

HOW TO USE FLASHCARDS EFFECTIVELY

01.

Sort Your Stack

- Go through 30 - 50 flashcards
 - If you know it instantly, put it in the **KNOW IT** pile.
 - If you struggle, put it in the **STRUGGLED** pile.

02.

Repeat the STRUGGLED pile

- Keep cycling through it until only 1–5 cards are still tough.

03.

Merge & Review

- Combine the final **STRUGGLED** pile with your last **KNOW IT** pile.
 - If you miss any, go through the entire pile again.

04.

Add & Expand

- Add this mastered pile to the next **KNOW IT** pile.
 - Test yourself — miss any? Review them all again.

05.

Finish Strong

- Repeat until you've mastered the entire original stack.
