

## Financial Policy and Procedures

Approved and adopted per BD 11-18 | February 27<sup>th</sup>, 2018

**Purpose:** The purpose of this policy is to outline overall ASI fiscal procedures, describe the budgeting cycle and process, the mechanics of expending ASI funds, and the procedures for procuring and disposing of property and equipment. This policy cannot cover all contingencies. For those occasions for which there is no guidance, those concerned are expected to use sound and reasonable judgment.

**Scope:** This policy applies to all ASI personnel, and to all individuals and campus entities authorized to request ASI funding.

### **1. Budget Preparation and Control**

#### a. Budget Defined

A budget is a financial plan for a fixed period of time. It consists of an orderly arrangement of fiscal data determined by computed estimates of revenue and expenditures.

#### b. Preparation of Budget

- (1) Budget time line. The ASI annual budget shall be prepared on a time line which provides for two readings by the ASI Board of Directors (BoD), signatures, review by the University Accounting Office, and presentation to the University President at least 60 days before the close of the fiscal year. The ASI fiscal year will conform to the University's fiscal year.
- (2) Estimates of Revenue. The budget will contain a reasonable estimate of revenue from the Associated Students fees. Other sources of revenue expected during the fiscal year may be included.

#### c. Estimates of Expenditures:

- (1) Functions. The budget will contain an itemization of expenditures by eligible function, and will include all eligible functions and programs approved by the Associated Students, Inc. Board of Directors (BoD) as well as requests for new eligible functions or programs.
- (2) Deadlines: All ASI functions and their respective supervisors will be required to submit their itemized expenditures 120 days before the end of the fiscal year.

- (3) Functions. The expenditures for each function will be supported by line item detail.

The main functions to be used will be (a) salaries and wages, (b) operating expenses, and (c) equipment. Salaries and wages will include all amounts to be paid directly as salaries and amount to be paid for employee benefits (Social Security, retirement, health insurance, etc.)

- (4) Operating Expenses. Operating expenses will include amounts for services and supplies. Generally speaking, supplies and services are such things as paper, pencils, computer memory media, insurance, etc. In order to differentiate between supplies and equipment, the following definition applies: To be classified as equipment, the item must function of and by itself, and cost more than five hundred dollars (\$500.00) with a life expectancy greater than three (3) years. A component, regardless of its cost or life expectancy, will not be classified as equipment.
- (5) Line Item Detail. The budget will contain such line item detail that it will serve as a guide in the control of expenditures. The total amount in each category will be supported by such line item detail, i.e., the category "Operating Expense" may include these line items: office supplies, insurance, and postage. Line item numbers will be obtained from the Auxiliary Accounting Office.

d. Procedures:

- (1) Requests by Functions. In the initial preparation of the budget, persons responsible for the function needing funds will submit a written budget request to the ASI Vice President of Finance on forms supplied by the ASI Vice President of Finance. These requests must be prepared in sufficient detail (by function, category, and line item) to permit the compilation of the data. Information, if the data is available, on prior year expenditures will be shown for each function in a way that will allow easy comparison.
  - (a) Definition of an Eligible Function. The only eligible functions are any and all functions and committees of ASI.
- (2) Review and Analysis. After compilation of the requests, the ASI Vice President, Finance in conjunction with the ASI Executive Director will review and analyze the budget. The ASI Vice President of Finance/ASI Executive Director will present the request with the analysis and recommendation to the Finance Committee. The originators of the request or their designee must be present to provide explanation, justification, or amplification to the Finance Committee. A draft balanced budget with recommendations will be forwarded to the ASI BoD for their consideration and action.
- (3) Distribution. After final approval by the ASI BoD, the ASI President, and the President of the University, the budget will be printed in the proper format and transmitted to the Auxiliary Accounting Office.
- (4) The final budget shall be available by May 1<sup>st</sup>

## 2. Palm Desert Campus (PDC) Budget Preparation and Control

- a. The PDC campus accounts will be handled in the following manner:
- (1) During the annual budget preparation cycle, PDC will propose setting a percentage (not less than 10%) of their anticipated revenue into the PDC Reserve account. In the budget submittal documents the proposed percentage will be accompanied by the estimated dollar amount that percentage represents. The remainder of the funds will be budgeted in the other line items with any of the unrestricted going into the PDC Operating Reserves account. The total of the funds in the budgeted line items, PDC Operating Reserves and PDC Reserve will equal the total of the ASI fees collected for PDC students.
  - (2) Only students who are regularly enrolled (students enrolled at the College of Extended Learning are ineligible) at PDC paying ASI fees are eligible to be counted toward the quarterly and annual PDC budget.
  - (3) Accounting will obtain from CSUSB Institutional Research a headcount of students enrolled at the PDC campus each quarter. ASI will compute the Post-Census Revenue due to the PDC Operating Reserves account on a quarterly basis. Post-Census Revenue will be returned to the PDC Campus on the proportional basis described above. Should projected headcount fail to meet the budgeted headcount, then those funds will be returned to the ASI Unrestricted Net Assets Account.
  - (4) PDC will follow ASI policy by going through the ASI Finance Committee and the ASI Board of Directors in attempting to move money from PDC Operating Reserves to any of the PDC line items.
  - (5) PDC will not be eligible for any funds from the ASI reserve accounts other than PDC reserves without the expressed permission from the ASI BoD.
  - (6) The purpose of the PDC Reserve account is to present the ASI of a new CSU campus in the Palm Desert area which is converted from the current PDC campus with those funds accrued in the PDC Reserve account to assist them in starting a successful ASI program once the PDC campus becomes independent. Funds from this account shall not be taken unless an immediate emergency becomes present as deemed reasonable by the ASI BoD.
  - (7) Should ASI cease to exist at some point, then the CSUSB Accounting and Finance Department will impound those funds in the PDC budget (RN001-A6000) and the PDC Reserve account until ASI shall be reconstituted or the CSU shall establish a separate campus in the Palm Desert area at which time they will be turned over to the ASI which shall be incorporated on that campus.
  - (8) PDC will follow ASI financial policies and procedures regarding purchase orders, disbursement authorizations, contracts, etc. No changes will take place at PDC without the express approval of the ASI Board of Directors.

- (9) No ASI funds will be used to fund or support university operations without the approval of the ASI BoD.
- (10) PDC fiscal actions and expenditures of ASI funds will be subject to annual audit concurrently with the CSUSB ASI.
- (11) Line items in the PDC (RN001-A6000) budget that have unspent/unencumbered funds will revert to PDC Operating Reserves on the first day of each fiscal year.

### **3. Re-budgeting of Funds**

- a. The following policies will be followed with respect to interim and/or additional allocations in the budget.
  - (1) Salaries and Wages. The line items amounts and the totals for salaries and wages in any given function will not be increased or decreased without prior approval of the ASI BoD.
  - (2) Operating Expense (Total Amount). The total amount for operating expense within a given eligible function will not be increased or decreased without prior approval of the ASI BoD.
  - (3) The ASI BoD must approve all new functions or programs prior to approving funding to support these new functions or programs
  - (4) Operating Expense (Line Item). The line item amounts within a given function may be increased by the ASI Finance Committee by transfer from another line item in the same function. The aggregate increase for the entire fiscal year cannot exceed twenty-five thousand dollars (\$25,000) without the ASI BoD approval. To clarify this provision further, this means that the ASI Finance Committee has the authority to move money between line items in the same budget function. When the amount of money moved totals twenty-five thousand dollars within a fiscal year regardless of the number of budget functions which have been affected, the ASI Finance Committee will have used up their authority to transfer funds within that budget function.
  - (5) Request for an Allotment Transfer. After approval of a request to transfer funds from one allotment to another, a transfer form will be prepared by the ASI Vice President, Finance and transmitted to the Auxiliary Accounting Office for processing.
  - (6) Special Authorization. During the last four weeks of the fiscal year and the first four weeks of the new fiscal year, the ASI Executive Director will have the authority to transfer funds between accounts as necessary in order to meet financial obligations of the corporation and close out the accounts at the end of the fiscal year. This authority applies only to the funds affecting the fiscal year being closed out and not the new fiscal year.

- (7) Post-Census Revenue. Any surplus or deficits that are reported post-census will require the ASI BoD to act on them under the advisement of the ASI Executive Director and ASI Vice President of Finance within 60 days of the census date. Any surplus in revenue will be deposited in the ASI Operating Reserves accounts for future disbursement by the ASI BoD.
- (8) The ASI Finance Committee will have the authority to approve up to \$5,000 in internal transfers and \$1,000 in external requests. Requests that exceed these amounts will require approval from the ASI Finance Committee and ASI BoD. Any transfers from Unrestricted Net Assets must go to the BoD for approval.
- (9) The ASI Finance Committee will have the authority to donate up to \$5,000 to on-campus entities without ASI BoD approval. Donation requests that exceed \$5,000 or are requested by off-campus entities must be approved by the ASI Finance Committee and the ASI BoD.
  - i. The Finance Committee will only consider request(s) up to \$5,000 annually per organization with the aggregate total not to exceed \$5,000 per year.
- (10) Allocation or donation of funds approved by the Finance Committee shall be reported to the ASI BoD by the ASI Vice President of Finance or their designee.

#### **4. Accounting**

##### **a. Type of Accounting Records**

The accounting records will be established by function and by expenditure categories within the function.

##### **b. Maintaining Accounting Records**

The accounting records will be maintained by the Auxiliary Accounting Office. Sound accounting practices will be used, and the various State laws and rules governing the California State University will be followed. Substantiating documents, i.e., approved requisitions, purchase orders invoices, and time sheets will be filed in the Auxiliary Accounting Office so as to be available at all times for audit by independent certified public accounts, the Audits Division, State Department of Finance, and the Chancellor's Audit Staff.

##### **c. Chart of Accounts**

A chart of accounts will be compiled as needed by the Auxiliary Accounting Office.

##### **d. Financial Report**

During the Fiscal Year, the Auxiliary Accounting Office will make monthly reports to the Associated Students, Inc., indicating the balances remaining in each function and conversely, the amounts expended. Upon the request of the ASI Vice President of Finance/ASI Executive Director, detailed reports showing the financial status of a specific function will be prepared.

## 5. Document Signature Authority

- a. Each year following the ASI elections, the ASI Executive Assistant will prepare a memo with the signatures of all the individuals entitled to sign documents which commit the corporation to expending ASI funds. The memo will indicate the primary and backup signatures for each document authorizing the expenditure of funds, and will be forwarded to the Auxiliary Accounting Office prior to the first day the new officers assume their duties.
- b. In signing documents for the preparation of purchase orders, Speakers/Performers Contracts (SPC) and disbursement authorizations, it is desirable that no one signature appear more than one time on any document. In the case of a purchase order or an SPC, any of the individuals who signed the requisition or the purchase order/SPC may sign the disbursement authorization. In those cases where a disbursement authorization is created from a requisition requesting a check, the person signing the disbursement authorization should not have signed the requisition. It is conceivable that in an emergency situation, this policy may have to be waived; however, those authorized to expend ASI funds should avoid waiving it for expediency. The purpose of this policy is to ensure that the widest possible scrutiny by ASI management is afforded purchases from ASI funds.

## 6. Purchases and Contracts from ASI Funds

### a. Requisition

A requisition should be initiated by the function requesting the supplies or service. The requisition should be completed to indicate the proper budgetary classification, i.e., function, category, and line item. After approval by corporate officers as designated on the “Authorized Signatures” memo on file in the Auxiliary Accounting Office, the requisition is ready to be processed. A sample of a requisition is in the *Procedures* section of the annual *ASI Budget and Procedures* booklet.

### b. Purchase orders will be prepared in duplicate with distribution as follows:

1. Original to vendor.
2. A copy for the ASI office files.

g. The ASI Executive Director will have signature authority in coordination with the corporate officers over those budget items (personnel and operating items) directly under the corporation. For all other expenditures, the ASI Executive Director's signature authority will be in accordance with the "Authorized Signature" memo on file at the Auxiliary Accounting Office.

h. Spending Controls

All expenditures above \$1,500 from the following accounts will need prior approval from the Finance Committee and the Board of Directors three (3) weeks prior to the event/activity, or any related purchases. The following accounts are affected:

All persons or organizations not part of the ASI structure requesting to use equipment must receive written approval from the ASI Executive Director, must check out equipment by the ASI Executive Assistant or their designee, and must sign a contract acknowledging liability and terms of agreement. If the ASI Executive Director and the ASI Executive Officer deems it cost effective to repair the item and bring it up to a reasonable standard of safety, then it may be disposed of as described in paragraph (5), (a) and (b) above. Any unsafe item unworthy of being auctioned, sold, or donated will be thrown away, or salvaged in accordance with paragraph (5)(b)(1) above.

- b. ASI will not provide funding to support departmental events/activities/programs without the approval of the ASI Finance Committee or BoD. The purpose of this provision is to ensure that university departments do not ask students to fund events/activities/programs which should be borne by the department. It will be up to the Finance Committee and/or the Board of Directors to determine if a proposed event/activity/program is departmental in nature.
- c. Chartered clubs/organizations seeking funds for events should submit their request to the CAB Committee. Any individual or group requesting funds from the ASI BoD for such activities will be directed the CAB Committee rather than being placed on the ASI BoD's agenda. The ASI BoD will not directly fund such events. The CAB Committee has a BoD approved policy which must be followed for the orderly disbursement of funds. Failure to follow the policy will result in the loss of funding and possible censure.
- d. Requests without Finance Committee approval may be heard by the ASI BoD. A 2/3 vote of approval by the voting members of the ASI BoD is required to bring the request to the floor for discussion or action.
- e. ## **25. Reporting**

ASI requires that all ASI personnel who use ASI funds to travel to submit a written report on the event, meeting, activity, etc. they participated in to the ASI BoD within two weeks of their return to the campus. If the BoD is not in session (e.g., during the summer break), then the report will be submitted to the Executive Committee. If the traveler fails to submit a written report within the prescribed time indicated above, the ASI Executive Director, at his/her discretion, will demand that the traveler make restitution of the travel funds to ASI.
