The agenda was adopted as amended.

**OPEN FORUM:**

Edgar Pazmino stated that he is a student with a learning disability and requires an audiobook software program which will read a book out loud at three times the speed while he follows along with a physical book. This allows him to not fall behind in any of his classes. On September 6th he received his books late from the Coyote Bookstore which caused him to fall behind in his studies, assignments and quizzes. When he received his books, the store manager told him that his books were ordered late due to the store being understaffed. After receiving his books, he went to meet with his counselor, Ken at the Services to Students with Disabilities (SSD) Center to ask if his audiobooks were ready. One of the workers at the SSD Center told him that the order had never been placed due to Ken not mentioning anything in his accommodations. He hopes the Board could look into this issue in order to prevent it from happening to other students in the future.
