staff inspected the dispensers, confirmed that most were functioning properly, and identified one dispenser in SMSU South that requires replacement. A procedure was also implemented for custodial staff to regularly check product levels, batteries, and dispenser functionality.

As an additional measure, menstrual products will be available at the information desks in both SMSU North and SMSU South in the event a restroom dispenser is unavailable or not functioning. The update was also shared with the ASI President. No questions were raised by the Committee.
