DEFINITION

Who Must Disclose? Any individual meeting the definition of “Investigator”, which means the project director or principal investigator and any other person, regardless of title or position, who is responsible for the design, conduct, or reporting of funded research or educational program (or proposed for research or educational program funding), which may include, for example, collaborators or consultants, and any other individuals (including personnel from other institutions) who are involved in accomplishing project objectives. “Investigator” may also include students, graduate and undergraduate, and other personnel who may be listed as authors on project results, even if they are not paid from the project.

The CSUSB COI Policy can be found at [CSUSB Conflict of Interest \(COI\) Policy for Sponsored Projects](#)

PROCEDURE/PROCESS

1. Prior to submitting a proposal to NIH/PHS, NSF or USDA, ORSP will collect the CSUSB Disclosure of Financial of Interest Form (“FCOI” form) from each investigator. Once awarded, during the period of an award, non-competing continuations, renewals, supplemental funding, or when new personnel are added SPA will collect the FCOI form from the Investigator, maintain and secure all FCOI forms, and will serve as the Office of Record.

- a. **Positive Disclosure**

If an Investigator submits a positive disclosure, the form shall be submitted to the Associate Provost for Research and Dean of Graduate Studies who will coordinate with the University’s Conflict of Interest Committee (“COI Committee”) for review. The COI Committee is designated to review financial disclosures and may request an Investigator for additional information, including completion of a COI addendum. The COI Committee will determine whether a conflict of interest exists and will make the determination on the process to manage, reduce or eliminate such conflict of interest.

- b. **Enforcement**

SPA shall report and refer instances of failure to disclose conflict(s) of interest and potential violation(s) of the resolution plan to CSUSB’s Human Resources Department. Disciplinary measures may be imposed following campus and system wide policies, procedures, and union contracts current at the time. Funding sources and other appropriate parties will be notified as required by state and federal laws and regulations and sponsored projects award documents. The CSUSB Human Resources Department is responsible for maintaining a complete listing of employees required to complete, notifying employees of training requirements, maintaining/monitoring training records, progress, completion, and issue/escalate reminders to ensure compliance.

Records: The information provided herein may be released or transmitted to the sponsor, including federal agency representatives, and according to the California Public Records Act, may also be released to the public, upon request. These records will be retained for 3 years after termination of the sponsored project or until resolution of any action by the sponsor, whichever is greater.
