Goals and Objectives

Student Success: Provide learning experiences to promote student success, achievement and academic excellence and prepare students to contribute to a dynamic society.

Objectives:

1. All undergraduate students will participate in at least three High Impact Practices (HIPs) by graduation starting with the fall 2015 cohort of incoming first-year students, preferably including one HIP within the context of the each student's major.
2. Adopt the Institutional Learning Outcomes and use the assessment of them to guide continuous program improvement.
3. Conduct annual surveys to assess students' sense of belonging, engagement and inclusion. Establish a baseline and then ensure that by 2020 at least 85% of students self-report positive engagement, sense of belonging and understanding of diversity and inclusion.
4. Increase student success by maintaining high academic standards while reducing the overall grades of D, F, Withdrawal, and Incomplete (DFWI) rate by two percentage points per year (compared to three-year rolling averages) through improved course learning conditions and enhanced co-curricular support.
5. Stay on track to meet or exceed the CSU's *Graduation Initiative 2025* targets with a four-year graduation rate in 2020 of 15% or higher, a six-year graduation rate of 52% or higher, and an

underrepresented minority (URM)/non-URM achievement gap of 0%. For transfer students, by 2020 achieve a 36% two-year graduation rate and a 72% four-year graduation rate. Reduce by half the achievement gaps for males and Pell-eligible students. Decrease average time-to-completion for students who enroll as freshmen from 5.6 to 5.0 years by 2020. For transfer students, decrease average time-to-completion from 3.1 to 2.7 years by 2020.

6. To foster the success of graduate students, by June 2017, the campus will complete a program evaluation of graduate education at CSUSB. From 2017 through 2020, these recommendations will be implemented.

Strategy 1: Enhancing Student Engagement and Learning

Contributes to objectives 1, 3, 4, 5 and 6.

- A. Provide evidence-based academic and social support programs to help students succeed. This will include:
 - i. Re-envisioning our current student cultural centers into a model informed by the research literature on student success and student identity development as well as our own anti-deficit-based research conducted at CSUSB.
 - ii. Ensuring that student support programs are systematically delivered effectively and efficiently.
 - iii. Intentionally and explicitly connecting learning across curricular and co-curricular experiences so that students better understand the purposes of higher education and learn strategies that promote resilience and success beyond graduation.
 - iv. Ensuring that during the process of semester conversion the ILOs are included among the guiding principles in curriculum redesign.

Strategy 2: Enhancing instructional quality

Contributes to objectives 6, 5, 4, 2 and 1.

- A. Intentionally offer administrative support, stipends, re-assigned time, etc., to encourage and reward faculty as they continually improve their classroom teaching through integrating evidence-based and equity-based pedagogical strategies that enhance student learning and success. This could include faculty fellowships to promote the development of major- (or meta-major-) based High Impact Practices (HIPs).
- B. The Teaching Resource Center will partner with groups from across campus to offer annual mini-conferences on effective teaching to which all faculty will be invited.
- C. In decisions about hiring new tenure line faculty members, consider what our institutional patterns and the research literature tell us about where decreased class size would have the greatest impact on teaching effectiveness and on student success.

- D. New faculty hires will be required to attend workshops on effective teaching regularly throughout the first year of employment.
- E. Create a campus-wide High Impact Practices (HIPs) Community of Practice to support the implementation of high impact practices.
- F. Create Learning Communities (residential and non-residential) designed around evidence-based best practices that include cohorts, block scheduling, intentionally connected courses, peer mentoring, and structured learning supports (e.g., tutoring and Supplemental Instruction).

Strategy 3: Foster Success of Graduate Students

Contributes to Objective 2, 3 and 6.

- A. Survey graduate students and graduate programs.
- B. Develop, implement and communicate a Graduate Studies strategic plan.
- C. Define and implement Graduate High Impact Educational Practices (G-HIPs) that promote retention, graduation and time to degree.
