

# CSUSB ART SAFETY COMMITTEE MEETING

April 10, 2019

## AGENDA

### A. Review and Follow-up of Items from Previous Meeting (January 2019)

#### 1. Table Discussion

### B. New Items/EHS Items

#### 2. Update/progress on Task Manager for Tracy Stark Inspection

#### 3. CSU Audit Findings

- RSS software implementation
- Procurement card restrictions
- Training requirements and documentation

#### 4. Personal Hearing Dosimetry for CNC Machine

- EH&S is testing the CNC Machine for a personal sound level reading during operation.
- Limited data observed will help determine if Visual Arts technicians will be a part of the Hearing Conservation Program.

#### 5. Workshop Safety

- Ensure that instructors/students are aware of training and safety requirements when working with machinery.
- Instructor supervision in teaching laboratories.
  - Dumpster Diving

#### 6. Chemical Inventory

- All areas with chemicals are required to have an active chemical inventory list and SDSs associated readily available.
  - RSS implementation will further assist in keeping a list.

#### 7. Workshop Waste Management

- Proper usage and management of print rags

- Be diligent in labelling chemicals and waste by-products containers.

8. New items from the table
